They do not include all the information required for a complete set of IFRS financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual financial statements.

The Group's last annual consolidated financial statements is available on the company's website, www.siminn.is, and in the company news release distribution network of Nasdaq Nordic: www.nasdaqomxnordic.com.

This is the first set of the Group's financial statements in which IFRS 16 has been applied. Changes to significant accounting policies are described in note 3

These interim financial statements were approved and authorised for issue by the Company's Board of Directors on 30 April 2019.

Basis of measurement

These interim financial statements have been prepared on the historical cost basis.

Presentation and functional currency

These interim financial statements are presented in Icelandic Krona (ISK), which is the Company's functional currency. All financial information presented in ISK has been rounded tho the nearest million.

Use of judgements and estimates

In preparing these interim financial statements, management has made judgements and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

3. Changes in accounting policies

The accounting policies applied in the consolidated financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 31 December 2018, except for the new significant judgements related to lessee accounting under IFRS 16.

The Group has initially applied IFRS 16 effective from 1 January 2019. The Group also changed it's accounting method for TV rights. Previously, TV rights were accounted for as inventories under IAS 2 and expensed as material expense. Due to major changes in the TV business environment and in the Group's business model in recent years the Group's TV rights have been recognised as of 1 January 2019 as an intangible asset in accordance with IAS 38. The Group recognises a depreciation charge for TV rights.

IFRS 16 Leases

IFRS 16 introduced a single, on-balance sheet accounting model for lessees. As a result, the Group, as a lessee, has recognised right-of-use assets representing its rights to use the underlying assets and lease liabilities representing its obligation to make lease payments. Lessor accounting remains similar to previous accounting policies.

The Group has applied IFRS 16 using the modified retrospective approach, with right-of-use assets equal to lease liability at 1. January 2019. Accordingly, the comparative information presented for 2018 has not been restated - i.e. it is presented, as previously reported, under IAS 17 and related interpretations. The details of the changes in accounting policies are disclosed below.

3. Changes in accounting policies, contd.:

Leases in which the Group is a lessee

The Group has recognisee new assets and liabilities for its leases of buildings, cars and fiber optics. The nature of expenses related to those leases has changed because the Group recognises a depreciation charge for right-of-use assets and interest expense on lease liabilities.

Previously, the Group recognised operating lease expense on a straight-line basis over the term of the lease, and recognised assets and liabilities only to the extent that there was a timing difference between actual lease payments and the epxense recognised.

The Group presents right-of-use assets in 'property, plant and equipment', the same line item as it presents underlying assets of the same nature that it owns. The carrying amounts of right-of-use assets are as below.

	Telecom equipment	Buildings	Other equipment	Total
Balance at 1.1.2019	156	5.350	61	5.567
Balance at 31.3.2019	154	5.216	67	5.437

The Group presents lease liabilities in non-current liabilities in the statement of financial position.

Leases in which the Group is a lessor

No impact is expected for other leases in which the Group is a lessor.

Impacts for the period

As a result of initially applying IFRS 16, the Group recognised ISK 5.437 million of right-of-use assets and ISK 5.482 million of lease liabilities as at 31 March 2019.

Also in relation to those leases under IFRS 16, the Group has recognised depreciation and interest costs, instead of operating lease expense. During the three months ended 31 March 2019, the Group recognised ISK 166 million of depreciation charges and ISK 69 million of interest costs from these leases. Payment of lease liability was ISK 131 million.

TV rights, a change in accounting policy

The Company's TV right is now presented as an intangible asset in Non-current assets but were previously presented as inventories in Current assets. Because of that change the comparative information 31.12.2018 is restated. ISK 763 million are now presented as intangible asset but were previously presented as inventories and ISK 150 million are now presented in prepayments but wer previously presented as inventories.

Also in relation to this change, the comparative information for cost of sales for the three montsh ended 31 March 2018. Cost of service sold, i.e. material cost, is decreased by ISK 173 million and depreciation increases by the same amount. See note 6.

4. Operating segments

An overview of operating segments is set forward in same manner as regular reporting to the Board of Directors.

The Company operates within seven segments that sell services and equipment in different markets. The operating segments are as follows:

15. Legal proceedings

The Company is currently involved in several legal disputes that relate to Competition, Media and Telecommunication Act. Sýn hf. (Vodafone) has sued Síminn for damages due to alleged margin squeeze. The amount of the claim is around 900 million ISK. Inter, an association of ISP, sent the Company a letter in 2015 claiming damages in the amount of three billion ISK due to alleged infringement of the Competition Act. Three companies within the association have requested the appointment of a court appointed assessor to estimate the alleged damages. They also changed the claimed damages to 300 million ISK. TSC ehf. has sued Síminn for damages in the amount of one hundred million ISK plus costs and interest due to alleged infringement of the Competition Authority's decision no 10/2005. The District Court of Reykjavík has concluded that Síminn should pay ISK 50 million plus costs and interest. Síminn has rejected the claims in all cases and countersued Vodafone. In the case of Vodafone against Síminn and Síminn's countersue against Vodafone, the District Court acquitted both companies. The case will be appealed to National Court. Síminn also appealed the District Court ruling in the case of TSC ehf. to National Court.

Síminn and Vodafone have been in a dispute regarding distribution of media content. The Competition Authority and Post- and Telecommunication Authority ruled that Síminn breached against media act no. 10/2018 and fined Síminn. The fine, 9 million ISK has already been payed. The Company believes that its actions are fully compliant with the relevant Acts and will appeal. Subsequently Vodafone has filed a claim against Síminn for compensation of 1.9 billion ISK. Síminn rejected the claim and pointed out that in Vodafone claim there are no arguments for compensation, nor an attempt to prove the alleged loss. Síminn believes there is no base for the claim from Vodafone. Gagnaveita Reykjavíkur has filed a claim against Síminn of 1.3 billion ISK. Síminn has rejected the claim and has pointed out that in the claim there are no arguments to conclude that conditions for liability damages existed. Síminn believes there is no base for the claim.

In December 2015 the District Commissioner of the Capital Area approved Síminn's request to impose an injunction against Vodafone due to the distribution of non-liner media content. Síminn consequently initiated a confirmation procedure before the District Court of Reykjavík. The District Court approved the Company's request in April 2017. Vodafone appealed to the Supreme Court of Iceland which on 18 October 2018 confirmed the District Court ruling. The Supreme Court ruled that Síminn had sufficiently demonstrated that financial damage could have been attributed to Vodafone's conduct. Síminn has sued Vodafone for the District Court of Reykjavík and made a claim of 555 million ISK.

Despite the uncertain nature of the outcome of these cases, it is the management opinion that the cases will not result in substantial financial cost. In those cases where the Company might be forced to pay damages, the cost is estimated by the management and recognised in the financial statement.
