

Bekaert publishes its first Integrated Annual Report

The Bekaert Annual Report 2021 marks the start of our transition toward full integrated reporting. It expresses the company's commitment to both financial and non-financial targets and delivery.

Bekaert does no longer publish a separate Sustainability Report from this edition onwards. We have integrated all non-financial disclosures in line with the guidelines of the Corporate Sustainability Reporting Directive and will further extend the detail and scope of our targets and disclosures in coming years.

Our approach puts the value and impact we create, as a company, in a broader perspective.

Beyond reporting, beyond financials, beyond tomorrow.

The report is available in English and Dutch.

The full report can be accessed here: <https://annualreport.bekaert.com> - both in an interactive online version as well as in PDF.
