

PRESS RELEASE

Unsere Grüne Glasfaser and Solutions30 launch a strategic partnership to deliver fiber optic connections to German homes.

Ismaning, Germany
Luxembourg January 15th, 2024

Strategic partnership between Solutions30 and Unsere Grüne Glasfaser (UGG), a joint venture of Allianz and Telefónica, to roll-out a fibre optic FTTH network in Germany. Solutions30 will support UGGs goal of giving high-speed internet access to about 2 million households in Germany.

Solutions30 has extensive expertise in the rollout of high-speed Internet networks, gained across Europe, and particularly in France, Belgium, and the Netherlands, where a large number of homes of the territory has been or is being connected to fibre optics. Solutions30 and Unsere Grüne Glasfaser will start the cooperation with first deployments in the city of Iserlohn.

Commenting on the partnership, Jörn Schoof, Chief Commercial Officer at Unsere Grüne Glasfaser, said: "UGG has set itself an ambitious target for network expansion in order to provide a fast FTTH network in many parts of Germany." To successfully deliver our projects, we have chosen to partner with companies that have demonstrated extensive experience in the deployment of FTTH networks. Therefore, we are delighted to have the Solutions30 team on board as one of our partners."

Luc Brusselaers, Chief Revenue Officer of Solutions30, added: "We are extremely proud to support this ambitious project for Germany and very grateful to Unsere Grüne Glasfaser, Eduardo de Santos (Chief Technology Innovation Officer), Angie Hagemann (Chief Construction Officer) and their teams for their confidence. Our expertise in delivering turnkey fibre optics networks, from design to subscriber connections followed by maintenance and assistance to clients, will allow us to provide efficient support for the rapid ramp-up of the projects in Germany. These are especially exciting and inclusive projects as they create value for our territories and generate significant employment opportunities. This new contract in Germany is a demonstration of Solutions30's dynamic markets and underlines our ongoing commitment to digital transformation in Europe."

About Solutions30 SE

Solutions30 provides consumers and businesses with access to the key technological advancements that are shaping our everyday lives, especially those driving the digital transformation and energy transition.
