## **Agfa receives final expert ruling on receivable related to sale of Offset Solutions division to Aurelius**

**Mortsel, Belgium – January 16, 2026 – 6.30 p.m. CET**

Agfa has received the final report of the independent expert regarding the outstanding receivable under the share purchase agreement that was signed with Aurelius Group for the sale of Agfa's Offset Solutions division.

In August 2022, Agfa announced the signing of a share purchase agreement with Aurelius Group for the sale of its Offset Solutions division. At year-end 2024, the total outstanding receivable related to the purchase price adjustment amounted to 31.4 million euro. Of this amount, 19.1 million euro was disputed by Aurelius. In April 2025, Aurelius paid 5.9 million euro of the undisputed part of the total outstanding receivable.

The independent expert has now determined the price adjustment amount to be 14.7 million euro. This determination automatically also triggers the payment of 5.2 million euro of the undisputed part. Payments are due within 15 business days.

Pascal Juéry, CEO of the Agfa-Gevaert Group, commented: "We are very satisfied that, more than 3 years after the announcement of the sale transaction, we can finally close this chapter. We can now fully focus on the ongoing transformation of the company, for which the amount we are about to receive will be deployed."
