

A Multi-Phased Growth Project

Large-scale LPG and bulk liquids marine export terminal

Phased construction for a capital-efficient build-out

Phase 1: LPG and Dock

- A Facility & balance of plant**
 - 55,000 Bbl/d of initial export capacity
- B Storage**
 - 600,000 Bbls of initial LPG storage
- C Rail Offloading and Yard**
 - 10 x dual sided rail offloading
 - 25 km multi-track; unit-train capable
- D Jetty**
 - 1,100 m multi-product jetty (multi-buoy system) structure

Phase 2A: LPG Expansion

- E Expansion Storage**
 - Additional LPG storage for future expansion phases.

Phase 2B: Bulk Liquids

- F Bulk Liquids Storage and Infrastructure**
