

Technip Energies Announces Launch of Share Buy-Back Program

May 12, 2025

Technip Energies (PARIS:TE) (the “**Company**”), a global technology & engineering powerhouse leading in energy and decarbonization infrastructure, today announces the launch of a share buy-back program of up to €45 million (the “**Share Buy-back Program**”) to be used to fulfill the Company's obligations under equity compensation plans. The maximum number of shares that can be acquired under the Share Buy-back Program is 1.5 million. The Share Buy-back Program is to be carried out until December 31, 2025.

The Share Buy-back Program was decided by the Company's Board of Directors and will be implemented in accordance with the provisions of article 5 of the Market Abuse Regulation (EU) 596/2014 and Commission Delegated Regulation (EU) 2016/1052.

The Share Buy-back Program will be carried out pursuant to the authorization to repurchase shares granted by the Company's shareholders at the Annual General Meeting on May 6, 2025. The shareholders resolution authorizes the Company to acquire up to 10% of the Company's issued share capital during a period of 18 months at prices ranging from the nominal value of the shares up to 110% of the market price of the shares, for purposes of, amongst other topics, the return of capital to shareholders, to carry out repurchases under the Company's share liquidity program, and/or, to the extent such authorization is required, to fulfil the Company's obligations under its equity compensation plans.

On April 30, 2025, the Company held 1,695,974 treasury shares, representing 0.95 percent of its issued share capital. Such shares are currently being held for purposes of fulfilling the Company's obligations under its equity compensation plans.

The Company has appointed a broker to execute the Share Buy-back Program in accordance with all applicable regulations. The broker will make decisions relating to the repurchase of Company shares independently, including with respect to the timing of any repurchases, and all repurchases effected will be in compliance with daily limits on prices and volumes.

The price paid for any share repurchased pursuant to the Share Buy-back Program will be subject to a maximum amount equal to the greater of (i) the price of the last independent trade and (ii) the highest current independent purchase bid on the regulated market of Euronext Paris. It will be subject to all other terms and conditions that may be agreed with the broker.

The actual timing, number and value of Company shares repurchased under the Share Buy-back Program will depend on a number of factors, including market conditions, general business conditions and applicable legal requirements. The €45 million allocated to the Share Buy-back Program does not include amounts to cover ancillary costs. The Company is not obligated to carry out the Share Buy-back Program, and, if commenced, the Share Buy-back Program may be suspended or discontinued at any time, for any reason and without previous notice, in accordance with applicable laws and regulations. All repurchased shares will be held as treasury stock.

The Company will issue the required press releases that will disclose the share repurchases effected pursuant to the Share Buy-back Program, as required by applicable laws and regulations, and will make the necessary regulatory filings. The press releases and the transactions carried out will also be published on the Company's website at

<https://investors.technipenergies.com/financial-information/notice-trading-own-shares>. The costs that the Company may incur in connection with the repurchase of the shares pursuant to the Share Buy-back Program will depend on the price and the terms on which actual purchases are made.

About Technip Energies

Technip Energies is a global technology and engineering powerhouse. With leadership positions in LNG, hydrogen, ethylene, sustainable chemistry, and CO₂ management, we are contributing to the development of critical markets such as energy, energy derivatives, decarbonization, and circularity. Our complementary business segments, Technology, Products and Services (TPS) and Project Delivery, turn innovation into scalable and industrial reality.

Through collaboration and excellence in execution, our 17,000+ employees across 34 countries are fully committed to bridging prosperity with sustainability for a world designed to last.

Technip Energies generated revenues of €6.9 billion in 2024 and is listed on Euronext Paris. The Company also has American Depositary Receipts trading over the counter.

Forward-Looking Statement

This press release contains forward-looking statements that reflect Technip Energies' (the "**Company**") intentions, beliefs or current expectations and projections about the Company's future results of operations, anticipated revenues, earnings, cashflows, financial condition, liquidity, performance, prospects, anticipated growth, strategies and opportunities and the markets in which the Company operates. Forward-looking statements are often identified by the words "believe", "expect", "anticipate", "plan", "intend", "foresee", "should", "would", "could", "may", "estimate", "outlook", and similar expressions, including the negative thereof. The absence of these words, however, does not mean that the statements are not forward-looking. These forward-looking statements are based on the Company's current expectations, beliefs and assumptions concerning future developments and business conditions and their potential effect on the Company. While the Company believes that these forward-looking statements are reasonable as and when made, there can be no assurance that future developments affecting the Company will be those that the Company anticipates.

All of the Company's forward-looking statements involve risks and uncertainties, some of which are significant or beyond the Company's control, and assumptions that could cause actual results to differ materially from the Company's historical experience and the Company's present expectations or projections. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those set forth in the forward-looking statements.

For information regarding known material factors that could cause actual results to differ from projected results, please see the Company's risk factors set forth in the Company's 2024 Annual Financial Report filed on March 10, 2025, with the Dutch *Autoriteit Financiële Markten* (AFM) and the French *Autorité des Marchés Financiers* (AMF), which includes a discussion of factors that could affect the Company's future performance and the markets in which the Company operates.

Forward-looking statements involve inherent risks and uncertainties and speak only as of the date they are made. The Company undertakes no duty to and will not necessarily

update any of the forward-looking statements in light of new information or future events, except to the extent required by applicable law.
