## **Endorsement and Statement**

## by the Board of Directors and the CEO

These are the Condensed Interim Consolidated Financial Statements of Kvika banki hf. ("Kvika" or the "Bank") and its subsidiaries (together the "Group") for the period 1 January to 30 June 2024.

#### About the Bank

Kvika is a specialized financial institution strategically positioned to increase competition and transform financial services in Iceland. Operating without a branch network, Kvika provides businesses, investors, and individuals with investment banking, insurance, asset management, payment, and banking services. The Bank is listed on the main list of Nasdaq OMX Iceland.

Kvika operates in four business segments, two which are operated under the Kvika Bank brand, Commercial banking, and Corporate Banking and Capital Markets, and two in own-brand subsidiaries, Kvika Asset Management and Kvika Securities Ltd., the Group's operations in the UK. The insurance segment, operated through the subsidiary TM tryggingar hf. ("TM") has been discontinued as TM is currently in a sales process.

Kvika operates as well as a house of brands that are highly focused and excel in their field. The main brands are Kvika, Kvika Asset Management, Auður, Aur, Lykill, Netgíró, and Straumur, as well as Ortus Secured Finance in the UK.

#### Operations during the period in 2024

Profit before taxes from continuing operations for the second quarter amounted to ISK 1,189 million (Q2 2023: ISK 1,517 million) and for the first six months of the year it amounted to ISK 2,404 million (6m 2023: ISK 2,412 million). Pre-tax annualised return on weighted tangible equity (RoTE) from continuing operations was 14.6% for the quarter and 15.4% for the first six months, based on the tangible equity position of Kvika, net of TM, at the beginning of the year adjusted for changes in share capital and transactions with treasury shares during the period. Profit after taxes, including discontinued operations, for the second quarter amounted to ISK 1,256 million (Q2 2023: ISK 745 million) and for the first six months of the year it amounted to ISK 2,340 million (6m 2023: ISK 1,912 million).

The Group's net operating income during the first six months was ISK 8,064 million (6m 2023: ISK 7,825 million). Net interest income amounted to ISK 4,754 million (6m 2023: ISK 3,841 million). Net fee income amounted to ISK 2,984 million (6m 2023: ISK 3,015 million). Other operating income amounted to ISK 326 million (6m 2023: ISK 969 million). Administrative expenses during the period amounted to ISK 5,399 million (6m 2023: ISK 5,373 million). During the period, the Group had a net impairment charge of ISK 253 million (6m 2023: ISK 40 million).

#### **Financial position**

According to the Consolidated Statement of Financial Position, equity at the end of the period amounted to ISK 84,422 million (31.12.2023: ISK 81,958 million), and total assets amounted to ISK 359,430 million (31.12.2023: ISK 335,397 million).

The Group's statement of financial position grew by ISK 24 billion or 7.1% during the period in 2024. Loans to customers grew by ISK 10.4 billion or 7.6% during the period. Liquid assets amounted to ISK 114.0 billion at end of June 2024, or 31.7% of total assets.

In May 2024 Kvika concluded a SEK 500 million tap of floating rate bonds issued in May 2023 on the back of investor enquiry. Kvika previously issued SEK 275 million, bringing the total issued amount to SEK 775 million in the series. The bonds, which mature in May 2026, were priced at a spread of 240bps over 3-month STIBOR. The trade represented a meaningful pricing improvement for Kvika as the series was previously issued at 410bps over 3-month STIBOR.

In May 2024 Kvika redeemed the Tier-2 subordinated notes KVB 18 02 for a total amount of ISK 800 million. The redemption had been pre-funded in December 2023 through an offering of Tier-2 subordinated bonds in a new series for ISK 2,000 million. The new series of Tier-2 subordinated bonds was then tapped in July 2024, with an additional issuance of ISK 500 million, which will be used to strengthen the capital base of the Bank.

## Purchase agreement for the sale of TM tryggingar hf. signed

On 30 May 2024 the Bank announced that it had signed a purchase agreement with Landsbankinn hf., in which Landsbankinn hf. purchased 100% of the share capital in TM. On 17 March 2024 the Bank announced that it had received binding offers for the purchase of the share capital of TM. Due diligence review has been completed and the purchase agreement is signed with standard conditions of approval from The Financial Supervisory Authority of the Central Bank of Iceland and the Competition Authority. The purchase price according to the purchase agreement is ISK 28.6 billion and Landsbankinn hf. will pay for the share capital in cash. The purchase price is based on TM's balance sheet at the end of 2023. The final purchase price will be adjusted for changes in TM's tangible equity from the beginning of the year 2024 to the completion date, and the amount of the change will be added to or subtracted from the price according to the purchase agreement.

Following the signing of the purchase agreement with Landsbankinn hf., and anticipating changes to the Kvika Group, a decision was made to restructure the CEO's office. This included abolishing the position of deputy CEO.

#### Capital adequacy and dividends

The Financial Supervisory Authority of the Central Bank published the results of the Supervisory Review and Evaluation Process ("SREP") for Kvika based on financial information at year-end 2023 on 10 July 2024. The capital requirement under Pillar II changed to 3.6% of total risk-weighted exposures, a decrease of 0.4pp from the year before. Concurrently, the systemic risk buffer increased 0.2pp due to changes in composition of risk weighted exposure between Iceland and UK. Hence Kvika's total capital requirement at 30.06.2024, taking into account all capital buffers, amounted to 18.9%. Kvika's capital adequacy ratio was 22.1% at the end of June 2024 (31.12.2023: 22.6%). Kvika's CET1 requirement was 13.8% compared to a CET1 ratio of 19.4% at the end of June 2024.

The Group's solvency ratio at 30.06.2024 was 1.20 (31.12.2023: 1.25) with a regulatory minimum requirement of 1.0.

The Bank's 2024 Annual General Meeting ("AGM") approved a motion from the Board of Directors ("BOD") permitting the Bank to purchase up to 10% of own shares subject to regulatory approvals. This authorisation applies until the next annual general meeting in 2025. In July, the BOD decided to exercise a part of that authorisation and established a buy-back programme to carry out the purchase of shares for a total consideration amount of ISK 1 billion but for no higher nominal amount than 100,000,000 shares.

The 2024 AGM also approved a motion from the BOD to, subject to approval from the Financial Supervisory Authority of the Central Bank of Iceland, decrease the share capital of the Bank by 58,952,375 shares by cancelling treasury shares held by the Bank. In March 2024, the share capital reduction was carried out.

Furthermore, the 2024 AGM approved a motion from the BOD that no dividend will be paid in the year 2024 on 2023 operations. The BOD intends, through the purchase of own shares, to meet the Bank's dividend policy, which states that the aim is for shareholders to be returned an annual dividend of at least 25% of last year's profit after taxes, whether in the form of dividends or through the purchase of own shares. The BOD has not ruled out that it might call to a meeting of shareholders later in the year 2024 to discuss potential dividend payments if the conditions arise, e.g. following the sale of TM.

#### Risk management

The objective of risk management is to promote a good and efficient culture of risk awareness within the Group and to increase the understanding of employees and management on the Group's risk taking, in addition to an assessment process related to risk and capital position. An emphasis is placed on being up to speed on the latest developments and adoption of rules related to risk management, such as regarding capital- and liquidity management. The Group faces various risks associated with its operations as a financial conglomerate that arise from its day-to-day operations. Active risk management entails analysing risk, measuring it and taking actions to limit it, as well as monitoring risk factors across the Group. The Group's risk management and main operations are described in the notes accompanying the Condensed Interim Consolidated Financial Statements. Refer to notes 39-54 on the analysis of exposure to various types of risk.

## Statement by the Board of Directors and the CEO

The Condensed Interim Consolidated Financial Statements of Kvika banki hf. for the period 1 January to 30 June 2024 have been prepared in accordance with IAS 34 Interim Financial Reporting as adopted by the EU, and additional requirements, as applicable, in the Act on Annual Accounts no. 3/2006, the Act on Financial Undertakings no. 161/2002 and rules on accounting for credit institutions no. 834/2003.

To the best of our knowledge these Condensed Interim Consolidated Financial Statements give a true and fair view of the Group's assets, liabilities and financial position as at 30 June 2024 and the financial performance of the Group and changes of cash flows for the period 1 January to 30 June 2024. Furthermore, in our opinion the Condensed Interim Consolidated Financial Statements and the Endorsement of the Board of Directors and the CEO give a fair view of the development and performance of the Group's operations and its position and describe the principal risks and uncertainties faced by the Group.

The Board of Directors and the CEO of the Bank have today discussed the Condensed Interim Consolidated Financial Statements for the period 1 January to 30 June 2024 and confirmed them by the means of their signatures.

# Review Report on the Condensed Interim Consolidated Financial Statements

#### To the Board of Directors and Shareholders of Kvika banki hf.

We have reviewed the accompanying Condensed Consolidated Interim Statement of Financial Position of Kvika banki hf. and its subsidiaries (the "Group") as of 30 June 2024 and the related Condensed Consolidated Interim Income Statement, Condensed Consolidated Interim Statement of Comprehensive Income, Condensed Consolidated Interim Statement of changes in equity and Condensed Consolidated Interim Statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes.

## Management's and the Board of directors Responsibility for the Condensed Consolidated Financial Statements

The board of directors and management is responsible for the preparation and fair presentation of this Condensed Consolidated Interim Financial Statements in accordance with International Financial Reporting Standards for Interim Financial Reporting, IAS 34, as adopted by the European Union and additional requirements in the Icelandic Financial Statement Act., Act on financial undertakings and icelandic accounting regulation for financial institution.

#### **Auditor's Responsibility**

Our responsibility is to express a conclusion on this Condensed Consolidated Interim Financial Statements based on our review.

#### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements, ISRE 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of Condensed Consolidated Interim Financial Statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Condensed Consolidated Interim Financial Statements does not give a true and fair view of the financial position of the Group as at 30 June 2024, and of its financial performance and its cash flows for the six-month period then ended in accordance with International Financial Reporting Standards for Interim Financial Reporting, IAS 34, as adopted by the European Union and additional requirements in the Icelandic Financial Statement Act., Act on financial undertakings and icelandic accounting regulation for financial institution.

Our opinion in this report on the consolidated interim financial statements is consistent with the content of the additional report that has been submitted to the company's audit committee in accordance with the EU Audit Regulation 537/2014 Article 11.

## Confirmation of Endorsement and Statement by the Board of Directors and the CEO

Pursuant to the requirements of Paragraph 2 Article 104 of the Icelandic Act on Financial Statements No. 3/2006, we confirm to the best of our knowledge that the accompanying Endorsement and Statement by the Board of Directors and the CEO includes all information required by the Icelandic Act on Financial Statements that is not disclosed elsewhere in the Condensed Consolidated Interim Financial Statements.

## **Notes to the Condensed Interim Consolidated Financial Statements**

#### **General information**

### 1. Reporting entity

Kvika banki hf. ("Kvika" or the "Bank") is a limited liability company incorporated and domiciled in Iceland, with its registered office at Katrínartún 2, Reykjavík. The Bank operates as a bank based on Act No. 161/2002, on Financial Undertakings, and is supervised by the Financial Supervisory Authority of the Central Bank ("FME"). The Group, comprised of Kvika and its subsidiaries, has been designated by the FME as a financial conglomerate as defined in Article no. 3 of Act no. 61/2017 on Additional Supervision of Financial Conglomerates.

The Condensed Interim Consolidated Financial Statements for the period ended 30 June 2024 comprise Kvika banki hf. and its subsidiaries (together referred to as the Group). The subsidiary TM tryggingar hf. has been classified as a disposal group held for sale, insurance operations are therefore a discontinued operation and are no longer reported as an operating segment. The Group operates four business segments, Asset Management, Corporate Banking, Corporate Banking and Capital Markets and UK operations. Operating without a branch network, Kvika provides businesses, investors, and individuals with investment banking, insurance, asset management, payment, and banking services.

The Condensed Interim Consolidated Financial Statements were approved and authorised for issue by the Board of Directors and the CEO on 14 August 2024.

## 2. Basis of preparation

#### a. Statement of compliance

The Condensed Interim Consolidated Financial Statements have been prepared in accordance with International Accounting Standard IAS 34 Interim Financial Reporting, as adopted by the European Union and additional requirements, as applicable, in the Act on Annual Accounts no. 3/2006, the Act on Financial Undertakings no. 161/2002 and rules on accounting for credit institutions no. 834/2003.

Due to the reclassification of the subsidiary TM tryggingar hf. as disposal group held for sale, in accordance with IFRS 5, comparative figures in the Income Statement have been restated, reference is made to note 3.

#### b. Basis of measurement

The Condensed Interim Consolidated Financial Statements have been prepared using the historical cost basis except for the following:

- fixed income securities are measured at fair value;
- shares and other variable income securities are measured at fair value;
- securities used for hedging are measured at fair value;
- certain loans to customers which are measured at fair value;
- derivatives are measured at fair value;
- investment properties are measured at fair value;
- shared based payment is accounted for in accordance with IFRS 2;
- contingent consideration is measured at fair value; and
- short positions are measured at fair value.

## c. Functional and presentation currency

The Condensed Interim Consolidated Financial Statements are prepared in Icelandic Krona (ISK), which is the Group's functional currency. All financial information has been rounded to the nearest thousand, unless otherwise stated.

The Group's assets and liabilities which are denominated in other currency than ISK are translated to ISK using the exchange rate as at the end of day 30 June 2024.

## d. Going concern

The Bank's management has assessed the Group's ability to continue as a going concern and is satisfied that the Group has the resources to continue its operations.

## e. Estimates and judgements

The preparation of interim financial statements in accordance with IFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The estimates and underlying assumptions are based on historical results and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying amounts of assets and liabilities that are not readily apparent from other sources.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period and future periods if the revision affects both current and future periods.

Information about areas of estimation uncertainty and critical judgements made by management in applying accounting policies that can have a significant effect on the amounts recognised in the Condensed Interim Consolidated Financial Statements, is provided in the Consolidated Financial Statements as at and for the year ended 31 December 2023.

## f. Relevance and importance of notes to the reader

In order to enhance the informational value of the Condensed Interim Consolidated Financial Statements, the notes are evaluated based on relevance and importance for the reader. This can result in information, that has been evaluated as neither important nor relevant for the reader, not being presented in the notes.

## Notes to the Condensed Interim Consolidated Financial Statements

## Segment information

## 4. Business segments

Segment reporting is based on the same principles and structure as internal reporting to the CEO and the Board of Directors. Segment performance is evaluated on profit before tax and excludes income from discontinued operations.

## Reportable segments

As disclosed in the Group's Consolidated Financial Statements for 2023, the subsidiary TM tryggingar hf. has been classified as a disposal group held for sale. Insurance operation are therefore a discontinued operations and are no longer reported as an operating segment. During the period in 2024, the Group defined four reportable operating segments; Asset Management, Commercial Banking, Corporate Banking and Capital Markets and UK operations. The figures for the period in 2024 reflect the operating segment structure that was in place during that period, taking into account the discontinuation of the insurance operations, and comparison amounts for the previous period have been restated accordingly.

## - Asset Management

Products and services offered include asset management involving both domestic and foreign assets, private banking and private pension plans. The management of a broad range of mutual funds, investment funds and institutional investor funds is included in this segment through the operations of Kvika eignastýring hf.

## - Commercial Banking

Total	(64,979)	(80,570)	(252,928)	(39,731)

#### 12. Income tax

The Bank and some of its subsidiaries will not pay income tax on its profit for 2024 due to the fact that Group has a tax loss carry forward that offsets the calculated income tax. At year-end 2023, the tax loss carry forward of the Group amounted to ISK 13.0 billion. A substantial part of the tax loss carry forward is utilisable until end of year 2028. Management is of the opinion that the Group's operations in the years to come will result in taxable results which will be offset with the tax loss carry forward. The Group has therefore recognised the tax loss carry forward as a deferred tax asset in the consolidated statement of financial position.

Income tax is recognised based on the tax rates and tax laws enacted during the current year, according to which the domestic corporate income tax rate was 21.0% (2023: 20.0%). Companies within the Group, which operate outside of Iceland, recognise income tax in accordance with the applicable tax laws in the country where they are resident.

### 13. Special tax on financial activity

The special tax on financial activity is an additional income tax which becomes effective when the income tax base exceeds ISK 1,000 million. It is levied on the same entities as the tax on financial activity according to Act No. 90/2003. The tax rate is set at 6.0% (2023: 6.0%) and the tax is not a deductible expense for income tax purposes. The tax is presented separately in the consolidated income statement.

#### 14. Special tax on financial institutions

According to Act No. 155/2010 on Special Tax on Financial Institutions, certain types of financial institutions, including banks, must pay annually a tax based on the carrying amount of their liabilities as determined for tax purposes in excess of ISK 50 billion at year-end. The tax rate is set at 0.145% (2023: 0.145%) and the tax is not a deductible expense for income tax purposes. The tax is presented separately in the consolidated income statement.

## 15. Earnings per share

The calculation of basic earnings per share is based on earnings attributable to shareholders and a weighted average number of shares outstanding during the period. The diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The Bank has issued stock options that have a dilutive effect.

## Notes to the Condensed Interim Consolidated Financial Statements

## 35. Solvency of a financial conglomerate

The FME has designated the Group as a financial conglomerate as defined in Article no. 3 of Act no. 61/2017 on Additional Supervision of Financial Conglomerates. As a result of this designation, the Group's capital adequacy is calculated as the solvency ratio of a financial conglomerate. The Group furthermore calculates the consolidated capital adequacy ratio for entities not belonging to the insurance sector by excluding the insurance activities from calculation of risk weighted exposures and capital base. The Group similarly calculates the solvency ratio of entities solely belonging to the insurance sector. In 2023, the Group introduced a change in treatment of deductions from capital base due to significant holdings in financial institutions and deferred tax assets. The calculations now take into account article 48 of the Capital Requirements Regulation no. 575/2013 of the EU.

Solvency measures the Group's ability to take on setbacks, thus indicating its financial strength. The available capital and capital requirements of the Group is calculated as a financial conglomerate according to Articles 16, 17 and 18 of Act on Additional Supervision of Financial Conglomerates No. 61/2017. The Group's solvency ratio is 1.20, with a regulatory minimum requirement of 1.0.

Solvency ratio of the Group as a financial conglomerate is specified as follows:

The Icelandic Financial Supervisory Authority (FME) supervises the Bank on a consolidated basis and, as such, receives information on the capital adequacy of, and sets capital requirements for, the Bank as a whole. The Bank's regulatory capital calculations for credit risk and market risk are based on the standardised approach and the capital calculations for operational risk are based on the basic indicator approach.

Minimum capital requirement is based on the Bank's Internal Capital Adequacy Assessment Process (ICAAP) and is reviewed by the FME through the Supervisory Review and Evaluation Process (SREP). The Bank's minimum regulatory capital requirement, based on SREP from 2024 is 11.6%. The minimum regulatory capital requirement including the additional capital buffers is 18.9% as at 30 June 2024.

TM tryggingar hf. has been classified as a disposal group held for sale and as a discontinued operation. This does not affect the Group's capital adequacy calculation. Nonetheless, assuming a cash sale of the subsidiary, the Bank's capital would increase. To what extent the capital adequacy ratio would increase depends on the final sale price as well as other factors, such as a potential special dividend payment or share buy-back following the sale.

## 37. Solvency of insurance activities

The Group calculates solvency capital and capital requirements for entities which belong to the insurance sector. The available capital and required capital is calculated in accordance with Articles 88 and 96 of the Act on Insurance Activity No. 100/2016. This brings the solvency ratio for entities which belong to the insurance sector to 1.49. Solvency capital requirements according to law is the minimum insurance companies have to meet.

## Risk management

#### 39. Hedging

Securities held as a hedge against derivatives positions of customers make up a part of the Group's portfolio of assets. The Group hedges currency exposure between the Group's asset portfolio and its liabilities to the extent possible as part of managing its balance and keeping it within approved limits. The Group applies hedge accounting according to IAS 39 against translation of foreign operations. Currency swap agreements are used as a hedge instrument against translation difference arising from foreign operations.

#### 40. Credit risk - overview

#### a. Definition

One of the Group's primary sources of risk is counterparty credit risk. Credit risk is defined as the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

#### b. Management

The risk management unit is responsible for managing and reporting on credit risk. The Group uses a variety of tools and processes to manage credit risk, including collaterals, hedges and loan portfolio management.

#### c. Credit approval process

The originating department prepares a proposal for each larger loan or credit line which is presented to the credit committee for approval. The proposal consists of a basic description of the client, the purpose of the loan, a simple credit assessment and arguments for or against granting the loan. The committee decides whether there is need for further credit assessment and on what terms the loan may be granted. For smaller loans the originating department obtains a general credit approval from the credit committee with respect to the process, terms, credit limits and total amount of the specific lending type.

A more thorough credit assessment may be conducted if considered appropriate and can include an assessment of a borrower's fundamental credit strength as well as the value of any collateral. To assess the borrower's capacity to meet his or her obligations the committee can request stress test analysis of the borrower's cash flow or call for third party assessments.

#### d. Collateral

Securing loans with collateral is a traditional method to reduce credit risk. The Group uses different methods to reduce credit risk by obtaining collateral from customers where appropriate. Such collateral gives the Group right to the collateralised assets for current and future obligations incurred by the customer.

The Group places emphasis on pricing loans according to the value and quality of pledged collateral. The Group applies appropriate haircuts on all collateral in order to ensure proper risk mitigation. For all collateral in listed securities, the Group maintains the right to liquidate collateral in case its market value falls below a predefined limit.

To a very large extent the Group's loan portfolio consists of senior loans, most of which are highly collateralised.

## e. Credit rating, control and provisioning

The risk management unit is responsible for credit rating and reviewing the loan portfolio.

The Group monitors the value of collateral by listed securities on a real time basis and takes prompt action when necessary.

## f. Loan portfolio management

To ensure an effective diversification of the loan portfolio the board has set a limit framework defining maximum exposure as a ratio of the Group's equity and/or the total size of the loan portfolio. These limits include limitation on joint exposure to associated clients, exposure to individual and associated industries, single regions and countries etc. It is the responsibility of risk management to monitor that these limits are not being violated and to report discrepancies to the credit committee.

## g. Impairment

Provisioning for loan impairments is estimated on the basis of expected loss models assessing the portfolio as a whole as well as individual lending. Risk management suggest a level of provisioning for the portfolio, based on the expected loss assessment. Risk management reassess impairments in the event of collateral decay, delayed payments, indication of increased risk, or other early warning signs. Provisions require approval from the credit committee. Refer to note 84 in the 2023 Consolidated Financial Statements for more information on the Group's impairment policy.

## h. Derivatives

The Group offers derivative contracts in the form of swap contracts on highly liquid securities or currencies. On the day when the contract is entered into, the Group purchases the underlying asset and hedges its exposure to price changes. Collateral is in the form of cash or listed, highly liquid securities. The risk management sets rules about the level of collateralisation and monitors the compliance to these rules. Contracts are closed if required levels of collateralisation are not met.

## i. Securities used for hedging

The Group hedges itself for market risk of derivative contracts by purchasing the underlying securities at the commencement of the contract. Since the contracts require delivery of the underlying securities to the customer on the settlement day, the credit risk towards the issuer is immaterial.

## 42. Credit quality of financial assets

The book value of financial assets which fall under the impairment requirements of IFRS 9 are presented net of expected credit losses ("ECL") in the statement of financial position. The ECL are recalculated for each asset on at least a quarterly basis. The assessment of ECL is based upon calculations being derived from models on PD, LGD and EAD. Furthermore, the assessment is based upon management's assumptions regarding the development of macroeconomic factors over the coming twelve months. The assumptions for macroeconomic development are decided for three scenarios: a base case, an upside scenario and a downside scenario, including a probability weight for each scenario. The assumptions are used for calculations of the probability weighted ECLs. The amount of ECL to be recognized is dependent on the Group's definition of significant increase in credit risk, which controls the impairment stage each asset is allocated to. The factors that are used to measure significant increase in credit risk include comparison of changes in PD values, annualized lifetime PD values, days past due and watch list.

The following table shows the first 12 month macro economic values for the variables used in the expected credit loss model. The Group utilises an economic forecast which is aligned with requirements for the calculation of expected credit loss. Following the Group's acquisition of Ortus Secured Finance Itd., the Group owns loan portfolios in two geographical segments, i.e. Iceland and the United Kingdom ("UK"). In general, the Group utilises the same ECL methodology for the portfolios in both segments, although in the UK it is to a larger extent based on an individual assessment by credit specialists. Reference is made to note 84 in the 2023 Consolidated Financial Statements for further information about the Group's impairment methodology.

b. Credit quality of financial assets by credit quality band

The following tables show financial assets subject to the impairment requirements of IFRS 9 broken down by credit quality bands where band i denotes the lowest and band iv the highest credit risk. Assets measured at fair value through profit or loss are not subject to the stage classification requirements of IFRS 9 but are nevertheless included in the tables in order to give a more complete picture of the credit quality of loans to customers and reconcile the tables to the carrying amount on the balance sheet. The Bank has primarily used adjusted external credit ratings to assess the default probability of its customers and some larger borrowers are furthermore individually assessed by credit specialists. In year-end 2023 the Bank implemented it's own credit rating models for part of the loan portfolio and the Bank has intention to maintain this development in 2024.

## 43. Loan-to-value

#### a. General

The loan-to-value ratio (LTV) is the ratio of the gross amount of the loan to the value of the collateral, if any. The general creditworthiness of a customer is viewed as the most reliable indicator of credit quality of a loan. Besides collateral included in the LTV ratios the Group uses other risk mitigation measures, such as guarantees, negative pledge, cross-collateral and collateralization of non-quantifiable assets.

#### h Breakdown

The breakdown of loans to customers by LTV is specified as follows:

	30.6.2024	%	31.12.2023	%
Less than 50%	42,631,283	29.1%	40,343,153	29.6%

Total	146,696,257	100.0%	136,323,481	100.0%

## 44. Collateral against exposures to derivatives

The Group applies the same valuation methods to collateral held as other comparable assets held by the Group. Haircuts are applied to account for liquidity and other factors which may affect the collateral value of the asset.

Amounts have been adjusted to exclude collateral in excess of claim value, i.e. overcollateralisation.

## 45. Large exposures

In accordance with regulation no. 575/2013 of the European Union on prudential requirements for credit institutions, which was incorporated into Icelandic law with Act No. 38/2022, total exposure towards a customer is classified as a large exposure if it exceeds 10% of the financial institution's Tier 1 capital (see note 36).

According to the regulation a single exposure, net of risk adjusted mitigation, cannot exceed 25% of the eligible Tier 1 capital. Based on Icelandic rules no. 789/2022 on the Application of Optional Provisions and Authorisations Pursuant to the Act on Financial Undertakings, the value of exposures towards financial institutions shall not exceed 25% of the eligible Tier 1 capital or 10 bn. ISK, whichever is higher. Single large exposures net of risk adjusted mitigation take into account the effects of collateral and other credit enhancements held by the financial institution, and other credit enhancements, in accordance with regulation no. 575/2013.

# 46. Liquidity risk

#### a. Definition

Liquidity risk is the risk that the Group will encounter difficulty in meeting contractual payment obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. This risk mainly arises from mismatches in the timing of cash flows. The Group has internal rules that require certain matching of the maturities of assets and liabilities. Furthermore, to ensure the ability to meet liquidity needs, the Group maintains a stock of highly liquid unencumbered assets, e.g. cash, treasury bills and treasury bonds.

#### b. Management

Liquidity is managed by treasury and monitored by risk management. Liquidity position is reported to the ALCO committee. The Central Bank of Iceland sets minimum requirements for the liquidity coverage ratio (LCR) and the net stable funding ratio (NSFR). The minimum 30 day LCR regulatory requirement is 100% for LCR total, 50% minimum requirement for LCR in ISK and 80% minimum requirement for LCR in EUR. The minimum requirement for LCR EUR only applies when the Group's commitments in EUR represent 10% or more of the Group's total commitments. The minimum regulatory requirement for NSFR total is 100%.

Maturity analysis of financial assets and financial liabilities is based on contractual cash flows or, in the case of held for trading securities, expected cash flows. If an amount receivable or payable is not fixed, e.g. for inflation indexed assets and liabilities, the maturity analysis uses estimates based on current conditions.

Cash flows relating to unrecognised balance sheet items (unused loan commitments and financial guarantee contracts) are presented separately from financial assets and financial liabilities. Both contractual outflows and inflows are shown, to fully reflect the nature of these items.

It should be noted that the Group's expected cash flows sometimes vary considerably from the contractual cash flows, most significantly in that demand deposits from customers are expected to remain stable or increase in the long term. In this case the presentation used reflects the worst case scenario from the Group's perspective. Furthermore, the analysis does not consider any measures that could be taken to convert long-term assets to cash through sale.

# Notes to the Condensed Interim Consolidated Financial Statements

#### 47. Market risk

#### a. Definition

Market risk constitutes risk due to changes in the market prices of financial instruments and comprises interest rate risk, currency risk and other price risk. Notes 48-53 relate to market risk exposure.

#### b. Management

The Group has a strict policy on controlling market risk and to keep the exposure within set limits. The risk management unit monitors market risk limits on a daily basis and reports regularly to the ALCO committee and to the CEO.

#### 48. Interest rate risk

#### a. Definition

The Group's exposure to interest rate risk is twofold. On the one hand, the Group has a proprietary portfolio of bonds, where market rates affect prices and any fluctuations are recognised in the income statement. On the other hand, the Group has mismatch in assets and liabilities with fixed interest terms. These include loans and swap contracts for securities on the asset side and borrowings and deposits on the liability side. This mismatch does not create an immediate effect on the income statement but nevertheless affects the Group's economic value.

Proprietary positions which are subject to interest rate risk fall under the scope of the Group's market risk management.

#### b. Management

The Group takes measures to minimise interest rate risk by matching the interest rate profile and duration of assets with the Group's liabilities as well as using derivative and non-derivative financial instruments to manage effectively the risk of an adverse impact on the Group's earnings.

## 49. Interest rate risk associated with trading portfolios

#### Breakdown

The breakdown of financial assets and liabilities in trading portfolios by the earlier of interest repricing time or maturity is specified as follows:

	Up to 1	1-3	3-12	1-5	Over 5	
	month	months	months	years	years	30.6.2024
Fixed income securities	6,994	55,095	630,405	3,515,038	1,096,538	5,304,069

Net imbalance	14,750	32,964	275,063	3,030,954	943,820	4,297,551

## b. Sensitivity analysis

The Group performs monthly sensitivity analysis on financial assets and liabilities in trading portfolios that are subject to interest rate risk. The sensitivity analysis assumes a shift in the yield curves for all currencies. A parallel shift in yield curves would have the following impact on the Group's pre-tax profit and equity, assuming all other risk factors remain constant:

	Shift in		30.6.2024		31.12.2023

# b. Sensitivity analysis

The Group performs monthly sensitivity analysis on financial assets and liabilities in non-trading portfolios subject to interest rate risk. The sensitivity analysis assumes a shift in the yield curves for all currencies. A parallel shift in yield curves would have the following impact on the Group's pre-tax profit and equity, assuming all other risk factors remain constant:

	Shift in		30.6.2024		31.12.2023
Currency	basis points	Downward	Upward	Downward	Upward

# Notes to the Condensed Interim Consolidated Financial Statements

#### 51. Exposure towards changes in the CPI

#### a. Definition

Exposure towards changes in CPI is the risk that fluctuations in the Icelandic Consumer Price Index (CPI) will affect the balance and cash flow of indexed financial instruments

The Group is exposed to inflation indexation of assets and liabilities denominated in ISK. All indexed assets and liabilities are valued according to the CPI measure at any given time and changes in CPI are recognised in the income statement.

#### b. Management

The Group controls its indexation risk through derivatives contracts and sales and purchases of indexed bonds, mostly government bonds, and thus keeps its exposure to the CPI within the limits set by the ALCO committee.

## c. Balance of CPI linked assets and liabilities

	30.6.2024	31.12.2023
Assets	34,295,441	34,860,451
Liabilities	(22,775,730)	(23,177,052)
Total	11,519,711	11,683,398

## d. Sensitivity to changes in CPI

Given the net balance of CPI linked assets and liabilities, a 1% change in the CPI would, with other things constant, result in the following changes to the Group's pre-tax profit.

	30.6.2024			31.12.2023	
	-1%	1%	-1%	1%	
Government bonds	(51,452)	51,452	(58,667)	58,667

Loans to customers	(264,607)	264,607	(236,126)	236,126	
Derivatives	(2,084)	2,084	(32,251)	32,251	
Short positions	37	(37)	683	(683)	
Deposits	84,168	(84,168)	81,464	(81,464)	
Issued bonds	92,522	(92,522)	89,710	(89,710)	
Subordinated liabilities	51,031	(51,031)	59,913	(59,913)	
	(115,197)	115,197	(116,834)	116,834	

The effect on equity would be the same.

## 52. Currency risk

## a. Definition

Currency risk arises when financial instruments are not denominated in the functional currency of the respective Group entity and can affect both the Group's income statement and statement of financial position. A part of the Group's financial assets and liabilities is denominated in foreign currencies.

## b. Management

Currency positions are monitored by risk management and reported to the ALCO committee. Any mismatch between assets and liabilities in each currency is monitored closely and managed within limits.

The Group is subject to limits set by the Central Bank of Iceland regarding the maximum open currency position. At 30 June 2024 and 31 December 2023 the Group's position in foreign currencies was within those limits.

## c. Hedge accounting

The Group applies hedge accounting according to IAS 39 against translation of foreign operations. Currency swap agreements are used as a hedge instrument against translation difference arising from foreign operations.

## d. Exchange rates

The following exchange rates have been used by the Group in the preparation of these financial statements:

	Closing	Average	Closing	Average
	30.6.2024	6m 2024	31.12.2023	6m 2023
EUR/ISK	148.9	149.5	150.5	152.4

# Notes to the Condensed Interim Consolidated Financial Statements

## 52. Currency risk (cont.)

#### f. Sensitivity to currency risk

Given the net currency position, a 10% change in the value of the ISK would, with other things constant, result in the following changes to the Group's Consolidated Income Statement or equity.

		30.6.2024		31.12.2023
Assets and liabilities denominated in foreign currencies	-10%	+10%	-10%	+10%

## 53. Equity risk

#### a. Definition

Equity risk is the risk that the fair value of equites decreases as the result of changes in the value of shares and other variable income securities in the Group's portfolio.

## b. Sensitivity analysis of equity risk

The analysis below calculates the effect of possible movements in equity prices that affect the Consolidated Financial Statements. A negative amount in the table reflects a potential net reduction in the Consolidated Income Statement or equity, while a positive amount reflects a potential net increase. Investments in associates are excluded.

		30.6.2024		31.12.2023
	-10%	+10%	-10%	+10%
Listed shares	(80,735)	80,735	(51,270)	51,270

## 54. Operational risk

## a. Definition

Operational risk is the risk of direct or indirect loss from inadequate or failed internal processes or systems, from human error or external events that affect the Group's reputation and operational earnings.

## b. Management

The individual business units within the Group are primarily responsible for managing their respective operational risk. The risk management unit is furthermore responsible for identifying, monitoring and reporting the Group's operational risk. Operational risk can be reduced through staff training, process re-design and enhancement of the control environment. The risk management unit monitors operational risk by tracking loss events, quality deficiencies, potential risk indicators and other early-warning signals. The unit takes an active role in internal control and quality management.

#### 56. Financial assets and financial liabilities measured at fair value

#### Fair value hierarchy

The fair value of financial assets and liabilities that are traded in active markets are based on quoted market prices. For other financial instruments the Group determines fair value using various valuation techniques. IFRS 13 specifies a fair value hierarchy based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources whereas unobservable inputs reflect the Group's market assumptions. These two types of inputs result in the following fair value hierarchy:

- Level 1
   Inputs are quoted market prices (unadjusted) in active markets for identical instruments.
- inputs are quoted market prices (unadjusted) in active markets for identical instrum
  - Inputs are not quoted market prices but are observable either directly, i.e. as prices, or indirectly, i.e. derived from prices. This category includes financial instruments valued using quoted prices in active markets for similar instruments, quoted prices for similar or identical instruments in markets that are considered less than active and other instruments which are valued using techniques which rely primarily on inputs that are directly or indirectly observable from market data.
- Level 3
  Inputs are not observable or unobservable inputs have a significant effect on the valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments are required to reflect the differences between the instruments.

## b. Valuation process

The Bank's Credit committee is responsible for fair value measurements of financial assets and financial liabilities classified as level 2 or level 3 instruments. The valuation is carried out by personnel from respective departments under supervision from Risk. The valuations are revised at least quarterly, or when there are indications of significant changes in the underlying inputs.

#### c. Valuation techniques

The Group uses widely recognised valuation techniques, including net present value and discounted cash flow models, comparison with similar instruments for which market observable prices exist, Black-Scholes and other valuation models.

Valuation techniques include recent arm's length transactions between knowledgeable, willing parties, if available, reference to the current fair value of other instruments that are substantially the same, the discounted cash flow analysis and option pricing models. Valuation techniques incorporate all factors that market participants would consider in setting a price and are consistent with accepted methodologies for pricing financial instruments. Periodically, the Group calibrates the valuation technique and tests it for validity using prices from any observable current market transactions in the same instrument, without modification or repackaging, or based on any available observable market data.

For more complex instruments, the Group uses proprietary models, which usually are developed from recognised valuation models. Some or all of the inputs into these models may not be market observable and are derived from market prices or rates or are estimated based on assumptions. When entering into a transaction, the financial instrument is recognised initially at the transaction price, which is the best indicator of fair value, although the value obtained from the valuation model may differ from the transaction price. This initial difference, usually an increase in fair value, indicated by valuation techniques is recognised in income depending upon the individual facts and circumstances of each transaction and no later than when the market data becomes observable.

The value produced by a model or other valuation technique is adjusted to allow for a number of factors as appropriate, because valuation techniques cannot appropriately reflect all factors market participants take into account when entering into a transaction. Valuation adjustments are recorded to allow for model risks, bid-ask spreads, liquidity risks, as well as other factors. Management believes that these valuation adjustments are necessary and appropriate to fairly state financial instruments carried at fair value in the statement of financial position.

#### f. Fair value measurements for Level 3 financial assets

Loan to customers

Level 3 assets consist primarily of unlisted bonds, shares and share certificates and loans measured at fair value. Each asset is evaluated separately but assets within an asset group share a valuation method. The following valuation methods are in use:

				Book value
Asset class	Method	Significant unobservable input	Range	30.6.2024
Unlisted bonds	Expected recovery	Value of assets	0-95%	448,810
Unlisted variable income securities	Market price	Recent trades	-	2,549,751
Loans to customers	Expert model	Value of assets and collateral	-	256,311
Total				3,254,872
				Book value
Asset class	Method	Significant unobservable input	Range	31.12.2023
Unlisted bonds	Expected recovery	Value of assets	0-95%	114,075
Unlisted variable income securities	Market price	Recent trades	-	2,517,343

Given the methods used, the possible range of the significant unobservable inputs is wide. When determining the values used the Group considers the financial strength of the entity in question, recent trades if any and multipliers for comparable instruments.

Value of assets and collateral

## g. The effect of unobservable inputs in Level 3 fair value measurements

The Group believes its estimates represent appropriate approximations of fair value and that the use of different valuation methodologies and reasonable changes in assumptions or unobservable inputs would not significantly change the estimates.

A 10% change in the estimates would have the following effect on profit before taxes:

Expert model

	+10%	-10%

The Group has pledged assets, in the ordinary course of banking business, to the Central Bank of Iceland to secure general settlement in the Icelandic clearing system. Cash pledged to secure the borrowing of securities from other counterparties than the Central Bank of Iceland is classified as other assets. Furthermore, the Group has pledged loans to customers as collateral against asset backed bonds that it has issued.

# 58. Related parties

## a. Definition of related parties

The Group has a related party relationship with the board members of the Bank, the CEO of the Bank and key employees (together referred to as management), associates as disclosed in note 23, shareholders with significant influence over the Bank, close family members of individuals identified as related parties and entities under the control or joint control of related parties.

#### b. Arm's length

Transactions with related parties are carried out at arm's length and subject to an annual review by the Bank's internal auditor.

#### 59. Other matters

#### Purchase agreement for the sale of TM tryggingar hf. signed

On 30 May 2024 the Bank announced that it had signed a purchase agreement with Landsbankinn hf., in which Landsbankinn hf. purchased 100% of the share capital in TM. On 17 March 2024 the Bank announced that it had received binding offers for the purchase of the share capital of TM. Due diligence review has been completed and the purchase agreement is signed with standard conditions of approval from The Financial Supervisory Authority of the Central Bank of Iceland and the Competition Authority. The purchase price according to the purchase agreement is ISK 28.6 billion and Landsbankinn hf. will pay for the share capital in cash. The purchase price is based on TM's balance sheet at the end of 2023. The final purchase price will be adjusted for changes in TM's tangible equity from the beginning of the year 2024 to the completion date, and the amount of the change will be added to or subtracted from the price according to the purchase agreement.

#### Tax treatment of warrants sold by the Bank

The Bank is aware of that the Iceland revenue and customs ("Skatturinn") is currently reviewing the tax treatment of warrants that the Bank sold during the years 2017 to 2019. The Iceland revenue and customs is looking into whether the warrants should be taxed as perquisites instead of as a financial instruments. Should that be the case, then the Bank would be required to pay the respective social security tax and tax on financial activity. The Bank would however be able to deduct the amount of salary related expenses, as well as the amount of the perquisites, from its tax base for the respective years in question, and thereby increase its deferred tax losses.

As the Iceland revenue and customs has not yet concluded its review, the Bank has not charged any amount to its income statement nor made any changes to the tax returns for the respective years.
