### **CEO, Claus Finderup Grove comments:**

“Germany is one of the biggest markets in Europe and a marketplace dominated by Excel and older legacy consolidation tools, why it is an interesting market to continue to explore. We already have a German-speaking sales manager, but with a German partner with consolidation expertise, we can also offer onboarding in German and target the German market even stronger.”

### **Rainer Wollmann at INSIRE comments:**

“We assist our clients in software selection, requirements definition, and implementation of financial consolidation solutions. Our focus is to help German companies future-proof their businesses. One way to do so is by implementing cloud software in the finance function, which is why we see an excellent fit for Konsolidator for our customer base.”
