

## **ASML publishes 2022 Annual Reports Integrated overview of ASML's business and ESG performance in 2022**

VELDHOVEN, the Netherlands, February 15, 2023 - Today, ASML Holding NV (ASML) has published its 2022 Annual Reports.

With the central theme "Small patterns. Big impact.", the report includes messages from our CEO, CTO and CFO, reflecting on ASML's financial performance, market, business model and technology roadmap. It also includes our Environmental, Social and Governance (ESG) Sustainability strategy, looking at our performance over 2022 and action plans for the coming years.

Launched in 2021, our ESG Sustainability strategy acknowledges and addresses the impact we have on society. "This underpins our drive to be a responsible organization and a force for good in the world. We aim to contribute to expanding computing power but with minimal waste, energy use and emissions, while at the same time having a positive role in society for our employees, supply chain, everyone involved in our innovation ecosystem and the communities around us. The only way to do that is to act on our responsibilities and fully anchor them in the way we do business through our focus on integrated governance, engaged stakeholders and transparent reporting," said ASML President and Chief Executive Officer Peter Wennink.
