

CNH releases its eighth edition of A Sustainable Year

This edition charts our continued progress in sustainably advancing corporate ESG, agriculture and construction. Now available online at: bit.ly/CNH_ASY_8.

Basildon, October 26, 2023

CNH demonstrates its commitment to a sustainable future with the eighth edition of *A Sustainable Year*. This digital magazine features innovation and sustainability developments from the past year. Read about how we rolled out our priorities, diligently working to meet our sustainability goals.

A Sustainable Year complements the publication of our latest [Sustainability Report](#). This edition focuses on key priorities for the Company: Carbon Footprint; Circularity & Eco-Efficiency; and Inclusion, Equity & Engagement.

By examining our progress in these areas, we spotlight its positive impact– from supporting local communities around the world through education and youth training, to empowering our employees. From R&D, we showcase our New Holland brand’s T7 LNG Methane Power Tractor; the first dynamic simulator for agriculture; and our electrified agriculture and construction machinery. Investments in agronomic tech, advancements in automation, and excellence in remanufacturing are also demonstrated.

The publication includes thought leadership pieces from industry and academic experts who also provide insight on implementing sustainable practices.

All the stories in *A Sustainable Year* are a testament to CNH’s role in sustainably advancing the noble work of farmers and builders. Our achievements continue to be recognized with inclusion in the Top 1% of the S&P Global ESG Score 2022 and our continued place in the CDP annual A-List for our efforts to tackle climate change.
