Konsolidator hires a Country Manager for the DACH region

As part of Konsolidator's growth strategy and ambition to establish Konsolidator as the preferred consolidation tool in Europe, Konsolidator has engaged a Country Manager for the DACH region from September 1, 2020. Konsolidator is already active in the DACH region with Mazars as sales and onboarding partner and PwC as onboarding partner.

Before the Covid-19 pandemic Konsolidator aimed to hire a Country Manager to be located in Germany. The rapid digital adoption driven by Covid-19 means that sales activities and in-person meetings are taking a new form. Both sales and on-boarding have shown to be handled effectively online and the DACH market has adapted to this new way of doing business. Konsolidator has therefore decided that the Country Manager position for the DACH region will be an embedded part of the business from the Headquarters in Copenhagen. This will not only enable the country manager to cover a much bigger geographic area but also allow the country manager to easily engage with the different teams in the Copenhagen office.

After extensive search for the right candidate Konsolidator found the strongest candidate internally and is therefore happy to inform that the former Business Developer for DACH, Susanne Kuhr-Haaf has been promoted to the position as Country Manager for the DACH region. Susanne is a native German speaker and brings great experience from researching & developing the DACH market as a Business Developer. We are now looking for a new Business Developer for DACH.

About Konsolidator

Konsolidator A/S is a financial consolidation software company whose primary objective is to make Group CFOs around the world better through automated financial consolidation and reporting in the cloud. Created by CFOs and auditors and powered by innovative technology, Konsolidator removes the complexity of financial consolidation and enables the CFO to save time and gain actionable insights based on key performance data to become a vital part of strategic decision-making.
