In 2020, CNH Industrial N.V. (NYSE: CNHI / MI: CNHI) received a rating of AAA in the MSCI ESG Ratings<sup>i</sup> assessment for the seventh consecutive year. The Company has been included in the MSCI ESG Leaders Indexes following the annual review carried out by the leading Environmental, Social and Governance (ESG) research and index provider MSCI of its sustainability indices. MSCI ESG Research provides MSCI ESG Ratings on global public and a few private companies on a scale of AAA (leader) to CCC (laggard), according to exposure to industry-specific ESG risks and the ability to manage those risks relative to peers.

MSCI ESG Research provides in-depth research, ratings and analysis of the environmental, social and governance-related business practices of thousands of companies worldwide. This research is designed to provide critical insights that can help institutional investors identify risks and opportunities that traditional investment research may overlook. CNH Industrial was judged to be a leader among 30 companies in the construction, farm machinery and heavy trucks industry, in the MSCI ACWI.
