Q2 2021

Another strong quarter

- **Return on equity of 14,3 % in Q2 –** a highly satisfactory result driven by sound revenue development, cost control and low loan losses
- Strong contributions from subsidiaries, product companies and financial **investments.** Particularly good market conditions within real estate broking, securities and insurance
- Loan losses substantially reduced and the credit quality is sound both within the mortgage and corporate portfolios
- SMN is solidly capitalised, positioned for continued growth and has good dividend capacity
- On the way to realising SMNs financial ambitions through implementation of the strategies in One SMN

New regulatory definiton of default increases stage 3 loans from 2021

The new definition has not changed the groups assessment of its credit risk exposure, hence it has no material effect on losses in 2021

The increase in potential problem loans this year is due to exposures that previously exited non-performing status, but is classified as on probation according to the new regulatory definition of default

The change in Q2 is mostly related to exposures that have been restructured and are on probation as of 30. June 2021.
