Core earnings

Core income

Interest

Net interest income was DKK 1,914 million in the first three quarters of 2025, compared to DKK 2,046 million in 2024.

Net interest income

(DKK million)	Q1-Q3	Q1-Q3	
	2025	2024	2024
Net interest income	1,914	2,046	2,702

Since peaking in October 2023, the interest margin has been under constant pressure. The declining interest rate level and continuing keen competition for loans thus put pressure on the interest margin. Net interest income in the first three quarters of the year was DKK 638 million in the first quarter, DKK 643 million in the second quarter and DKK 633 million in the third quarter. Interest rates decreased considerably at the beginning of the third quarter, but the subsequent stabilisation of the money market rates brings hope of pressure on the margins easing in the coming quarters.

The bank was able to mitigate part of the pressure on its interest margin by increasing its business volume. Loans increased by 1.1% and deposits by 1.8% in the third quarter of 2025 and, in the past year, the loan portfolio increased by 7.5% and deposits by 9.5%. The increase in loans in the past year is related primarily to niches. The bank considers its loan growth very satisfactory and continues to see good opportunities for growth.

Fee, commission and foreign exchange income

Overall, fee, commission and foreign exchange income amounted to DKK 924 million in the first nine months of 2025, compared to DKK 828 million in the same period of 2024, up 12%.

Foreign exchange income	95	65	87
Total	924	828	1,114

Income from "Securities trading", "Asset management and custody accounts" and "Foreign exchange income" is assessed as one item, as it relates primarily to the bank's focus on private banking and other asset management.

Total income from these three items amounted to DKK 428 million in the first three quarters of 2025, compared to DKK 386 million in 2024, an increase of 11%. The transaction-dependent income in the quarter was lower than normal.

Assets in custody accounts etc.

(DKK million)	30 Sep. 2025	30 Sep. 2024	31 Dec. 2024
Custody account holdings	91,915	94,368	93,026

Letpension/PFA Pension	6,650	5,604	5,998
Total	105,982	106,837	106,150

Income from "Payment handling" was DKK 116 million in the first three quarters of 2025 compared to DKK 99 million in 2024, an increase of 18%. This reflected a normalisation of the fee level and the continued increase in customer numbers. Income from this item in the third quarter was negatively affected by an accruals error in the second quarter of 2025. The item was thus DKK 4 million too high in the second quarter and correspondingly DKK 4 million too low in the third quarter.

Income from "Loan fees" was DKK 64 million in the first nine months of the year compared to DKK 51 million in 2024. The positive trajectory on the housing market in the first half of 2025 thus continued in the third quarter of 2025.

Income from "Guarantee and mortgage credit commission etc." amounted to DKK 216 million in the first three quarters of 2025, compared to DKK 205 million the year before.

The bank's continued focus on pensions contributes to the increase in income from this source from DKK 62 million in the first three quarters of 2024 to DKK 73 million in 2025, an increase of 18%.

Sector shares and other operating income

Earnings from banking sector shares totalled DKK 234 million in the first nine months of the year, compared to DKK 186 million in 2024. The earnings derive primarily from the bank's shares in DLR Kredit, PRAS and BankInvest.

The 2025 earnings include extraordinary income recognition of a total amount of DKK 65 million relating to the bank's holding of BankInvest shares. The extraordinary income reflects a general revaluation of the BankInvest shares carried out in 2025 following a guideline issued by the Danish FSA, which specifies that true and fair values must be used when redistributing shares in co-owned asset management companies. The

remaining earnings in the first three quarters of the year are attributable to the usual ongoing earnings in the sector companies.

Core income

Total core income in the first three quarters increased from DKK 3,067 million in 2024 to DKK 3,073 million in 2025.

Expenses, depreciation and write-downs

Total expenses including depreciation and write-downs on tangible assets amounted to DKK 787 million in the first three quarters of 2025, compared to a total of DKK 761 million in the first three quarters of 2024, an increase of 4%.

Expenses, depreciation and write-downs

(DKK million)	Q1-Q3 2025	Q1-Q3 2024	2024
Staff and management expenses	465	441	603

Depreciation and write-downs,			
tangible assets	11	20	25
Other operating expenses	0	8	11
Total	787	761	1,044

The cost increase reflects higher staff, IT and administration expenses.

An increase of approximately 4% in total expenses is still expected for the full year 2025, compared to 2024.

The cost/income ratio was 25.6% in the first nine months of the year, compared to 24.8% in the same period in 2024.

A low cost/income ratio combined with good credit quality is the foundation of the bank's business model. This combination provides a high free cash flow and a strong revenue shield.

Impairment charges for loans etc.

The bank's losses and impairment charges were income of DKK 11 million in the third quarter of 2025 and income of DKK 35 million in total in the first nine months of the year. The bank has thus realised net losses and net impairment charges of around zero or better in the last fifteen quarters in a row.

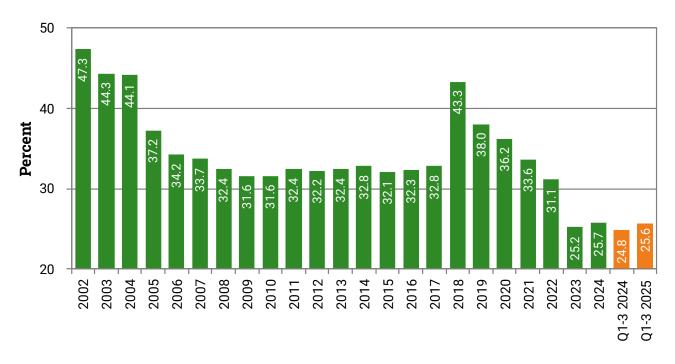

Impairment charges for loans etc.

(DKK million)	Q1-Q3	Q1-Q3	
	2025	2024	2024
Impairment charges for loans etc.	+35	+1	+3

The positive development mentioned in the bank's interim report thus continued throughout the third quarter of 2025.

During the third quarter of 2025 the bank realised higherthan-usual income from claims previously written off. This resulted in income of DKK 11 million from losses and impairment charges. At the same time the total account for impairment charges increased from DKK 2,375 million to DKK 2,399 million in the quarter.

Cost/income ratio

The bank's lending to personal customers is still supported by a very strong labour market with low unemployment and a continued robust real estate market.

The bank remains very aware of the global risk picture for its business customers, including the increased geopolitical risks and the announced tariffs between the USA and the EU. However, the bank's exposure to customers with considerable direct trade with the USA remains very modest.

The tense geopolitical situation increases the risk of a general setback to the economy. The bank has therefore made substantial management estimates to counter this risk. The total management estimates increased by DKK 8 million in the third quarter of 2025 and amount to DKK 1,009 million at present, equivalent to 42% of the total account for impairment charges.

Loans with suspended interest amounted to DKK 158 million at the end of the third quarter of 2025 compared to DKK 183 million at the end of 2024.

Core earnings

Core earnings for the first three quarters of 2025 totalled DKK 2,321 million compared to the previous year's DKK 2,308 million, an increase of 1%.

Earnings per share

The bank places emphasis on the key figures "Core earnings per share" and "Net profit per share" and how they develop.

Core earnings per DKK 1 share were DKK 94.3 for the first three quarters of 2025 compared to DKK 89.6 in 2024, and net profit also per DKK 1 share was DKK 71.2 in 2025 compared to DKK 68.7 in 2024. The latter is equivalent to an increase of 4%.

Result for the portfolio etc.

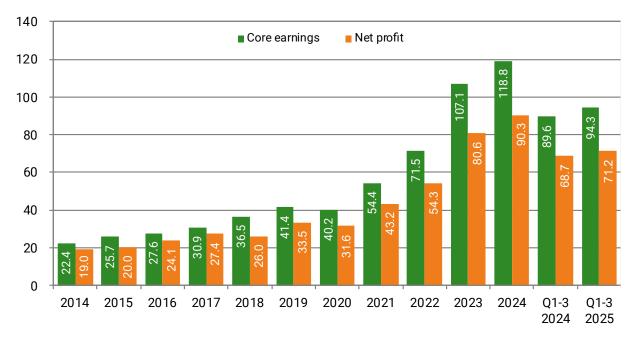

The result for the portfolio etc. including portfolio funding costs was positive by DKK 5 million net for the first nine months of the year, compared to a positive result of DKK 56 million net in the same period in 2024.

Result for the portfolio etc.

The result for the portfolio was negative by DKK 4 million at the end of June 2025, but price increases, which also applied to the bank's holding of long-term mortgage credit bonds in the third quarter, meant that the overall result for the portfolio was positive at the end of September 2025.

Earnings per share

Amortisation and write-downs on intangible assets

The bank treats amortisation and write-downs on intangible assets as a special item, since expensing them enhances the quality of equity and helps to reduce the deduction when computing total capital.

Amortisation and write-downs on intangible assets amounted to DKK 15 million in the first three quarters of 2025, unchanged relative to 2024.

Profit before and after tax

The profit before tax was DKK 2,311 million, equivalent to a 27.5% p.a. return on average equity.

The profit after tax was DKK 1,753 million, equivalent to a 20.8% p.a. return on average equity.

The effective tax rate was 24.2% in the first nine months of the year, compared to 24.7% in 2024.

Core earnings - alternative performance measure

The bank uses the alternative performance measure "Core earnings". Core earnings are used as a measure of performance for both external and internal financial reporting because they are deemed to better reflect the actual banking operations.

Overall, core earnings contain the same items as the traditional measure of performance "Profit before tax," but the calculation method and degree of specification are different.

Core earnings show the bank's income and expenses adjusted for temporary fluctuations following from the development in the bank's trading portfolio of securities (the securities portfolio less sector shares etc.). The profit before tax is divided into two main elements: core earnings and result for the portfolio.

The result for the trading portfolio is composed of value adjustments for the portfolio plus the actual return in the form of interest and dividends from the portfolio and less the calculated funding costs for the portfolio.

Core earnings are shown on page 3 and comments provided on the preceding pages.

The income statement

Net interest income

Net interest income totalled DKK 1,899 million in the first three quarters of 2025 compared to DKK 2,036 million in 2024.

Net interest income

(DKK million)	Q1-Q3	Q1-Q3	
	2025	2024	2024
Interest income	2,489	2,868	3,784
Interest expenses	590	832	1,092
Total net interest income	1,899	2,036	2,692

The development reflects the pressure on the interest margin resulting from the declining interest rate level and the pressure on the lending margin resulting from continuing keen competition for loans.

As shown on pages 6 and 12, the bank was able to increase its business volume, thereby mitigating part of the pressure on its interest margin.

Dividends from shares etc.

Dividend income from shares etc. totalled DKK 142 million in the first three quarters of the year which is DKK 23 million higher than in 2024.

Dividends derive primarily from sector shares etc.

Fee and commission income and fee and commission expenses

Net fee and commission income was DKK 829 million in the first three quarters of 2025 compared to DKK 763 million in 2024, an increase of 9%.

Net fee and commission income

(DKK million)	Q1-Q3	Q1-Q3	
	2025	2024	2024
Fee and commission income	910	841	1,134
Fee and commission expenses	-81	-78	-107
Total net fee and commission income	829	763	1,027

Please see the comments below and note 3 to the income statement for a specification of net fee and commission income.

Overall, the income items "Securities trading" and "Asset management and custody accounts" developed positively in the first three quarters of 2025 compared to 2024 as a result of a continued increase in new customers and the bank's continued focus on the private banking segment and other asset management. However, the transaction-dependent income in the third quarter was lower than normal.

Total net income from the two items thus increased by DKK 11 million, from DKK 322 million in the first three quarters of 2024 to DKK 333 million in 2025.

Income from "Guarantee and mortgage credit commission etc." also increased during the first three quarters – from DKK 205 million in 2024 to DKK 216 million in 2025.

Income from "Payment handling" and "Pension and insurance commission" in the first three quarters of 2025 was DKK 189 million net compared to DKK 161 million net from this source in 2024. The increase is driven by the normalisation of payment handling fees, the continued increase in customer numbers and the bank's continued focus on pension advisory services.

There was an increase of DKK 13 million in income from "Loan fees" in 2025 compared to the year before because the level of trading activities in the real estate market was higher.

Finally, the income from "Other fees and commission" was marginally higher by DKK 3 million compared to 2024.

Value adjustments

The value adjustments in the first three quarters of 2025 resulted in income totalling DKK 208 million compared to income totalling DKK 198 million in 2024.

This development is specified as follows:

Value adjustments

(DKK million)	Q1-Q3	Q1-Q3	
	2025	2024	2024
Other loans and receivables	-6	1	4
Bonds	9	74	76

Debt to credit institutions	0	-8	-8
Issued bonds etc.	10	-25	-33
Tier 2 capital	3	0	0
Total value adjustments	208	198	285

As shown above, value adjustments of the bank's portfolio of shares and foreign exchange income in particular contributed to the positive value adjustments for the first three quarters of the year.

Staff and administration expenses

Total staff and administration expenses increased by 6% in the first three quarters of 2025, from DKK 733 million in 2024 to DKK 776 million in 2025.

Staff and administration expenses

Staff and management expenses	465	441	603
Other administration expenses	311	292	405
Total staff and administration expenses	776	733	1,008

Expenses for staff and management totalled DKK 465 million in the first three quarters of 2025 compared to DKK 441 million in 2024, an increase of 6%. The average number of full-time employees (FTEs) increased from 663 in the first three quarters of 2024 to 680 in the first three quarters of 2025.

Other administration expenses totalled DKK 311 million in the first three quarters of 2025 compared to DKK 292 million in 2024, an increase of 6%. The increase reflects both higher IT expenses and higher administration expenses.

Amortisation, depreciation and write-downs on intangible and tangible assets

Amortisation, depreciation and write-downs totalled DKK 26 million in the first three quarters of 2025 compared to a total of DKK 34 million in 2024.

The bank still assesses the quality of its loan portfolio as good.

For further details on the development in impairment charges for loans etc., see pages 7 and 8 of the management's review and notes 11 and 26 to the quarterly report.

Balance sheet etc.

Balance sheet items and contingent liabilities

The bank's balance sheet total stood at DKK 82,274 million at the end of September 2025, compared to DKK 75,531 million at the same time the year before.

Loans in the period September 2024 to September 2025 increased from DKK 53,887 million to DKK 57,910 million, an increase of 7.5%. In the first nine months of the year loans increased by DKK 2.1 billion, equivalent to 3.7% – with 1.1% in the first quarter, 1.5% in the second quarter and 1.1% in the third quarter.

Deposits including pooled schemes increased by 9.5%, from DKK 54,238 million at the end of September 2024 to DKK 59,371 million at the end of September 2025. In the first nine months of the year deposits increased by DKK 2.7 billion, equivalent to 4.8% – with 0.5% in the first quarter, 2.5% in the second quarter and 1.8% in the third quarter.

The bank's contingent liabilities including guarantees amounted to DKK 8,535 million at the end of September 2025, compared to DKK 6,941 million at the end of September 2024 and DKK 7,198 million at the end of December 2024.

Credit intermediation

In addition to the traditional bank loans shown on its balance sheet, the bank also arranges mortgage loans on behalf of both Totalkredit and DLR Kredit.

The bank's total credit intermediation increased by 6.9% compared to September 2024 and by 4.7% in the first nine months of the year.

The development is shown in the following summary:

Total credit intermediation

(DKK million)	30 Sep.	30 Sep.	31 Dec.

Securities and market risk

The bank measures its portfolio of securities at fair value.

The item "Shares, etc." amounted to DKK 1,560 million at the end of September 2025, with DKK 77 million in listed shares and investment fund certificates and DKK 1,483 million in sector shares etc., mainly in the companies DLR Kredit, BI Holding and PRAS.

The bond portfolio amounted to DKK 7,989 million on 30 September 2025, of which the majority consisted of AAA-rated Danish mortgage credit bonds.

The total interest rate risk – impact on profit of a one percentage point change in interest level – was computed as 0.6% of the bank's tier 1 capital on 30 September 2025.

The bank's total market risk within exposures to interest rate risk, listed shares etc. and foreign currency remains at a moderate level, and this policy will continue.

Liquidity

In terms of liquidity, the bank's short-term funding liabilities totalled DKK 1.7 billion, comprising debt to credit institutions and issued bonds with term to maturity less than 12 months. This was balanced by short-term liquidity management deposits at the central bank of Denmark, Danmarks Nationalbank, receivables from credit institutions with term to maturity less than 12 months and listed securities totalling DKK 13.2 billion. This means the total excess cover was DKK 11.5 billion.

In the first three quarters of the year, the bank entered into agreements on new issues of tier 2 capital, non-preferred senior capital and preferred senior capital equivalent to a total of DKK 2,490 million. See also "Capital structure" below.

In terms of liquidity, the bank must comply with the statutory requirement of at least 100% for both the liquidity ratios LCR and NSFR.

On 30 September 2025 the bank's LCR was 175% and its NSFR 120%. The bank thus met the statutory requirement for both ratios by a good margin.

Capital structure

The bank operates with four different capital targets. The capital targets specify that the common equity tier 1 capital ratio must be at least 13.5%, the total capital ratio at least 17.0%, the MREL subordination ratio for covering the subordination requirement at least 25.5%, including the capital buffers, and the MREL capital ratio for covering the MREL requirement at least 26.0%, including the capital buffers.

All capital targets must be met at the end of the year. The capital ratios may fluctuate during the year.

The bank's equity at the beginning of 2025 was DKK 11,034 million. The profit for the period must be added to this, while the dividend paid and the value of the bank's own shares bought must be subtracted. After this, equity at the end of September 2025 was DKK 11,394 million.

When computing the common equity tier 1, ongoing earnings contribute 57%. The DKK 1 billion share buyback programme initiated at the beginning of June 2025 was already deducted from the common equity tier 1 capital

at the end of March 2025. Seen in isolation, the capital ratios will thus improve gradually in step with the recognition of ongoing earnings, but with the biggest effect in the fourth quarter of 2025.

The bank's total capital ratio and tier 1 capital ratio were 20.7% and 16.0% respectively at the end of September 2025.

Capital ratios	30 Sep.	30 Sep.	31 Dec.
	2025	2024	2024
Common equity tier 1 capital ratio	16.0	15.6	16.6
Tier 1 capital ratio	16.0	15.6	16.6
Total capital ratio	20.7	18.8	19.8
MREL subordination ratio	29.2	26.1	27.7
MREL capital ratio	30.1	27.2	28.8

Adjusted for the part of the share buyback programme not yet used and the expected distributions, the bank's tier 1 capital ratio would have been as shown in the table at the bottom of the page.

In December 2024, the bank received an updated MREL requirement of 18.9% from the Danish FSA, applicable from the beginning of 2025. The Danish FSA at the same time notified the bank of a subordination requirement of 23.7%.

The subordination requirement must be met, as a minimum, with non-preferred senior capital, while the difference between the MREL requirement plus the combined capital buffer requirements and the subordination requirement can be met with preferred senior capital.

Both the MREL requirement and the subordination requirement must always be met.

To meet the MREL requirement, the bank has issued non-preferred senior capital over time. At the end of September 2025, non-preferred senior capital equivalent to a total of DKK 4.8 billion and preferred senior capital equivalent to a total of DKK 0.9 billion had been issued. The preferred senior capital complies with the eligibility provisions and can be used to cover the difference between the MREL requirement plus the combined capital buffer requirements and the subordination requirement.

In the first three quarters of the year, the bank entered into agreements on new issues of non-preferred senior capital equivalent to DKK 779 million, preferred senior capital equivalent to DKK 506 million and tier 2 capital equivalent to DKK 1,204 million.

For further information on capital, please see page 20 of this quarterly report.

The bank expects not to need refinancing of nonpreferred senior capital and tier 2 capital in the rest of 2025 and in 2026.

Solvency requirement, total requirement for total capital and excess cover

The individual solvency requirement at the end of September 2025 was calculated as 8.9%.

The bank's countercyclical buffer was 2.3% at the end of September 2025, calculated as an exposure-weighted average of the specific buffer rates in the home countries of the customers to whom the bank is exposed. The capital conservation buffer of 2.5% and a sector-specific systemic buffer of 0.9% for exposures to real estate companies at the end of September 2025 should be added to this.

The total requirement for the bank's total capital was thus 14.6%, equivalent to DKK 8.3 billion, at the end of September 2025. Compared with the actual total capital of DKK 11.7 billion, the capital buffer at the end of September 2025 was thus DKK 3.4 billion, equivalent to 6.1 percentage points.

For further information, see the summary below.

Share buyback programmes and capital reduction

The bank's annual general meeting of 5 March 2025 again renewed its previous authorisation of the board of directors to permit the bank, in accordance with the applicable law, to acquire its own shares to a total nominal value of 10% of the bank's share capital.

The share buyback programme for a total of DKK 500 million was completed on 28 May 2025 with buyback of a total of 414,200 shares. The subsequent share buyback programme for a total of DKK 1 billion was initiated on 2 June 2025. By 30 September 2025, a total of 367,777 shares had been bought under the programme.

The cancellation of 1,315,042 of the bank's own shares bought during 2024 and early 2025, which the annual general meeting decided in March, was finalised in early May 2025.

On 30 September 2025, the bank's actual share capital was thus DKK 24,609,720 in nom. DKK 1 shares: see below.

The Supervisory Diamond

The bank complies with the Danish FSA's Supervisory Diamond. The Supervisory Diamond contains four different benchmarks and associated limit values which Danish banks are expected to observe.

The Supervisory Diamond benchmarks and limit values and the bank's key figures are given in the following table.

Benchmark	Limit	30 Sep.	30 Sep.	
	value	2025	2024	2024
Liquidity benchmark	>100%	169.8%	194.6%	153.9%
Large exposures	<175%	105.6%	137.7%	125.2%
Growth in loans	<20%	7.5%	9.4%	10.1%
Real estate exposure	<25%	18.8%	19.1%	18.2%

As shown above, the bank met all four current limit values by a good margin.

Financial rating and ESG rating

The bank is rated by the international credit rating agency Moody's Investors Service (Moody's Ratings).

In an announcement on 18 June 2025, Moody's Ratings informed the bank that a periodic review had been conducted and that the bank's rating "Aa3" with stable outlook remains unchanged for both the long-term bank deposits and the long-term issuer rating.

One of the world's most used ESG rating agencies, MSCI, rates the bank in the environmental, social and governance (ESG) area. For ESG, the bank's "AA" rating, the second-highest on MSCI's scale, was most recently reaffirmed on 14 October 2025.

Expected results for 2025

On 22 January 2025, the bank announced its initial expectations for 2025, which were net profit in the range DKK 1.8 - 2.2 billion.

On 6 August 2025, the bank upwardly adjusted its expectations for 2025 to net profit in the range DKK 2.0 - 2.35 billion. The upward adjustment was based on continued good credit quality and a loss and impairment level that had developed better than originally budgeted for 2025. In addition, the bank's total income for the full year is expected to be on a par with the income in 2024.

With net profit of DKK 1.75 billion for the first three quarters of 2025, the expected results for 2025 are maintained at the upwardly adjusted range.

Accounting policies

The accounting policies are unchanged relative to those in the submitted and audited 2024 annual report.

Management statement

The board of directors and the general management have today discussed and approved the quarterly report of Ringkjøbing Landbobank A/S for the period 1 January to 30 September 2025.

The quarterly report is drawn up in accordance with statutory requirements, including the provisions of the Danish Financial Business Act and other Danish disclosure requirements for listed financial companies. We consider the chosen accounting policies to be appropriate, and the estimates made responsible, so that the quarterly report provides a true and fair view of the bank's assets, liabilities and financial position as at 30 September 2025 and of the result of the bank's activities for the period 1 January to 30 September 2025. We also believe that the management's review contains a true and fair account of the development in the bank's activities and financial circumstances as well as a description of the most important risks and uncertainties which can affect the bank.

The quarterly report has not been audited or reviewed, but the bank's external auditors have verified the profit by carrying out procedures corresponding to those required for a review and have thereby checked that the conditions for ongoing recognition of the profit for the period in the common equity tier 1 capital have been met.

^{*} Statistics Denmark introduced new industry codes at the beginning of 2025, which means that some business types have changed industry category. The majority of the shifts from the end of 2024 to the end of the third quarter of 2025 in the marked industries are attributable to this change.

^{*} The categories high, medium and low credit quality do not translate directly into the Danish FSA's rating classes but, as a rule, high credit quality can be viewed as FSA rating classes 3 and 2a, medium credit quality as the best part of FSA rating class 2b, while low credit quality covers the rest of FSA rating classes 2b and 2c as well as the customers with objective evidence of impairment where losses are not expected in the most probable scenario. Exposures which are in stage 3 or credit-impaired on initial recognition are those where losses are expected in the most probable scenario.
