

Bufab named Most Responsive Supplier Globally by Schneider Electric

Schneider Electric (<http://www.se.com>), a world leader in the digital transformation of energy management and automation, engaged C-level executives from over 120 key partners in Barcelona, Spain on October 2-3. The theme was "Sustainable Growth". During the conference, Schneider recognized a few suppliers for excellence.

Out of Schneider's more than 50,000 suppliers, Bufab was named the Most Responsive Supplier Globally. The prize was awarded after a rigorous process of nomination and evaluation.

"That a leading global player in its field such as Schneider, with a turnover of over €26 billion and close to 140,000 employees worldwide, singles out Bufab AB (<http://www.bufab.com>) as their most responsive supplier is both humbling and gratifying. Humbling, because it occurs in competition with some of the world's largest companies and leaders in their respective industries as well as with strong players in our own field. Gratifying, because it shows that with our Solutionist mindset and Digital Best Practice toolset, we can help even the most challenging customers improve their productivity, worldwide," says Jörgen Rosengren, Bufab's President and CEO.
