# Ringkjøbing Landbobank's interim report for the first half of 2024

The bank's board of directors and general management have today approved the interim report for the first half of 2024.

Due to a continued good credit quality and a loss and impairment level that has developed better than originally budgeted for 2024 and that is expected to continue for the rest of the year, the bank is upwardly adjusting the expectations for net profit for 2024 to the DKK 2,000-2,350 million range.

#### **Core earnings**

| (DKK million)  | H1 2024 | H1 2023 | 2023  | 2022  | 2021  | 2020  |
|--|---------|---------|-------|-------|-------|-------|
| Total core income                                    | 2,051   | 1.796   | 3,828 | 2,862 | 2,433 | 2,179 |
| Total expenses and depreciation                      | 508     | 471     | 963   | 891   | 817   | 788   |
| Core earnings before impairment charges<br>for loans | 1,543   | 1,325   | 2,865 | 1,971 | 1,616 | 1,391 |
| Impairment charges for loans etc.                    | +1      | -1      | -1    | -2    | -68   | -223  |
| Core earnings  | 1,544   | 1,324   | 2,864 | 1,969 | 1,548 | 1,168 |
| Result for the portfolio etc.                        | +30     | -28     | -7    | -69   | +7    | -9    |
| Amortisation and write-downs on intangible assets    | 10      | 10      | 20    | 20    | 17    | 15    |
| Тах  | 383     | 306     | 682   | 385   | 309   | 224   |
| Net profit   | 1,181   | 980     | 2,155 | 1,495 | 1,229 | 920   |

#### Highlights of the first half of 2024

- The net profit is DKK 1,181 million, equivalent to a 22% p.a. return on equity
- Earnings per share measured on net profit increase by 25%
- Core income increases by 14% to DKK 2,051 million
- Costs increase by 8%, and the cost/income ratio decreases to 24.8%
- In the second quarter of 2024, the bank carried impairment charges of DKK 1 million to income based on strong credit quality while, in the first half of 2024, the total account for impairment charges increased by DKK 39 million
- Highly satisfactory increase in customer numbers and growth of 5% in loans, 6% in deposits and 18% in funds in custody accounts etc.
- Employee wellbeing and satisfaction at their highest levels ever
- The expected result for 2024 is upwardly adjusted to the DKK 2,000-2,350 million range

#### Yours sincerely

# **Core earnings**

### Core income

#### Interest

Net interest income was DKK 1,368 million in the first half of 2024 compared to DKK 1,213 million in 2023, an increase of 13%.

In the first six months of the year, as expected, the bank experienced continued migration of deposits to savings and high-interest accounts, which has reduced the deposit margin. In addition, the bank's lending margin has been under continuous pressure in 2024.

The above developments were partly mitigated by a positive development in both loans and deposits compared to the end of June 2023, with increases of 5.1% and 5.9% respectively. The increases in the first half of 2024 were 3.3% for loans and 2.3% for deposits. The increase in lending was broadly based and relates both to niches and to retail.

Overall, net interest decreased from DKK 691 million in the first quarter of 2024 to DKK 677 million in the second quarter of 2024.

With effect from 25 July 2024, the bank reduced the interest rates on its loans and deposits by up to 0.25 percentage point and, in the second quarter of 2024, reduced the interest rate on home purchase loans.

The effect of the interest rate reductions will put additional pressure on the interest margin in the second half of 2024.

#### Fee, commission, and foreign exchange income

Income from "Securities trading", "Asset management and custody accounts" and "Foreign exchange income" is assessed as one item, as it relates primarily to the bank's focus on private banking and other asset management.

Total income from these three items amounted to DKK 261 million in the first half of 2024, compared to DKK 225 million in 2023, an increase of 16%. The increase is attributable to a positive development in all three items. The trading volume was thus higher and the funds in custody accounts increased during the first half of the year.

#### Funds in custody accounts etc.

| (DKK million)              | 30 June | 30 June | 31 Dec. |
|----------------------------|---------|---------|---------|
|                            | 2024    | 2023    | 2023    |
| Custody account holdings   | 97,228  | 83,413  | 87,165  |
| Deposits in pooled schemes | 6,594   | 5,315   | 5,845   |
| Letpension/PFA Pension     | 5,413   | 4,200   | 4,666   |
| Total                      | 109,235 | 92,928  | 97,676  |

Income from "Guarantee and mortgage credit commission etc." amounted to DKK 135 million in the half-year, compared to DKK 121 million the year before. Interest from sold-off home loans is booked under this item. The explanation of the development is that the bank has caught up with the timing difference of the interest rate increases in 2022 and 2023, as the notice period to customers of lending rate changes for home loans was six months, whereas the funding rates were adjusted on an ongoing basis.

The income from loan fees was marginally lower in 2024 than in 2023.

Income from payment handling in the first half of 2024 was DKK 64 million compared to DKK 57 million from this source in 2023, driven by the continued increase in customer numbers and the return to normality for income.

Overall fee, commission, and foreign exchange income amounted to DKK 552 million in the first half of 2024, compared to DKK 496 million in 2023.

#### Net fee, commission, and foreign exchange income

| (DKK million)                    | H1   | H1   |       |
|----------------------------------|------|------|-------|
|                                  | 2024 | 2023 | 2023  |
| Securities trading               | 100  | 80   | 159   |
| Asset management and custody     |      |      |       |
| accounts                         | 117  | 107  | 218   |
| Payment handling                 | 64   | 57   | 126   |
| Loan fees                        | 34   | 38   | 79    |
| Guarantee and mortgage credit    |      |      |       |
| commission etc.                  | 135  | 121  | 248   |
| Pension and insurance commission | 40   | 39   | 77    |
| Other fees and commission        | 18   | 16   | 29    |
| Foreign exchange income          | 44   | 38   | 77    |
| Total                            | 552  | 496  | 1,013 |

#### Sector shares and other operating income

Total earnings from banking sector shares amounted to DKK 128 million in the first half of the year, compared to DKK 86 million in 2023. Earnings in DLR Kredit and PRAS improved, based on the higher interest rate level compared to 2023. There was also a sound development in earnings in BankInvest. Finally, DKK 5 million of the DKK 128 million is non-recurring, as the amount derives from the sale of the last shares in Visa.

Other operating income in the half-year amounted to DKK 3 million, compared to DKK 0 million in 2023. This year's income relates to a non-recurring payment from Visa.

#### Core income

Total core income in the first half-year increased by 14% from DKK 1,796 million in 2023 to DKK 2,051 million in 2024.

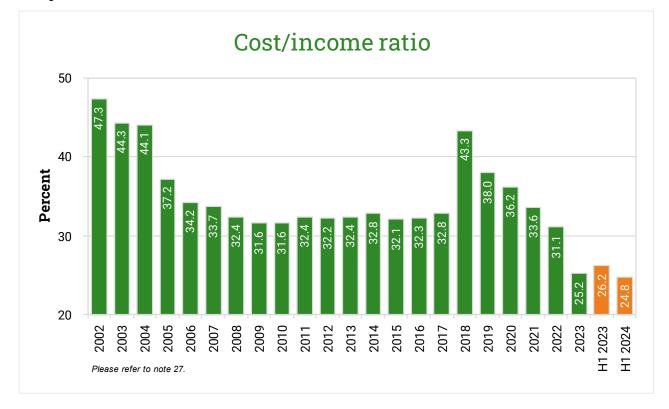

#### Expenses, depreciation, and write-downs

Total expenses including depreciation and write-downs on tangible assets amounted to DKK 508 million in the

first half of 2024 compared to DKK 471 million in 2023, an increase of 8%, which is also the expected rate of increase for the full year 2024.

The cost increase reflects higher staff costs and higher IT expenses resulting from the bank's growth.

The cost/income ratio was 24.8% in the first half of the year, compared to 26.2% in 2023.

#### Impairment charges for loans etc.

The development in the bank's losses and impairment charges in the first half of 2024 was satisfactory and better than expected. The item shows income of DKK 1 million for the half-year. Losses and impairment charges are thus around DKK 0 million for the tenth consecutive quarter.

These results were achieved without a simultaneous reduction in the bank's total account for impairment charges. From the end of 2021 to the end of the second quarter of 2024, the bank's total account for impairment charges thus increased from DKK 2,283 million to DKK 2,373 million.

This reflects that actual net losses have been very modest during the last ten quarters and less than the ongoing interest accruing on loans subject to individual impairment charges. Actual losses in the first half of the year remain very modest and, after offsetting against amounts received on claims previously written off, the item contributes net income of the order of DKK 10 million.

The bank still assesses the quality of its loan portfolio as good. In the first half of 2024, the bank was thus able to reduce the individual impairment charges for stage 3 customers from DKK 715 million at the end of the first half of 2023 to DKK 674 million at the end of 2023 and to DKK 600 million at the end of the first half of 2024. In the same period there was a significant increase in the bank's provisions related to both model-calculated impairment charges for stage 1 customers and management estimates.

Overall, a very strong labour market supports the bank's portfolio of loans to both personal and business customers.

The bank remains aware of its exposure to real property financing and any delayed effects of the significant interest rate increases in 2022 and 2023. In the past quarter, the Danish FSA completed a general thematic survey of the bank's business loans to real estate companies. The FSA found no need for new individual impairment charges for these customers, and identified no new weak customers or changes to credit quality ratings. The bank considers that the credit quality within the segment remains satisfactory. Note that almost 80% of the bank's exposure to real property financing is granted without prior debt.

In agriculture, the bank's customers engaged in livestock production generally delivered healthy operating results for 2023 and generally satisfactory results are expected for 2024. The bank has taken note of the political agreement from June 2024 on a gradual introduction of carbon tax on agriculture from 2030. The present assessment is that the total management estimates related to agriculture take account of the risks associated with the introduction of the new tax.

Despite market expectations of a continued decline in interest rates in 2024 and 2025, the bank believes that there is still a risk of delayed negative effects on the economy resulting from the interest rate increases in 2022 and 2023. The bank has made significant management estimates to counter these risks.

The total management estimates were DKK 952 million at the end of the half-year 2024.

Loans with suspended interest amounted to DKK 68 million at the end of June 2024, compared to DKK 120 million at the end of 2023.

#### Core earnings

Core earnings in the first half of 2024 totalled DKK 1,544 million compared to the previous year's DKK 1,324 million, an increase of 17%.

#### **Core earnings**

| (DKK million)                     | H1    | H1    |       |
|-----------------------------------|-------|-------|-------|
|                                   | 2024  | 2023  | 2023  |
| Total core income                 | 2,051 | 1,796 | 3,828 |
| Total expenses and depreciation   | 508   | 471   | 963   |
| Core earnings before impairment   |       |       | 2.865 |
| charges                           | 1,543 | 1,325 | 2,005 |
| Impairment charges for loans etc. | +1    | -1    | -1    |
| Core earnings                     | 1,544 | 1,324 | 2,864 |

#### Earnings per share

The bank places emphasis on the key figures "Core earnings per share" and "Net profit per share" and how they develop.

Core earnings per DKK 1 share were DKK 59.2 for the first half of 2024 compared to DKK 48.8 in 2023, and net profit also per DKK 1 share was DKK 45.3 in the first half of 2024 compared to DKK 36.2 in 2023.

The development in the bank's earnings and the share buyback programmes thus had a positive effect on the key figures.

#### Result for the portfolio etc.

The result for the portfolio etc. including portfolio funding costs was positive by DKK 30 million net for the first six months of the year, compared to a negative result of DKK 28 million net for the first six months of 2023.

The positive result for the portfolio is partly attributable to earnings from the bank's portfolio of longer-term bonds and a narrowing credit spread for certain corporate bonds.

#### Amortisation and write-downs on intangible assets

The bank treats amortisation and write-downs on intangible assets as a special item, since expensing them enhances the quality of equity and helps to reduce the deduction when computing total capital.

Amortisation and write-downs on intangible assets amounted to DKK 10 million in the first half of 2024, unchanged relative to 2023.

#### Profit before and after tax

The profit before tax was DKK 1,564 million, equivalent to a 29.7% p.a. return on average equity.

The profit after tax was DKK 1,181 million, equivalent to a 22.4% p.a. return on average equity.

On 1 January 2024, the corporate tax rate for financial undertakings increased to 26.0% from the 25.2% applicable for 2023.

The effective tax rate was 24.5% in the first half of 2024, compared to 23.8% in the first half of 2023.

#### Balance sheet items and contingent liabilities

The bank's balance sheet total stood at DKK 75,616 million at the end of June 2024, compared to DKK 71,012 million the year before.

Loans increased 5.1% in the period June 2023 to June 2024, from DKK 49,996 million to DKK 52,535 million. The increase in loans in the first half of 2024 was DKK 1,654 million, equivalent to 3.3%.

Deposits including pooled schemes increased 5.9%, from DKK 50,799 million at the end of June 2023 to DKK 53,818 million at the end of June 2024. The increase in deposits in the first half of 2024 was DKK 1,191 million, equivalent to 2.3%.

The bank's contingent liabilities including guarantees amounted to DKK 7,090 million at the end of June 2024, compared to DKK 7,216 million at the end of June 2023 and DKK 6,465 million at the end of December 2023.

#### **Credit intermediation**

In addition to the traditional bank loans shown on the balance sheet, the bank also arranges mortgage loans on behalf of both Totalkredit and DLR Kredit.

The bank's total credit intermediation increased by 3.1% compared to the end of June 2023 and by 2.1% in the first half of 2024.

The development is shown in the following summary:

#### Total credit intermediation

| (DKK million)                    | 30 June | 30 June | 31 Dec. |
|----------------------------------|---------|---------|---------|
|                                  | 2024    | 2023    | 2023    |
| Loans etc.                       | 52,535  | 49,996  | 50,881  |
| Mortgage credit - Totalkredit    | 47,363  | 46,144  | 46,766  |
| Mortgage credit - DLR Kredit a.o | 9,536   | 10,007  | 9,551   |
| Total                            | 109,434 | 106,147 | 107,198 |

#### Securities and market risk

The bank measures its portfolio of securities at fair value.

The item "Shares, etc." amounted to DKK 1,415 million at the end of June 2024, with DKK 55 million in listed shares and investment fund certificates and DKK 1,360 million in sector shares etc., mainly in the companies DLR Kredit, BI Holding and PRAS.

The bond portfolio amounted to DKK 7,748 million on 30 June 2024, of which the majority consisted of AAA-rated Danish mortgage credit bonds.

The total interest rate risk - impact on profit of a one percentage point change in interest level - was computed as 0.9% of the bank's tier 1 capital on 30 June 2024.

The bank's risk of losses calculated on the basis of a Value at Risk model (computed with a 10-day horizon and 99% probability) was as follows in the first half of 2024:

| Value at Risk              | Risk in DKK<br>million | Risk relative to equity<br>end of period in % |  |  |  |  |
|----------------------------|------------------------|---|--|--|--|--|
| Highest risk of loss       | 22.3                   | 0.21  |  |  |  |  |
| Lowest risk of loss        | 12.6                   | 0.12  |  |  |  |  |
| Average risk of loss       | 15.5                   | 0.15  |  |  |  |  |
| End-of-period risk of loss | 12.8                   | 0.12  |  |  |  |  |

The bank's total market risk within exposures to interest rate risk, listed shares etc. and foreign currency remains at a moderate level, and this policy will continue.

#### Liquidity

In terms of liquidity, the bank's short-term funding liabilities total DKK 2.8 billion, comprising debt to credit institutions and issued bonds with term to maturity of less than 12 months. This is balanced by short-term liquidity management deposits in the central bank of Denmark, Danmarks Nationalbank, receivables from credit institutions with term to maturity of less than 12

months and listed securities totalling DKK 13.5 billion. This means the total excess cover is DKK 10.7 billion.

Ringkjøbing Landbobank's deposits (excluding pooled schemes) and equity exceeded its loans by DKK 5.3 billion on 30 June 2024 and these two items therefore more than fully finance the loan portfolio.

In addition, part of the loan portfolio for renewable energy projects is financed back-to-back with KfW Bankengruppe, which means that DKK 0.8 billion can be disregarded in terms of liquidity.

The bank strengthened its liquidity in the first half of 2024, partly by entering into a EUR 100 million loan agreement with the European Investment Bank and partly through new issues of non-preferred senior capital and preferred senior capital equivalent to a total of DKK 1,152 million in the first six months of the year. See also "Capital structure" below.

In terms of liquidity, the bank must comply with the statutory requirement of at least 100% for both the liquidity ratios LCR and NSFR.

On 30 June 2024 the bank's LCR was 208% and its NSFR 119%. The bank thus met the statutory requirement for both ratios by a good margin.

#### **Capital structure**

The bank's equity at the beginning of 2024 was DKK 10,451 million. The profit for the period must be added to this, while the dividend paid and the value of the bank's own shares bought must be subtracted. After this, equity at the end of June 2024 was DKK 10,593 million.

When computing the common equity tier 1, ongoing earnings contribute 35%, and the full share buyback programme totalling DKK 1,525 million was deducted from the common equity tier 1 in the first quarter of 2024. The capital ratios will thus improve gradually in step with the recognition of ongoing earnings, but with the greatest effect in the fourth quarter of 2024.

The bank's total capital ratio and the tier 1 capital ratio were 19.3% and 15.5% respectively at the end of June 2024.

| Capital ratios                     | 30 June<br>2024 | 30 June<br>2023 | 31 Dec.<br>2023 |
|------------------------------------|-----------------|-----------------|-----------------|
| Common equity tier 1 capital ratio | 15.5            | 17.7            | 18.9            |
| Tier 1 capital ratio               | 15.5            | 17.7            | 18.9            |
| Total capital ratio                | 19.3            | 20.7            | 23.0            |
| MREL capital ratio                 | 28.0            | 27.5            | 28.9            |

Calculated without the IFRS 9 transition programmes, which will lapse at the beginning of 2025, the bank's total capital ratio was 19.0% and the tier 1 capital ratio 15.2% on 30 June 2024.

The individual solvency requirement at the end of June 2024 was calculated as 8.9%. The solvency requirement includes 0.1 percentage point resulting from operational risks related to the Danish FSA's inspection of the real estate area in the second quarter of 2024.

The capital conservation buffer of 2.5% and the countercyclical buffer also of 2.5% should be added to this.

The sector-specific systemic buffer for exposures to real estate companies was activated as from 30 June 2024 at a rate of 7%, see below.

Real estate companies are firms engaged in activities under the economic activity codes "Development of building projects" and "Real estate", while exposures to "Social housing companies" and "Cooperative housing societies" under the activity code "Real estate" are exempt from the buffer. Also exempt from the calculation is the part of the exposures which is secured and in the 0-15% loan-to-value range.

The result for the bank of the sector-specific systemic buffer is an addition of 0.9%.

The total requirement for the bank's total capital was thus 14.8% at the end of June 2024.

In December 2023, the bank received an updated MREL requirement of 18.9% from the Danish FSA, applicable from the beginning of 2024. The Danish FSA at the same time notified the bank of a subordination requirement of 22.8%.

The subordination requirement must be met, at a minimum, with non-preferred senior capital, while the difference between the MREL requirement plus the combined capital buffer requirements and the subordination requirement can be met with preferred senior capital.

Both the MREL requirement and the subordination requirement must always be met.

To meet the MREL requirement, the bank has issued nonpreferred senior capital over time. At the end of June 2024, non-preferred senior capital equivalent to DKK 3.8 billion had been issued. In the first half of 2024, the bank issued non-preferred senior capital equivalent to DKK 928 million - DKK 525 million in the first quarter of 2024 and DKK 403 million in the second quarter of 2024.

At the end of June 2024, the bank had issued preferred senior capital equivalent to DKK 597 million, which complies with the eligibility provisions and can be used to cover the difference between the MREL requirement plus the combined capital buffer requirements and the subordination requirement.

For further information on capital, please see pages 17-18 of this interim report.

The bank operates with three different capital targets. The capital targets specify that the common equity tier 1 capital ratio must be at least 13.5%, the total capital ratio at least 17.0% and the MREL capital ratio for covering the MREL requirement at least 26.0%, including the capital buffers.

All capital targets must be met at the end of the year. The capital ratios may fluctuate during the year.

In addition, the board of directors has specified an internal target of at least 25.5% for the subordination requirement, including capital buffers.

On 26 June 2024, the bank entered into an agreement to issue tier 2 capital of DKK 500 million on 31 July 2024. The capital issue has a maturity of 10.5 years with a first call (redemption) option after 5.5 years. The interest for the entire term to maturity is agreed at a 3-month Cibor rate plus a margin of 200 basis points and with fixing of interest every three months. The issue, which is unlisted, was made as a private placement with an institutional investor.

In addition, early redemption of tier 2 capital of EUR 100 million will take place later in August 2024 subject to the Danish FSA's approval: see the corporate announcement issued on 22 July 2024.

The issue and early redemption are part of the bank's ongoing capital planning.

The bank expects not to need refinancing of nonpreferred senior capital and tier 2 capital in the rest of 2024. However, with a view to the ongoing capital planning, non-preferred senior capital and preferred senior capital may be issued in the remainder of 2024 if considered opportune.

#### Share buyback programmes and capital reduction

The bank's annual general meeting of 28 February 2024 again renewed its previous authorisation of the board of directors to permit the bank, in accordance with the applicable law, to acquire its own shares to a total nominal value of 10% of the bank's share capital.

The initiated share buyback programme totalling DKK 1,525 million is proceeding as planned. Part I of the share

buyback programme was for DKK 750 million and completed on 27 June 2024 with a buyback of a total of 631,900 shares. Part II for DKK 775 million and a maximum buyback of 1,550,000 shares was initiated on 28 June 2024 and will run until 27 January 2025.

On 30 June 2024, a total of 637,900 shares had been bought back under the programme (part I and II) which the overview below shows.

The general meeting further decided to cancel the 784,600 of the bank's own shares that were bought during 2023 and in early 2024. The capital reduction was finalised in April 2024.

On 30 June 2024, the bank's actual share capital was thus DKK 26,068,839 in nom. DKK 1 shares: see below.

|  | Share capital/<br>Number of shares |
|--|------------------------------------|
| Beginning of 2024                            | 27,491,339                         |
| Capital reduction by cancellation of own     |                                    |
| shares, April 2024                           | -784,600                           |
| Number of shares after the capital reduction | 26,706,739                         |
| Bought under the total DKK 1,525 million     |                                    |
| share buyback programme at the end of June   |                                    |
| 2024   | -637,900                           |
| Actual number of shares on 30 June 2024      | 26,068,839                         |

- . . .

#### **The Supervisory Diamond**

The bank complies with the Danish FSA's Supervisory Diamond.

The Supervisory Diamond contains four different benchmarks and associated limit values which Danish banks are expected to observe.

The Supervisory Diamond benchmarks and limit values and the bank's key figures are given in the following table.

| Benchmark            | Limit | H1     | H1     |        |        |
|----------------------|-------|--------|--------|--------|--------|
|                      | value | 2024   | 2023   | 2023   | 2022   |
| Liquidity benchmark  | >100% | 185.2% | 182.1% | 224.9% | 143.4% |
| Large exposures      | <175% | 128.9% | 124.7% | 116.9% | 118.0% |
| Growth in loans      | <20%  | 5.6%   | 6.6%   | 5.0%   | 17.5%  |
| Real estate exposure | <25%  | 20.5%  | 21.2%  | 21.1%  | 20.0%  |

As shown above, Ringkjøbing Landbobank meets all four current limit values by a good margin.

#### **Financial rating and ESG rating**

The bank is rated by the international credit rating agency Moody's Investors Service (Moody's Ratings).

On 11 June 2024, Moody's Ratings affirmed the rating "Aa3" with stable outlook for both the long-term bank deposits and the long-term issuer rating.

In the environmental, social and governance (ESG) area, the bank is rated, for example, by MSCI, one of the world's most used ESG rating agencies. Here, the bank's rating is "AA", the second-highest on MSCI's scale.

# Financial Institution of the Year - for the 9th year in a row

In June 2024, for the ninth year in a row, Ringkjøbing Landbobank was awarded the accolade of Financial Institution of the Year among large and medium-sized banks. As in previous years, the award was made by FinansWatch in collaboration with the audit and consultancy firm EY.

The Financial Institution of the Year award is based on financial ratios for return on equity, income growth, solvency, and efficiency.

The award of Financial Institution of the Year is an acknowledgement of the great effort made by the employees for the benefit of customers.

#### Employee wellbeing and satisfaction

As in previous years, the annual survey of employee wellbeing and satisfaction was conducted during the second quarter of 2024.

Compared to the 2023 survey, which showed employee wellbeing and satisfaction at their highest levels since these surveys began, the 2024 survey shows a further marginal improvement.

Both the employee wellbeing and satisfaction levels and the improvement are very positive. High employee wellbeing and satisfaction help the bank to maintain the focus on the organic growth strategy. That strategy is the inspiration to work every single day to create value for both existing and new customers in their relations with the bank.

#### Products

In June 2024, the bank introduced free opening and safekeeping (zero custody fee) and exemption from brokerage for the bank's stock-savings account product for the rest of 2024 and all of 2025.

The bank wants to support both the continued development of the share ownership culture in Denmark and the entrepreneurial package agreed between the Danish government (the Social Democratic Party, the Liberal Party, and the Moderates), the Denmark Democrats, the Liberal Alliance, the Conservative Party, the Social Liberal Party, and the Danish People's Party. The package includes a further increase in the contribution limit for stock-savings accounts to DKK 160,000 from 2025.

The bank has also launched a new product, Monthly Investment, in its mobile banking app. The new product will transfer a fixed monthly amount chosen by the customer and subsequently automatically invest it in an investment fund of the customer's choice.

Monthly Investment can be set up directly in the mobile banking app. Setup and use of the product are free of charge and instructions to buy are exempt from both brokerage and fees.

#### Expected results for 2024

The Bank announced its expectations for 2024 on 17 January 2024. The bank's expectations for 2024 are net profit in the range DKK 1.8-2.2 billion.

Due to a continued good credit quality and a loss and impairment level that has developed better than originally budgeted for 2024 and is expected to continue for the rest of the year, the bank is upwardly adjusting the expectations for net profit for 2024 to the DKK 2.0-2.35 billion range. The expectations are subject to uncertainty and depends on the developments in the financial markets and in the macroeconomic conditions.

#### Accounting policies

The accounting policies are unchanged relative to those in the submitted and audited 2023 annual report.

# Quarterly overviews

The following pages contain quarterly overviews, which includes core earnings, net profit, balance sheet items and contingent liabilities, and statement of capital.

### **Core earnings**

## Statement of capital

Once a year the Danish FSA sets requirements for subordinated liabilities and own funds and eligible liabilities (MREL) for Danish financial institutions, including Ringkjøbing Landbobank. The two requirements for the bank differed for the first time on 1 January 2024.

The requirements for subordinated liabilities and MREL on 1 January 2024 were, respectively, 22.8% and 18.9% of the risk exposure amount and are calculated as follows:

|                              | Subordinated liabilities |             |      | MREL        |  |

\* The categories high, medium and low credit quality do not translate directly into the Danish FSA's rating classes but, as a rule, high credit quality can be viewed as FSA rating classes 3 and 2a, medium credit quality as the best part of FSA rating class 2b, while low credit quality covers the rest of FSA rating classes 2b and 2c as well as the customers with objective evidence of impairment where losses are not expected in the most probable scenario. Stage 3 and exposures which are credit-impaired on initial recognition are those where losses are expected in the most probable scenario.

#### 27 Miscellaneous information

The cost/income ratio on page 4 and core earnings and net profit per DKK 1 share on page 5 are stated for the "old" Ringkjøbing Landbobank up to and including 2017, pro forma for 2018 and for the merged bank from 2019.

<sup>1</sup> Calculated on the basis of a denomination of DKK 100 per share.

<sup>2</sup> Calculated on the basis of number of shares in circulation at the end of the period.

<sup>3</sup> Calculated on the basis of the average number of shares. The average number of shares is calculated as a simple average of the shares at the beginning and the end of the period.

The board of directors and the general management have today discussed and approved the interim report of Ringkjøbing Landbobank A/S for the period 1 January to 30 June 2024.

The interim report is drawn up in accordance with statutory requirements, including the provisions of the Danish Financial Business Act and other Danish disclosure requirements for listed financial companies. We consider the chosen accounting policies to be appropriate and the estimates made responsible, so that the interim accounts provide a true and fair view of the bank's assets, liabilities and financial position as at 30 June 2024 and of the result of the bank's activities for the period 1 January to 30 June 2024. We also believe that the management's review contains a true and fair account of the development in the bank's activities and financial circumstances as well as a description of the most important risks and uncertainties which can affect the bank.

The interim report has not been audited or reviewed, but the bank's external auditors have verified the profit by carrying out procedures corresponding to those required for a review and have thereby checked that the conditions for ongoing recognition of the profit for the period in the common equity tier 1 capital have been met.

Ringkøbing, 7 August 2024
