

Atos included in S&P Global Sustainability Yearbook 2023

Paris, February 13, 2023 - Atos today announces that it has, for the 10th consecutive year, been included in S&P's Global Sustainability Yearbook. For this 2023 edition Atos has received a **Top 10% S&P Global ESG score in the IT Services industry**. In the review of 7,800 companies globally, Atos is ranked as one of the most sustainable companies in the world and within the top 10% in its industry. The annual Sustainability Yearbook recognizes companies, grouped by industry, that have demonstrated strong corporate sustainability. Membership was highly competitive this year.

In 2022, Atos improved its [S&P Global ESG score in the CSA \(Corporate Sustainability Assessment\) by 2 points, achieving 85/100](#), and retaining its ranking among the top-performing companies worldwide in the Environmental, Social & Governance dimensions. Atos has consistently received excellent ESG scores which has ensured its inclusion in the Dow Jones Sustainability Indices (both the DJSI World and DJSI Europe) for the last [eight consecutive years](#), and ten consecutive years in the DJSI World.

Diane Galbe, Senior Executive Vice President, Atos comments "*Our commitment to sustainability and the transparent communication of our progress has helped set Atos apart. We are extremely proud to rank among the top 10% of companies in the IT Services Industry worldwide, which is testament to our continuous development and commitment towards sustainability and our excellence in ESG (Environmental, Social & Governance) practices.*"

These results add to Atos' international recognition as a leader in sustainability and ESG practices. Atos has received a '[AAA](#)' rating (on a scale of AAA-CCC) in the MSCI ESG Ratings assessment 2022, was rewarded a [Platinum Award](#) from EcoVadis, achieved a Prime status in the ESG assessment carried out by ISS in 2022 and was selected on [CDP's prestigious 'A List 2022'](#) for tackling climate change.

Note to editors

To be listed in the Yearbook, companies must score within the top 15% of their industry and must achieve an S&P Global Sustainability Score within 30% of their industry's top-performing company. The Sustainability Yearbook 2023 contains several key improvements, most importantly:

- Updated Yearbook Emblems to factually distinguish top performing companies; and
- A revised methodology with an exclusion screening process, to align the Yearbook's methodology further with the approach taken to select companies into S&P Global ESG Indices.
