### About ViroGates

ViroGates is an international medtech company headquartered in Denmark. ViroGates develops and sells prognostic products to the healthcare sector. The products are used in hospital emergency services, in particular to make a clinical decision on hospitalization or discharge of emergency patients, which can lead to better clinical decisions, faster discharge and optimization of healthcare resources. The products can also be used for the prognosis of lifestyle-related diseases such as cardiovascular disease, type 2 diabetes, cancer, etc. The ViroGates test suPARnostic® measures the suPAR (Soluble urokinase Plasminogen Activator Receptor) protein in the bloodstream, and with the suPARnostic® Quick Triage test, hospital staff will get answers in just 20 minutes. The prognostic value of suPARnostic® is validated by more than 500 clinical trials and studies which included more than 350,000 blood samples.
