

## PRESS RELEASE

April 8, 2024

### Construction of the Paddock solar project in the United Kingdom

**Voltaia (Euronext Paris, ISIN code: FR0011995588), an international player in renewable energies, launches construction of a 49.9-megawatt photovoltaic power plant in the South East of the country**

The project will cover the annual electricity consumption of over 14,385 average UK family homes and avoid the emission of more than 35,681 tonnes of CO<sub>2</sub> per year.

The electricity will be sold under long-term sales contracts to companies (Corporate PPA) that will consume the electricity produced. The plant will begin production in the second half of 2025.

*"Voltaia has a portfolio of seven solar and storage facilities in operation or under construction in the UK with a total capacity of 260 megawatts. Our pipeline of future projects will fuel growth in the country, as well as service activities for third-party customers", says Sébastien Clerc, CEO of Voltaia.*

Next on the agenda: **Turnover Q1 2024**, on April 24, 2024 (after market close)
