

Atos named by Gartner as an Edge AI Technology Innovator for 2020

Paris, France, November 23, 2020 – Atos today announces that Gartner, Inc. has named Atos as an **Edge AI Tech Innovator for 2020** in its new report 'Emerging technologies: Tech Innovators in Edge AI', published in October 2020, which highlights those technology providers which advance and accelerate the use of AI at the Edge.

*"We're thrilled to be recognized by Gartner as in this emerging field of Edge AI" said **Emmanuel Le Roux, SVP, Global Head of Big Data, Atos.** "We believe this recognition highlights our R&D investment strategy to offer breakthrough innovation in edge computing, including innovative hardware, software solutions and end-to-end services, in order to provide our customers with the best edge capabilities for cost and process optimization."*

Atos provides:

- **An end-to-end Edge solution from infrastructure to managed services** – Atos' solution includes hardware and software and is enriched by a use case approach
- Its **BullSequana Edge Server** delivers powerful AI inference and real-time analytics at the edge while keeping data safe and secure
- **Codex AI Vision** - a GDPR-compliant computer vision solution for threat tracking and crowd detection based on feature tracking
- **Codex Smart Edge** – a highly-scalable industrial IoT and Edge Computing Platform to manage industrial operations efficiently and in real-time from any location, in a highly secure way
- **Predictive maintenance solutions such as Digital Twin** efficiently run on Atos' BullSequana Edge help business take insightful decisions.

Gartner selected and reviewed 12 technology service providers for this report based on the observed ability to market and sell AI-based or AI-enabling technologies with proven capabilities for optimization and/or transformation.
