

Annual General Meeting of Ipsen S.A. held on 28 May 2024

- » All the resolutions submitted to the shareholders' vote have been adopted

PARIS, FRANCE, 28 May 2024 - The Annual General Meeting of Ipsen S.A. (Euronext: IPN; ADR: IPSEY) was held today at the *Salons de l'Hôtel des Arts et Métiers, 9 bis, avenue d'Iéna, 75116 Paris (France)*, under the chairmanship of Mr. Marc de GARIDEL, Chairman of the Board of Directors, and in the presence of the members of the Board of Directors and the Group's Executive Leadership Team.

The Annual General Meeting approved all of the 17 resolutions submitted by the Board of Directors and in particular the payment of a dividend of €1.20 per share. This dividend will be paid on 3 June 2024, the ex-date being 30 May 2024.

The Meeting also approved the appointment of PricewaterhouseCoopers Audit as statutory auditor in charge of the certification of sustainability information, the renewal of the terms of office of the company BEECH TREE S.A., represented by Mr. Philippe BONHOMME, and of Mrs. Carol XUEREF as directors, for a duration of four years, and also the ratification of the temporary appointment of Mr. Pascal TOUCHON as director, for the remainder of the term of office of his predecessor.

During the Meeting, Mr. Marc de GARIDEL, Chairman of the Board of Directors, commented on the information concerning the governance and the activity of Ipsen's Board of Directors and its committees during FY 2023. Mr. David LOEW, Chief Executive Officer, and Mr. Aymeric Le CHATELIER, Group Chief Financial Officer, focused notably on the Group strategy, the climate commitments, the 2023 financial performance and the financial objectives for the year 2024.

The results of the votes and the webcast of the Annual General Meeting will be available soon on www.ipsen.com.

Disclaimers and/or Forward-Looking Statements

The forward-looking statements, objectives and targets contained herein are based on Ipsen's management strategy, current views and assumptions. Such statements involve known and unknown risks and uncertainties that may cause actual results, performance or events to differ materially from those anticipated herein. All of the above risks could affect Ipsen's future ability to achieve its financial targets, which were set assuming reasonable macroeconomic conditions based on the information available today. Use of the words 'believes', 'anticipates' and 'expects' and similar expressions are intended to identify forward-looking statements, including Ipsen's expectations regarding future events, including regulatory filings and determinations. Moreover, the targets described in this document were prepared without taking into account external-growth assumptions and potential future acquisitions, which may alter these parameters. These objectives are based on data and assumptions regarded as reasonable by Ipsen. These targets depend on conditions or facts likely to happen in the future, and not exclusively on historical data. Actual results may depart significantly from these targets given the occurrence of certain risks and uncertainties, notably the fact that a promising medicine in early development phase or clinical trial may end up never being launched on the market or reaching its commercial targets, notably for regulatory or competition reasons. Ipsen must face or might face competition from generic medicine that might translate into a loss of market share. Furthermore, the research and development process involves several stages each of which involves the substantial risk that Ipsen may fail to achieve its objectives and be forced to abandon its efforts with regards to a medicine in which it has invested significant sums. Therefore, Ipsen cannot be certain that favorable results obtained during preclinical trials will be confirmed subsequently during clinical trials, or that the results of clinical trials will be sufficient to demonstrate the safe and effective nature of the medicine concerned. There can be no guarantees a medicine will receive the necessary regulatory approvals or that the medicine will prove to be commercially successful. If underlying assumptions prove inaccurate or risks or uncertainties materialize, actual results may differ materially from those set forth in the forward-looking statements. Other risks and uncertainties include but are not limited to, general industry conditions and competition; general economic factors, including interest rate and currency exchange rate fluctuations; the impact of pharmaceutical industry regulation and healthcare legislation; global trends toward healthcare cost containment; technological advances, new medicine and patents attained by competitors; challenges inherent in new-medicine development, including obtaining regulatory approval; Ipsen's ability to accurately predict future market conditions; manufacturing difficulties or delays; financial instability of international economies and sovereign risk; dependence on the effectiveness of Ipsen's patents and other protections for innovative medicines; and the exposure to litigation, including patent litigation, and/or regulatory actions. Ipsen also depends on third parties to develop and market some of its medicines which could potentially generate substantial royalties; these partners could behave in such ways which could cause damage to Ipsen's activities and financial results. Ipsen cannot be certain that its partners will fulfil their obligations. It might be unable to obtain any benefit from those agreements. A default by any of Ipsen's partners could generate lower revenues than expected. Such situations could have a negative impact on Ipsen's business, financial position or performance. Ipsen expressly disclaims any obligation or undertaking to update or revise any forward-looking statements, targets or estimates contained in this press release to reflect any change in events, conditions, assumptions or circumstances on which any such statements are based, unless so required by applicable law. Ipsen's business is subject to the risk factors

outlined in its registration documents filed with the French Autorité des Marchés Financiers. The risks and uncertainties set out are not exhaustive and the reader is advised to refer to Ipsen's latest Universal Registration Document, available on [ipsen.com](https://www.ipsen.com).
