

PRESS RELEASE

March 30, 2022

Construction of innovative solar project in Montclar, France

Voltaia (Euronext Paris, ISIN code: FR0011995588), an international player in renewable energies, announces that it has begun construction of a 3.7-megawatt solar power plant in Montclar, in the Alpes de Haute Provence department - Provence Alpes Côte d'Azur region.

Winner of the French Ministry of Ecological Transition's national call for tenders dedicated to innovative projects, this solar power plant project is located in Côte Belle, in the municipality of Montclar. Situated near one of the only self-managed ski resorts in France, the location has one of the largest solar deposits in the country.

The Montclar project is located on 4.2 hectares, has 8,600 solar panels and will provide green electricity to more than 2,500 residents of the department. The project is backed by a 20-year electricity sales contract.

The power plant project is located on a steep site in a mountainous environment. To meet the challenge posed by these steep slopes, Voltaia will use an innovative metal structure equipped with steel cables on which the low-carbon, high-performance solar panels will be hung. The project benefits from partnerships with several leading French scientific institutions, such as the CEA, the public energy research institute, and the MINES ParisTech school, which will support Voltaia in analysing the benefits of the innovations deployed.

Next on the agenda: **Q1 2022 revenues** on April 20, 2022 (after market close)

About Voltaia (www.voltaia.com)

Voltaia is an international player in the renewable energy sector. The Group produces and sells electricity generated from wind, solar, hydraulic, biomass and storage facilities that it owns and operates. Voltaia has generating capacity in operation and under construction of more than 1.7 GW and a portfolio of projects under development representing total capacity of 11.1 GW.

Voltaia is also a service provider and supports its investor clients in renewable energy projects during all phases, from design to operation and maintenance.

As a pioneer in the corporate market, Voltaia provides a global offer to private companies, ranging from the supply of green electricity and energy efficiency services to the local production of their own electricity.

The Group has more than 1,300 employees and is present in 20 countries on 3 continents and is able to act worldwide on behalf of its clients.

Voltaia is listed on the regulated market of Euronext Paris, compartment B (FR0011995588 – VL TSA) and is part of the Euronext Tech 40 and CAC Mid & Small indices. The Group is also included in the Gaïa-Index, an index for socially responsible midcaps.
