Management report

Key highlights

The **total revenue** of the Group in the first quarter of 2025 was 12.5 million euros compared to 3.1 million euros in the first quarter of 2024.

The real estate sales revenues are recorded at the point of time when legal title is transferred to the buyer. Therefore, the revenues from sales of real estate depend on the construction cycle and the completion of the residential developments.

Revenue from the sale of real estate increased compared to the previous year, as we continued handing over completed apartments in the Kalaranna District, Tallinn, following the initial deliveries that began in December 2024. The lower revenue in the first quarter of 2024 reflects the development cycle, as construction was ongoing and only a limited number of remaining inventory units were available for sale in Riga and Vilnius.

The **gross profit** for the first three months of 2025 increased to 4.2 million euros compared to 0.9 million euros in the same period of 2024.

The **operating result** in the first quarter of 2025 was 2.5 million euros profit comparing to 0.7 million euros loss during the same period in 2024.

The **net result** for the first three months of 2025 was 1.9 million euros profit, comparing to 1.7 million euros loss in the reference period.

Cash generated in operating activities during first three months of 2025 was 1.3 million euros comparing to 1.7 million euros used during the same period in 2024.

Net assets per share on 31 March 2025 totalled to 0.94 euros compared to 0.95 euros on 31 March 2024.

Main events

On **3 February 2025** the Group announced about initiation of a written procedure for its senior secured callable fixed rate bonds with ISIN SE0013801172 for making amendments to the terms and conditions of the bonds. As described in the notice of Written Procedure, the request includes approval of, *inter alia*, the addition of the option at the choice of the issuer, to not divest its hotel operations in Germany and instead repay the outstanding bonds on a *pro rata* basis in an aggregate amount of 5 million euros, however financed.

On **20 February 2025** the Group announced that it had obtained approval to amend the terms and conditions of its senior secured callable fixed rate bonds (ISIN SE0013801172) in accordance with the written procedure initiated on 3 February 2025.

Chairman's summary

Real Estate Development

Tallinn

During the first quarter of 2025, construction of the final phase of the Kalaranna development (4 buildings, 146 units) reached substantial completion, although some minor finishing works continued into the second quarter. As of the publication of this report, 68 sold apartments have been handed over to buyers, and the overall sales rate has reached nearly 60%.

In Kristiine City, we are actively engaged in the design and building permit application process for four different projects submitted to the Tallinn City Planning Department:

- "Dunte" - awaiting the issuance of the building permit.
- Sammu 2/4 / Sõjakooli 15 - building permit application was submitted in December 2024
- Marsi 1 / Sõjakooli 13 - building permit application was submitted in February 2025.
- Sammu 3 / Sõjakooli 17 – we are in the design phase and preparing a new concept, alongside an application for a change of use to allow 95% residential and 5% commercial functions.

All the above listed projects will add ca 35.000 sqm of GBA with ca 350 units of predominantly residential function (95% residential/5% commercial) to our portfolio in a well-established neighbourhood in Kristiine City.

As of Q1 2025, construction of the White Building (91 residential units) in the Uus-Kindrali project, located in Kristiine City at Talli Street 3 / Sammu Street 8, Tallinn, has progressed well. Work on internal partition walls is underway, and finishing works have begun on the lower floors. The project has reached a 57% sellout, with final completion expected in November–December 2025.

At the end of Q1, we also started excavation and foundation works for another 7-story residential building with 90 units, located next to the White Building at Sammu Street 10 / Seebi Street 24a, Tallinn. With the initial launch of presales, approximately 11% of units were sold.

Riga

Following the successful completion of sales in River Breeze Residence at the end of 2024, with all units sold and only two parking spaces remaining, the Group initiated preparations for the next phase of development in Kliversala – the Blue Marine project (101 residential units). During Q1 2025, we took key steps toward launching this new stage. A new construction project manager was hired, and a tender was held among contractors. Based on the outcome, management decided to adopt the in-house construction management model already used in Estonia. Recruitment for the engineering team is ongoing, and groundbreaking is planned for July 2025. At the same time, we have started collecting interest from potential buyers.

In Vilnius

During Q1 we continued the construction of the final stage of Šaltinių Namai Attico with city villas and a commercial building. We are currently at 35% sellout in the villas and 10% in the commercial building while achieving record prices in Vilnius RE market. Regarding construction we are on schedule to achieve substantial completion by the end of 2025.

Our latest investment on Naugarduko Street in Vilnius involves transforming a former school into a high-end residential complex. Located on a hill with breathtaking views of Vilnius' Old Town, the development will feature approximately 50 luxury apartments. An architectural competition was carried out for the purpose, and the winning studio has been in the process of designing and carrying out the building permit process with the city. Subject to the issuance of the permit, we plan to start renovation works at the end of 2025.

Hotel operations

Hotel performance in the first quarter was slightly below last year's level, primarily due to a general decline in individual demand, particularly in February. However, we expect to fully recover this shortfall in the coming period, supported by increasing demand from the MICE segment and a visible rebound in individual travel in the second quarter. We are confident that the property will maintain the positive trends of performance shown in the past years.

Other operations

The Group holds a majority stake in Preatoni Nuda Proprietà (PNP) and its subsidiary Preatoni Intermediazioni Immobiliari (PII), which continue to strengthen their presence in the Italian real estate market, focusing on bare ownership transactions.

Despite the market slowdown in 2024, caused by rising interest rates, confidence in the real estate sector has been gradually recovering, with full market normalization expected by the end of 2025.

As in previous years, PII's business activity started slowly in Q1, but since April we have seen a clear increase in momentum, culminating in a historic sales record during the month. A significant brokerage deal is also expected to close in May, which could result in exceeding last year's revenue already by the end of Q2 2025.

As for PNP, the company did not engage in any proprietary property trading during the first quarter, however we are currently evaluating new acquisition opportunities to resume trading activities.

Conclusion

The first quarter of 2025 has marked a solid start across our geographies, despite continued bureaucratic delays and seasonal slowdowns in some areas of our operations. In Tallinn, we made tangible progress both in terms of construction milestones and in expanding our development pipeline within the promising Kristiine City area. Riga has seen renewed momentum with the preparation of the Blue Marine project, where we are applying the successful in-house construction model used in Estonia. In Vilnius, we are achieving record pricing in our flagship project and laying the groundwork for a high-end transformation in Naugarduko Street.

Outside the Baltic region, Preatoni Nuda Proprietà and PII are entering 2025 with renewed strength. After a quiet Q1 in Italy, April marked a turning point with historic sales figures, and May promises to exceed last year's total revenue thanks to high-profile deals.

Although hotel operations were slightly impacted in February, the outlook for the coming quarters remains positive, supported by rising MICE and individual demand.

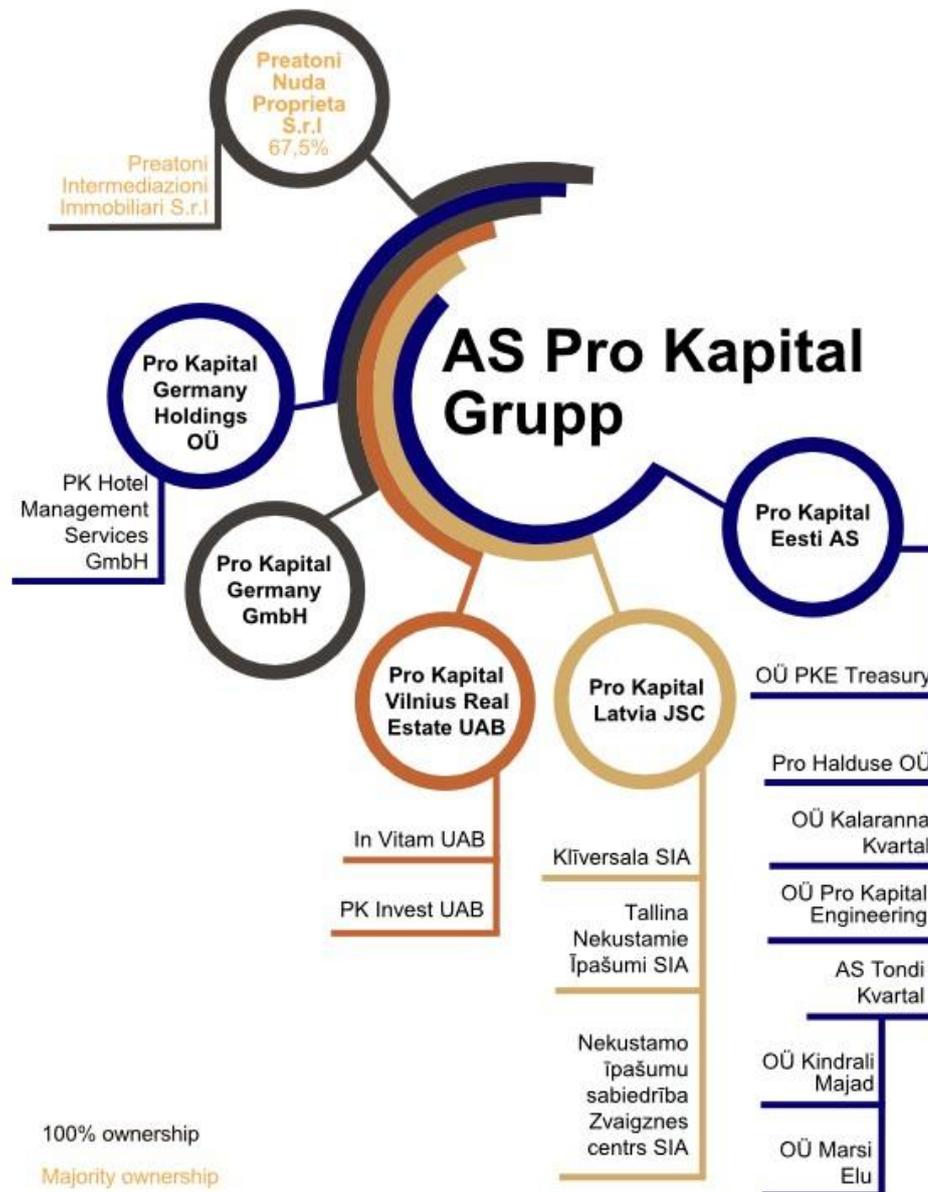

Overall, the Group remains focused on disciplined execution, strategic development, and value creation. We are well positioned to capitalize on the improving macroeconomic sentiment and deliver strong results throughout the rest of the year.

As at 31 March 2025

Overview of the development projects

Kristiine City in Tallinn

Kristiine City is one of the largest residential areas in the Baltic countries, located in the Kristiine borough, a residential area very close to the City Centre of Tallinn. The unique project plans exquisitely integrated historical red brick buildings with the modern architecture that will arise over the hill, at the very heart of the new quarter. The Kristiine City development will bring lively and elegant atmosphere to the historical barrack area. The residential area is developed mainly to offer green living environment to families and people who prefer living outside the very centre or the city.

Kindrali Houses in Kristiine City

Located among the private houses and apple orchards of Kristiine district, the modern Kindrali Houses project has a warm and cosy heart. Kindrali Houses form a part of the Kristiine City district which is undergoing rapid development near the city centre and offering versatile opportunities for residents of all ages. The focus is on comfort, safety and living in harmony with the environment. The contemporary and Nordic appearance of the buildings is complemented by carefully selected high-quality materials and details in interior design. The buildings have both spacious five-room flats and ground floor studio apartments with separate entrances, as well as a washing room for the four-legged friends.

Kindrali Houses' first stage has been completed, and all apartments have been handed over to the homeowners, except for one unit, which serves as a showroom. In March 2024, we started construction on the new phase of Kindrali Houses, called Uus-Kindrali, with the first building expected to be completed by end of 2025.

Kalaranna in Tallinn

Kalaranna District is a unique sea-side residential district on the border of Tallinn's city centre and old town. Kalaranna District, located at Kalaranna 8, will have twelve 4-5 storey buildings on nearly six hectares. The area is being developed in two stages. An integral part of the residential quarter is well-thought-out landscape architecture and a beach promenade that largely preserves the existing natural environment.

During the first phase of construction, eight buildings have been completed with 239 apartments, commercial premises and an underground car park. The area includes the Kalaranna Park with versatile leisure opportunities and a Square connecting the buildings.

To date all buildings of the first stage are completed and handed over to customers. The construction of the final stage, consisting of 4 buildings and 146 apartments, began in March 2023 and reached substantial completion at the end of Q1 2025.

Ülemiste 5, Tallinn

Ülemiste 5 will be developed for commercial use with gross area of ca 18,5 thousand square meters. Located right next to Rail Baltica Ülemiste Terminal, this development project will play a significant role in establishing the new public transportation centre of Tallinn.

Kliversala in Riga

The district of Klīversala is located in the most picturesque and beautiful part of the centre of Riga. A land plot of almost five hectares in total, is located on the peninsula surrounded by the Daugava River and Agenskalna bay, facing the towers of Old Riga and the President Castle. The

property will be developed as an integral residential quarter.

The River Breeze Residence and the neighbouring territory are a significant part of the long-term development strategy of the city of Riga, which will be carried out through the period until 2030. Mainly because the River Breeze Residence is located within the UNESCO heritage protection area it is thereby considered as a highly valuable territory. The River Breeze Residence is the first residential building in Kliversala Quarter to be completed with all units sold. The following stage - Blue Marine, named by its close proximity to the river and yacht port area – is waiting for start of construction.

Brīvības Business Quarter in Riga

Commercial property development for modern office complex is located on the site of a former factory. The building permit has been issued.

The Group has decided to sell this property to focus more on its core activity of residential real estate development. Sales activities commenced in 2024, however, due to unfavorable market conditions in Riga for this type of investment property, the Group decided to put the sale on hold.

The property is classified as an investment property, and sales activities are planned to resume once market conditions improve.

City Oasis Quarter in Riga

City Oasis quarter lies in Tallinas street 5/7 and is a unique residential area in the central city of Riga, where new buildings, modern loft-style apartment buildings and also restored historical buildings can be

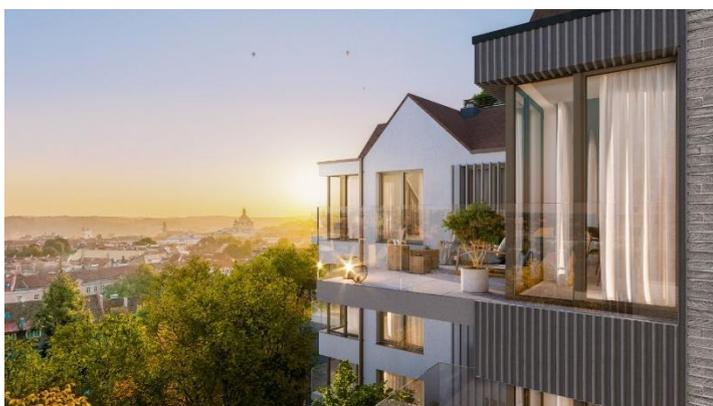

found to create an extraordinary atmosphere in the area. The development foresees business premises on the first floors of the buildings. The building permit has been issued and the technical design is completed. Construction will start when market conditions are favourable.

Šaltinių Namai in Vilnius

Šaltinių Namai Attico is a prestigious living area, surrounded by the nature in the most tranquil part of the Old Town, located within the UNESCO protection area. Šaltinių Namai Attico is inspired by the baroque spirit of Vilnius Old Town and the tradition of Italian architecture in Lithuania.

Šaltinių Namai Attico project with 5 residential buildings is developed and sold, only one unit is available as of the publication of this report.

In September, 2023 Pro Kapital Lithuania started the last construction phase with City Villas and a residential-commercial building, with substantial completion expected by the end of 2025.

Naugarduko 5 in Vilnius

The promising property in the centre of Vilnius will complement our portfolio of high-class residential buildings with impressive panoramas of the old town of Vilnius from the hill on Naugarduko street. After reconstruction the building will blend in with the Šaltinių

Namai Attico quarter located nearby. The location with cultural attractions, educational and entertainment possibilities within a walking distance, makes the location particularly attractive both for homebuyers and businesses.

Parkhotel Kurhaus

In addition to the development activities in the Baltic States, we own and operate a hotel in a small German resort town Bad Kreuznach, close to Frankfurt.

Segments and sales information

As of 31 March 2025, the Group's operations were divided across five geographical segments: Estonia, Latvia, Lithuania, Germany and Italy. In addition, the Group monitors its operations through the business activities: real estate sale and rent, hotel operations, maintenance of real estate and commissions earned from residential real estate sales.

Financing sources and policies

Pro Kapital pursues conservative financing policy. The objective of the Group is to use external financing in a manner that enables to avoid interest related risk during the low economic periods and to have sufficient additional external financing capacity when attractive business opportunities occur. The Group seeks to maintain such long-term debt levels that are in reasonable proportion to growth in operations and which preserve the Group's credit standing.

During the reporting period, the Group received 6.2 million and repaid 5.8 million euros of the bank loans and as at 31 March 2025, the total loan debt to the banks was 18.1 million euros (Note 11).

Bank loans taken by the Group are predominantly of middle-term duration, maturing within one to five years. Repayment schedule is mixed, both fixed for some loans and floating, depending on sales volumes for the others.

As at 31 March 2025 the Group had issued 19.95 million euros of secured bonds with redemption date in February 2028 and 8.2 million euros of unsecured bonds with redemption date in October 2026. The secured bonds carry an effective interest rate of 11% and unsecured bonds carry an effective interest rate of 9%. (Note 11)

Legal overview and developments

To bring out better the events which might have material financial effect on the Group and its share price and not to burden the reporting with smaller litigation issues, Pro Kapital has set the policy to disclose in its reporting pending court litigation disputes which might have material financial effect on the Group and its share price. As per the policy all disputes which might have financial effect of at least 100 000 euros (at once or during the period of one financial year) are disclosed in the reporting.

AS Pro Kapital Eesti continues to be in litigation with the Land Board concerning the cadastral unit with the address Kalasadama 3, Tallinn, with 100% purpose of land under water, and the litigation relates to a claim for compensation. AS Pro Kapital Eesti is of the opinion that it has unjustly paid a portion of the purchase price and land tax from this cadastral unit. The Group is claiming from the state compensation of 192 338 euros of land tax paid in excess during 1 January 2004-31 December 2018 as well as that the state compensate 681 816 euros of the purchase price overpaid by the Group for that portion of land (including notary and state fees paid in excess = 675 546 + 2 034 + 4 236), hence the claim for compensation amounting to 874 154 euros in total in the principal sum plus 1 176 261.55 euros of interest in arrears.

AS Pro Kapital Eesti proposed to end the dispute with a settlement, which was not accepted by the other party, so the litigation continues. In this litigation, an expert's report has ordered to determine the damage related to the acquisition of the property.

At the hearing on 01.04.2024, the court gave the parties the opportunity to present their final opinions, including their conclusions on the expert's answers heard at the hearing. The Administrative Court has announced that the judgment will be published on 27.05.2024.

By its decision of 27.05.2024, the Administrative Court partially upheld the appeal of AS Pro Kapital Eesti, i.e. ordered the Land Board to pay AS Pro Kapital Eesti 353 236 euros in damages for the overpaid land tax, of which the principal claim is 191 973 euros and default interest 161 263 euros, and dismissed the appeal as regards the claim for damages related to the purchase of the property.

On 26.06.2024, the Land Board filed an appeal against the decision of the Tallinn Administrative Court of 27.05.2024, in which it contests the decision of the Administrative Court to the extent that the appeal was upheld, i.e. with regard to the land tax, and asks for a new decision dismissing the appeal of AS Pro Kapital Eesti in its entirety. AS Pro Kapital Eesti in turn filed a counter-appeal on 11.07.2024 to the Tallinn Circuit Court against the decision of the Tallinn Administrative Court of 27.05.2024, in which it contests the decision to the extent that the appeal of AS Pro Kapital Eesti for

compensation for damages, i.e. compensation for the costs related to the purchase of the property was rejected.

The Tallinn Circuit Court, by its order of 13.08.2024, has decided to open the procedure both the appeal of the Land Board and the cross-appeal of AS Pro Kapital Eesti against the decision of the Tallinn Administrative Court of 27.05.2024. The Land-Board and AS Pro Kapital Eesti have submitted their submissions to the circuit court and the parties are awaiting further proceedings. At the moment, the case is pending before the Tallinn Circuit Court and the Circuit Court has not yet decided whether it will hear the appeals at a hearing or by written procedure, nor has it set any deadlines for the proceedings.

Main contractor of one of the developments of Pro Kapital, AS Oma Ehitaja, has started legal proceedings against OÜ Marsi Elu, a subsidiary of AS Pro Kapital Grupp. Contractor has filled the claim to court wanting to identify that Pro Kapital subsidiary does not have any penalty claims against the contractor and alternatively asks the court to reduce the penalty claims and seeks the payment of the balance of the invoices. Pro Kapital subsidiary is of opinion that contractor claim is baseless, the penalty claims are in accordance with the contract, are justified due to long delay in the completion of the construction, the penalty claims have already been reduced and the balance of the invoices has been paid via set-off with the penalty claim. The litigation still continues. Pro Kapital is of opinion that this court case does not have any substantial negative impact on financial results of the Group. The construction invoices in question have been accounted for as costs of construction during construction already, thus any possible negative outcome of the court case will not increase the costs (except for the delay interest and court costs).

In addition, AS Oma Ehitaja has started another legal proceeding against OÜ Marsi Elu, claiming compensation for damages and additional interest from OÜ Marsi Elu. The court has decided to open the procedure in February 2025. Oma Ehitaja claims that it has not been able to enter into construction contracts due to the fact that the limit of the bank guarantees of Oma Ehitaja is partially booked (in connection with the litigation referred to in the previous paragraph) and that Oma Ehitaja has therefore lost revenue. By its order of 14.02.2025, the Harju County Court decided to grant the application for suspending the proceedings of OÜ Marsi Elu and to suspend the proceedings until the entry into force of the final judgment in the case mentioned in the previous paragraph. AS Oma Ehitaja appealed against the order referred to in the previous sentence. The Tallinn Circuit Court, by its order of 24.03.2025, decided to dismiss the appeal against the order of AS Oma Ehitaja and to leave unchanged the order of 14.02.2025 of the Harju County Court.

The litigation with the City of Tallinn arising from the public interest acquisition procedure of Ülemiste tee T3, Ülemiste tee T4 and Ülemiste tee T6 properties owned

by AS Pro Kapital Eesti. As the parties failed to reach an agreement on the prices of Ülemiste tee T3, Ülemiste tee T4 and Ülemiste tee T6 during the negotiations, the City of Tallinn has issued an expropriation decision for the acquisition of Ülemiste tee T3, Ülemiste tee T4 and Ülemiste tee T6. AS Pro Kapital Eesti has objected to the expropriation decision (in particular the justification of the fair compensation awarded) before the Administrative Court, arguing that the fair compensation (including consequential damages) is higher than the amount awarded. The complaint by AS Pro Kapital Eesti was upheld by the court. The appeal procedure is currently suspended.

AS Pro Kapital Grupp (also referred to as “the Parent Company”), its Lithuanian subsidiary and one other company (not affiliated with Pro Kapital) and a private individual have been sued in Rome by two Italian citizens. According to the complainants, the alleged financial claim has passed to them by inheritance. AS Pro Kapital Grupp and its Lithuanian subsidiary deny any connection with the alleged claim as they have never had any contractual or non-contractual relations with the person whose claims are allegedly inherited. Parent Company and its Lithuanian subsidiary have lodged their statement of objections with the Rome Court. On 11.04.2024, the first hearing was held in Rome, but the court found that the claim was filed in the wrong department and the hearing had to be re-schedule. A new hearing was held on 20.02.2025, where it was clarified that the settlement is excluded in the present proceedings and the procedure will therefore continue. In view of all the objections raised, there are grounds to believe that the judge will hold a further hearing to reach conclusions. No new hearing date has been set at this stage.

People

As at 31 March 2025 the Group employed 96 people compared to 86 people on 31 March 2024 of whom 49 were employed in the hotel (45 on 31 March 2024). The number of employees does not include council members.

Risks

The most significant risks for the Group are related with the market, liquidity and financing.

Due to long- term orientation in business model the Group can survive turbulences in the markets. The Group is further pursuing long term strategic approach, enabling it to acquire properties for development when market is low and sell the developed properties at the peak of business circle, thus naturally capitalising on market

opportunities and hedging market risk. The size and the diversity of the Group's real estate portfolio allows to adjust itself according to the needs in the market.

Liquidity risks are managed on an ongoing basis, with increased focus on working capital dynamics and needs. Both careful roll-on basis cash planning, monitoring of development project cash flow and flexibility in everyday cash needs contribute to effective management of liquidity risks.

Risk of financing might prolong the Group's schedule of property development and cause the slow-down of realization of its real estate portfolio. The risk is managed through maintaining the continuity of funding and balancing through the use of bank overdrafts, bank loans, bonds and other debentures as well as expanding its investor base and attracting additional financing from outside of Estonia.

Significant business risk would occur with another crisis, the decrease of the substantial purchasing capability and consumer confidence, the high interest rates for mortgage loans and other factors which could decrease the demand for real estate and have a negative impact to the Group's operating activities by decreasing the sales and other services. The Group has evaluated possible business risks and has taken necessary measures to ensure the sustainability in its development.

Asset risks are covered by effective insurance contracts.

Note 4. Business combination

Acquisition of Preatoni Nuda Proprieta S.R.L

On 22 March 2024, the Group acquired 67.5% of Preatoni Nuda Proprieta S.R.L ("PNP S.R.L"), a company based in Milan, Italy, for a total consideration of 2.5 million euros.

The acquisition allows the Group to enter the bare ownership market, which is well developed in southern European countries, particularly Italy. AS Pro Kapital Grupp aims to provide structural support to PNP S.R.L. while leveraging its experience and potentially replicating the model in the Baltic region. With an aging population and shifting generational attitudes toward real estate ownership, this approach presents an alternative perspective on real estate sales.

The fair value of the identifiable assets and liabilities of Preatoni Nuda Proprieta S.R.L as at the date of acquisition were:

At the acquisition date, the net assets of the acquired company amounted to -96 thousand euros. Following a fair value revaluation in accordance with IFRS 13 and IAS 38, the net assets increased to 3 497 thousand euros, primarily reflecting the recognition of key intangible assets:

- AI Software (180 thousand euros) – Enhancing automation and operational efficiency.
- Client Databases (3,317 thousand euros) – Comprising Investor, PNP Club, and Seller databases, valued based on revenue potential.

The annual amortization of these intangible assets is recognized over three years, starting from the acquisition date.

The deferred tax liability primarily reflects the tax effect of accelerated amortisation of intangible assets for tax purposes. The deferred tax liability was recognised based on the final calculation performed as at the end of 2024, once the fair value of the assets acquired in the business combination had been finalised.

As a result of the revaluation, the fair value of the Group’s 67.5% ownership stake amounted to 1 637 thousand euros, compared to the purchase price of 2 500 thousand euros, leading to the recognition of 863 thousand euros of goodwill.

Since the strategic importance of the client base and the company’s market position is directly linked to the Group’s operations and overall growth strategy, the goodwill has been allocated to the parent company in Estonia.

As of the reporting date, no impairment indicators have been identified, as the goodwill continues to support the Group’s strategic objectives and market expansion.

Unsecured non-convertible bonds

3 459 081 unsecured non-convertible bonds with the total issue value of 9 685 426.80 euros were issued in three tranches in 2020 to substitute former convertible bonds. The new bonds carried annual fixed interest rate of 8% and they have been listed on Nasdaq Tallinn bond list since January 2021 and initially their maturing date was in October 2024. With the consent from bondholders, redemption date has been postponed by 2+2 years, i.e new redemption date is 31 October 2026 with the condition that the Group may unilaterally postpone the redemption date by two years, i.e to 31 October 2028 by making a respective announcement via Nasdaq Tallinn by 30 September 2026 at the latest. The Group redeemed 1.5 million euros, 15% of the denomination value of each bond on 31 October 2024. From 1 November 2024 the bonds in amount 8,2 million euros carry an interest rate of 9%. As from 1 November 2024 the new denomination value of the Bonds is 2.38 euros per bond.

The balance sheet value on the reporting date is 8.3 million euros, which includes nominal value, refinancing costs and accrued interests.

Secured non-convertible bonds

In February 2020, the Group refinanced the senior secured bonds 2015/2020 in full by issuing new senior secured, called, fixed rate bonds 2020/2024 in total amount of 28.5 million euros. The New Bonds were similar to the Old Bonds: 285 bonds, with the value of 100 000 euros each, carry a fixed rate coupon 8% and their original maturing date was in February 2024.

With the consent of bondholders received in January 2024 the redemption date of the Bonds was extended to 20 February 2028. On 5 February 2024 the Group partially redeemed 8.6 million euros of the bonds by way of reducing the outstanding amount of each bond pro rata at price equal to 100 per cent of the nominal amount together with accrued but unpaid interest on the prepaid amount. From 21 February 2024 the senior secured bonds in amount of 19.9 million euros carry an interest rate of 11%.

According to terms and conditions, the Group has to maintain the equity ratio above 35% at all times. As at the end of the reporting period the calculated equity ratio was 43.87%. The equity ratio is positively influenced, when construction is completed and revenues are recorded on the balance sheet.

The remaining balance of the secured non-convertible bonds as at the balance sheet date amounts to 21.1 million euros. This includes the nominal value and accrued interest and reflects the adjustment made for the modification loss recognised in 2024.

Revenue from the sale of real estate has increased compared to the reference period, as we continued handing over completed apartments in the Kalaranna District, Tallinn, following the initial deliveries that began in December.

Customer advances decrease when real right agreements are signed and the properties are handed over to customers – the point at which the Group becomes entitled to consideration and revenue is recognised.

Revenue from hotel operations has decreased by 4.9% compared to the reference period, primarily due to a temporary drop in individual demand in February. However, demand is expected to recover in the coming months, supported by the MICE segment and improving individual bookings.
