

## PRESS RELEASE

### **Wolters Kluwer named a Leader in Process Safety Management software**

*Independent research firm recognizes Wolters Kluwer's Enablon platform as having the strongest market momentum and strongest set of product capabilities in its Green Quadrant research*

**NEW YORK – November 20, 2023** – Independent research firm, Verdantix, has named Wolters Kluwer a leader in Process Safety Management (PSM) Software, in its [Green Quadrant: Process Safety Management Software 2023 report](#).

The Green Quadrant report is the most comprehensive evaluation of the PSM software market, and it uses Verdantix' proprietary Green Quadrant methodology to provide a comprehensive, fact-based benchmark of the fifteen most prominent PSM software vendors in the world. The rigorous assessment includes customer interviews, a three-hour live demonstration and a comprehensive 102-point questionnaire made up of 15 capability and 10 market momentum categories.

Wolters Kluwer, through its [Enablon platform](#), achieved the report's highest ranking for product capabilities and market momentum.

**Wolters Kluwer received a perfect score of 3.0 out of 3.0 in the following Green Quadrant: Process Safety Management Software 2023 report categories:**

- Product strategy
- Innovation process
- Financial resources
- Risk management

**In addition, Wolters Kluwer received top scores in the following categories:**

- Organizational resources and growth
- Revenue growth
- Sustainability and ESG
- Platform interoperability and integrations
- Platform configurability
- Platform deployment options
- Contractor management
- Incident management
- Control of work
- Management of change

**[Laurent Dechaux](#), Senior Vice President and Managing Director, Enablon, for Wolters Kluwer, said:** "PSM software plays a significant role in helping organizations avoid catastrophic industrial accidents that can result in fatalities, property damage, and environmental disasters. The outstanding results achieved by the Wolters Kluwer Enablon platform in this seminal PSM software benchmark report confirm that we are uniquely positioned to help organizations meet their EHS, process safety, compliance, and ESG goals."

Enablon, one of four software businesses that comprises the [Wolters Kluwer Corporate Performance & ESG \(CP & ESG\) division](#), is the world's leading provider of integrated software solutions for EHS, ESG, Operational Excellence, and Governance, Risk and Compliance (GRC). Hundreds of industry-leading enterprises and millions of users, worldwide, rely on Enablon solutions to minimize risks, increase worker safety, prevent incidents from happening, achieve regulatory compliance, and reduce environmental impact.

**Joe Lamming, Industry Analyst, Verdantix, said:** “Our research highlighted that 92% of respondents consider having a single platform for PSM as an ‘important’ or ‘very important’ digitization goal over the next 12 months. The Wolters Kluwer Enablon vision of providing customers with a comprehensive and user-friendly platform for PSM caters to this requirement, and their comprehensive PSM solution offers a holistic approach to safety data management.”

Verdantix also recently named Wolters Kluwer as a leading, global provider of ESG software, and as the vendor with the most momentum among all participating firms, in its prestigious [Green Quadrant: ESG Reporting & Data Management Software 2023 report](#).

The [Green Quadrant: Process Safety Management Software 2023 report](#) is now available for pre-order.
