# Management report

### **General information**

The Group's parent company JSC Olainfarm is one of the biggest pharmaceutical companies in Latvia with more than 45 years of experience in production of chemical and pharmaceutical products. A basic principle of the Group's operations is to produce reliable and effective top-quality products for Latvia and the rest of the world. Products made by the Group are being exported to more than 60 countries worldwide, including the Baltics, Russia, other CIS, Europe, Asia, North America and Australia.

The main companies in the Group are the parent company Olainfarm and its fully owned subsidiaries: chain of pharmacies Latvijas Aptieka, a leading Latvian food supplement company Silvanols, producer of elastic and compression products Tonus Elast, healthcare companies Klinika Diamed and OlainMed, eco-cosmetics producer Kiwi Cosmetics and Belarussian producer of natural herbal medicines and infusion NPK Biotest.

#### Corporate mission and vision

#### Corporate mission:

JSC Olainfarm is one of the biggest manufacturers of finished drug forms chemical products in the Baltics. The keystone of our work is manufacturing of reliable and effective high quality products to the whole world. We are about fair and effective cooperation with our customers – patients, doctors, pharmacists and other partners. In achievement of our goals, we are creating a team of highly qualified, socially secured and well-motivated employees. Our priority is organizing an environmentally friendly manufacturing and constant increase of the Company's shareholders value.

### Corporate vision:

We are aiming to become the leading manufacturer of finished drug forms and chemical-pharmaceutical products in the Baltics and to make our products known and available worldwide.

Company's Corporate Governance Report and ESG Report 2018 is available at www.olainfarm.com.

### **Operational environment**

During the 2nd quarter of this year there was continuation of existing trends, such as Group's main markets experienced modest growth and appreciation of national currencies. Exchange rate of Russian rouble increased from 73.75 per 1 EUR to 71.60, Belorussian rouble appreciated from 2.39 BYR per 1 EUR to 2.33 BYR, but Ukrainian hryvna from 30.57 UAH per 1 EUR to 29.73. Taking into consideration continuing uncertainties regarding USA and China trade regulations (tariffs), which may negatively affect Group's operational performance in the coming quarters, economy's growth forecasts are revised downwards. For example, Bank of Latvia decreased Latvia's GDP growth forecast for year 2019 from 3.5% to 2.9%.

### **Financial results**

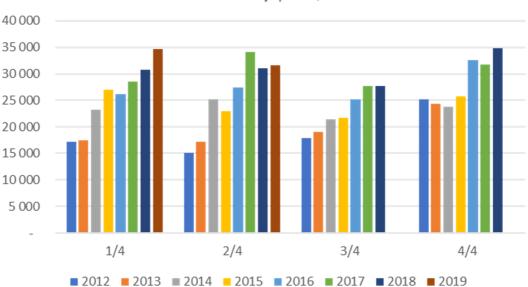

EUR.

During the first six months of this year Group's sales reached 66 392 thousand EUR, which is an increase by 7% or 4 548 thousand EUR comparing to the same period of 2018. Gross profit, in turn, was 41 083 thousand EUR that shows an increase by 11% of 4 134 thousand EUR to the last year's six months figures.

Group's sales during the 2nd quarter of 2019 were 31 647 thousand EUR and that is by 2% more than in the 2nd quarter of 2018 when sales were 31 055 thousand EUR. At the same time gross profit was by 5% or 891 thousand EUR higher and reached 19 829 thousand

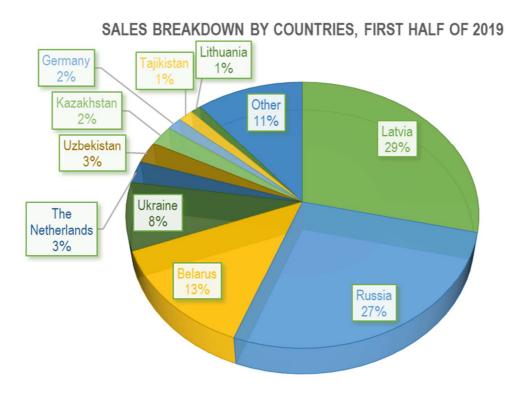

Substantial variability can be observed in the previously published monthly sales data. Sales in separate months can be influenced by changes in Group's clients order volumes when planned total sales amounts do not change but are unevenly spread over year. If order volume is relatively small Group companies can deliver it to a client once or several times a year. Group's management continues to work towards reaching annual sales volume target, which much better reflects overall trends.

Sales breakdown by guarter, '000 EUR

### Markets

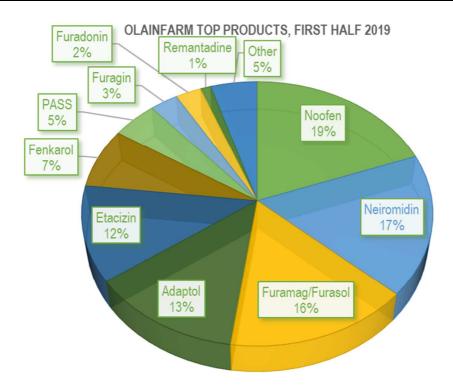

Group's main markets during the first six months of this year are Latvia, Russia, Belarus and Ukraine, where total share is 77% of sales. Group continues to actively pursue geographical diversification in order to lessen its dependency on the largest sales outlets.

### Products

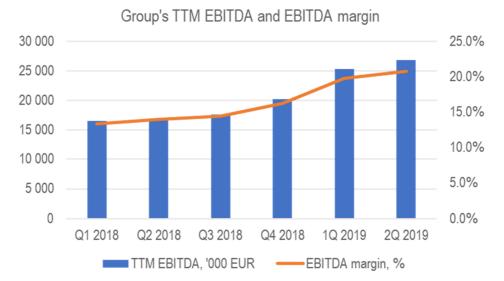

During the first six months of this year sales volumes of the main Olainfarm products continued to increase. The share of the leading product Noofen is 19%, which is by one percentage point more than a year before. The share of the three largest products comprise 52% that is by one percentage point higher than a year before (51%).

In April this year JSC Olainfarm signed agreement with a unit of UN (UN Office for Project Services) about deliveries of PASS in the amount of 3 million EUR during 2019-2020, which will keep this medicine among top products also in the future.

## EBITDA and reporting period profit

Group's EBITDA figure during this year's first six months was 16 928 thousand EUR, which is by 64% or 6 589 thousand EUR more than the half year results of the last year. In the 2nd quarter EBITDA was 6 422 thousand EUR that surpassed the figure of the 2nd quarter of 2018 by 1 497 thousand EUR or 30%. EBITDA for 12 months until the end of reporting period was 26 817 thousand EUR. EBITDA margin for the first six months of this year and for the last 12 months until the end of reporting period was 26% and 21%, respectively.

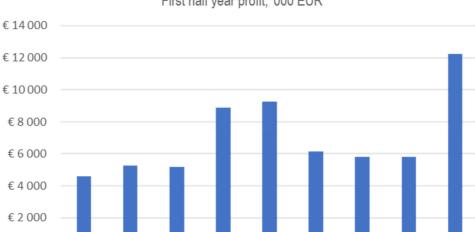

Group's reporting period profit for the six month 2019 was 12 244 thousand EUR, which is the largest profit amount in history. Profit increased by 112% or 6 458 thousand EUR in comparison with half year of 2018. Reporting period profit was positively influenced by gross margin increase, selling expense decrease, income from currency rate fluctuations but negatively impacted by increase of administrative expenses. Administrative expenses rose due to investments in medicine registration dossiers and such costs may not always possible to capitalize as well as with review of salaries and bonus payments to personnel (excluding the Supervisory Council and the Management Board).

Herein presented financial indicators and alternative performance indicators must be reviewed together with explanations and definitions included in the management report of the annual accounts for year 2018, that are not changed except as described below:

Changes implemented from year 2019 and described in the interim financial statements for the 3 month period ended 31 March 2019:

- EBITDA = Profit before tax and before interest income, interest expense, depreciation and amortization charge for 12-month period ending with reporting period end
- EBIT = Profit before tax and before interest income, interest expense for 12-month period ending with reporting period end

Additional indicators implemented with current interim report:

Financial institutions that provide loans and other financing instruments to the Group have established certain covenants to be met by the Group. These covenants are closely monitored by the management of the Group. The following major covenants are added to the list of main financial indicators of the Group:

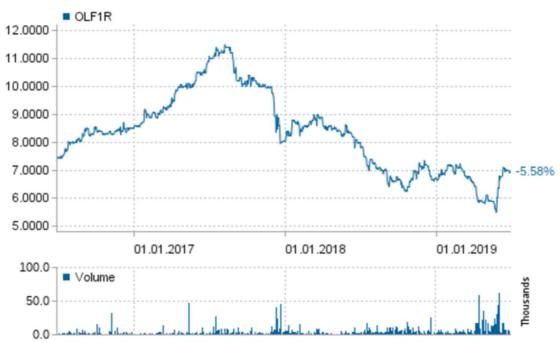

- DSCR (Debt – Service Coverage Ratio) = EBITDA / Debt service, where Debt service = total interest and principal amount paid on loans, leases and other interest bearing liabilities within 12-month period ending with reporting period end, excluding refinancing of the existing loan. DSCR ratio represents the sufficiency of operating profit (EBITDA) for debts servicing. Minimum DSCR ratio established by the Group is 1.5

- Net liabilities / EBITDA, where Net liabilities are all interest bearing liabilities minus cash as of the reporting date. Net liabilities / EBITDA ratio is a debt ratio that shows how many years of operating profit (EBITDA) it would take for the Group to pay back its interest bearing liabilities if net liabilities and EBITDA are held constant. Maximum Net liabilities / EBITDA ratio established by the Group is 2.3

#### **Developments**

During the first half of this year JSC Olainfarm paid close attention to registration of active pharmaceutical ingredients and final dosage forms.

Group's company SIA Silvanols launched innovative and natural nasal spray for allergic rhinitis. Development of this project was in close cooperation with University of Latvia and Latvian Biomedical Research and Study Centre. Products of SIA Silvanols are available not only in pharmacies but also in grocery and everyday goods stores.

SIA Latvijas Aptieka, subsidiary of JSC Olainfarm, continued to invest in strengthening of its brand. Three pharmacies in Riga and Daugavpils were renovated, one new pharmacy was opened in Pure. Three new specialists who studies were supported by SIA Latvijas Aptieka, joined the company's team of professionals. By expanding available services seven pharmaceutical specialists within lifelong educational program received certificates for distribution of veterinary medicines.

#### Events after end of reporting period

There were the following changes in the management of JSC Olainfarm:

- On the 1st of August Martins Tambaks resignation was received whereby he resigns from performing duties of management board member as of the 31st of July, 2019. JSC Olainfarm Management Board continues its work with six board members. M. Tambaks will continue to work at JSC Olainfarm.
- A new Director of the Finance Department, Jana Gridasova, has joined JSC Olainfarm. With more than 15 years of experience in the financial sector, J. Gridasova manages and organizes budget planning, financial resource flow, makes necessary changes in financial management processes, to increase efficiency and develop necessary competencies within the company.

In order to strengthen the management team of JSC Olainfarm, the Supervisory Council has decided to appoint a new candidate with international experience in pharmacy for the position of the Chairman of the Board of JSC Olainfarm. In order to facilitate the selection of candidates, Amrop Latvia, a top-level recruitment company with experience in the field, has been engaged. Lauris Macijevskis will continue to work as the Chairman of the Board until a new manager is selected through tendering. The international tendering process for the position of Olainfarm Chairman of the Board is planned to be completed by the end of October. After appointing the new Chairman of the Board, Lauris Macijevskis will continue his work on the Board of JSC Olainfarm.

JSC Olainfarm concluded agreement with bank BlueOrange for the total amount of 10.5 million EUR, which allows to refinance historical liabilities to ABLV bank and to finance cooling station and its engineering system to reduce greenhouse gas emissions. The loan's term is five years.

On August 2nd, 2019, request to convene an extraordinary general meeting of shareholders has been received from shareholder limited liability company OLMAFARM, representing 42,56% of the share capital of Joint Stock Company Olainfarm. Management Board of Joint Stock Company Olainfarm based on the shareholder's request in accordance with the article 270 of the Commercial law hereby convenes and announces that Extraordinary General Meeting of Shareholders of Joint Stock Company Olainfarm will be held on November 1st, 2019. Agenda includes recall of the Council and Election of the new Council and recall of the Auditing committee.

In April of 2019, when starting to act on their duties, the Board of JSC Olainfarm, became acquainted with the economic activities of the company and the previously signed contracts. The new Management Board identified transactions regarding marketing outsourcing services which raised doubts about their potential fictitious nature, economic validity and legitimacy. In addition, the

amount of the contract did not match the amount of services received and the marketing activities were lacking supporting documentation, so initially cooperation with the company was temporarily terminated, at this moment, it has been completely suspended and the situation has been reported to the law enforcement agencies. The existing Management Board of JSC Olainfarm has turned to the State Police with a request to declare the company a victim in the previously initiated criminal proceedings.

Following the instructions of law enforcement agencies, JSC Olainfarm actively cooperated with the international auditing company in order to help it gain an in-depth understanding of the marketing services purchased and to eliminate any shadow of a doubt. The auditor's report, received in August 2019, indicates that an in-depth analysis confirmed - as a result of this transaction, potentially significant losses were caused to JSC Olainfarm.

### Future Outlook

Group's development outlook remains mildly optimistic which allows to state with confidence that previously set financial targets will be achieved.

# Notes to the interim condensed consolidated financial statements

## 1. Corporate information

The principal activities of Olainfarm Group (hereinafter, the Group) are manufacturing and distribution of chemical and pharmaceutical products. The Parent Company of the Group, JSC Olainfarm (hereinafter, the Parent Company) was registered with the Republic of Latvia Enterprise Register on 10 June 1991 (re-registered on 27 March 1997) and with the Republic of Latvia Commercial Register on 4 August 2004. The shares of the Parent Company are listed on Riga Stock Exchange, Latvia.

These unaudited interim condensed consolidated financial statements (hereinafter – the interim financial statements) were approved by the Management Board on 30 August 2019.

### 2. Basis of preparation and changes to the Group's accounting policies

### **Basis of preparation**

The interim condensed consolidated financial statements for six months ended 30 June 2019 have been prepared in accordance with IAS 34 Interim Financial Reporting.

The interim financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Group's annual financial statements as at 31 December 2018.

The interim financial statements are presented in euro (EUR), the monetary unit of the Republic of Latvia, and rounded to the nearest thousand (EUR '000 or thsd. EUR).

The interim financial statements comprise the financial statements of the Parent Company and all its subsidiaries as at 30 June 2019.

### Changes in accounting policy and disclosures

The accounting policies are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2018. The Group has adopted new and amended IFRSs and IFRICs effective for annual periods beginning on 1 January 2019. No impact on the interim financial statements of the Group is identified except as described below.

### Adoption of IFRS 16 Leases:

The new standard sets out the principles for the recognition, measurement, presentation and disclosure of leases. All leases result in the lessee obtaining the right of use an asset at the start of the lease and, if lease payments are made over time, also obtaining financing. IFRS 16 introduces a single lessee accounting model. Lessees are required to recognize: (a) assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value; and (b) depreciation of lease assets separately from interest on lease liabilities in the income statement.

The Group has adopted IFRS 16 from 1 January 2019. The Group has applied the simplified transitional approach and has not restated comparative amounts for the year prior to first adoption. The adjustments arising from the new leasing rules are therefore recognized in the balance sheet on 1 January 2019. Right-of-use assets are measured at the amount of the lease liability on adoption (adjusted for any prepaid lease expenses). Impact on the statement of financial position as at 1 January 2019:

Assets:

- Right-of-use assets increase by 7 555 thsd EUR
- Other tangible assets decrease by 919 thsd EUR
- Deferred expenses decrease by 190 thsd EUR

Liabilities:

• Lease liabilities – increase by 6 446 thsd EUR.

The Group has not early applied the IFRS and IFRIC interpretations that have been issued as of the date of authorization of these financial statements for issue, but which are not yet effective. The Group plans to adopt these standards and interpretations on their effectiveness dates provided they are endorsed by the EU.

## 3. Impairments

Goodwill is tested for impairment annually and when circumstances indicate the carrying value may be impaired. Goodwill acquired through business combinations has been allocated to the following cash generating units (CGU): Pharmacy CGU (all pharmacy retail entities), Silvanols CGU, Tonus Elast CGU (Tonus Elast and Elast Medikl), Biotest CGU, Diamed CGU, Olainmed CGU and Other CGU. Premises lease agreements and licenses are fully related to Pharmacy CGU.

The recoverable amount of each CGU is determined based on a value in use calculation using cash flow projections from financial budgets approved by the management of the Group. Applying the same key assumptions in value in use calculation as for the latest year end testing, management has not identified circumstances that indicate the carrying value of CGUs related goodwill, premises lease agreements and licenses may be materially impaired at the date of these interim financial statements.

## 4. Property, plant and equipment

During the reporting period the investments of 1 639 thsd. EUR are provided under the EU co-financed project Implementation of Experimental Technology for Production of New Products of JSC Olainfarm. The investments made are fully financed from cash flows of the company.

During the reporting period there were no other significant investments made for property, plant and equipment, also no material disposals or write-offs were performed.

## 5. Loans from credit institutions

Information on AS ABLV Bank loan liabilities refinancing is provided in the section Events after the reporting period.

## 9. Events after the reporting period

On May 15th the Parent company of the Group has concluded novation agreement with ABLV Bank JSC under liquidation on the loan's remaining amount 9 396 thousand EUR repayment term until April 30, 2020. The management of the Parent company plans to refinance this loan before maturity.

In August, JSC Olainfarm and financial partner the bank BlueOrange have concluded an agreement of refinancing existing loan liabilities. The total loan will amount to EUR 10.5 million over five years, of which nearly nine million will be redirected to fulfill historical liabilities and the remainder will be invested in upgrading of JSC Olainfarm cooling station and its engineering system to reduce greenhouse gas emissions. This project is implemented with co-funding from the European Union structural funds.

After the reporting period end there have been no other events requiring adjustment of or disclosure in these interim financial statements.
