Such guidelines are described in section 3.1.2. Other guidelines are precatory for the Board of Directors. If the Board of Directors in an agreement deviates from these guidelines, the reasons for this shall be stated in the minutes of the Board of Directors' meeting.

The principles set out for determination of salaries and other remuneration applies for the Chief Executive Officer, the Chief Financial Officer, and the Executive Vice Presidents of Scatec Solar (together "Executive Management"), as of today eight individuals, for the financial year 2020 and until new principles are resolved by the General Meeting in accordance with the Companies Act.

Executive Management remuneration in Scatec Solar shall be determined based on the following main principles:

2.1 Executive Management remuneration shall be competitive, but not leading

Executive Management remuneration shall, as a general guideline, be suitable to attract and retain skilled leaders. The salaries for the Executive Management should be comparable with levels in similar businesses.

2.2 Executive Management remuneration is to be motivational

Executive Management remuneration should be structured to motivate the Executive Management to strive to realise the Company's strategic goals. The main element of Executive Management remuneration should be the base salary, although additional variable incentives should be available to motivate the Executive Management's efforts on behalf of the company.

3. Principles regarding benefits that can be offered in addition to regular salary

Scatec Solar has sought to structure a plan combining base salary, short term incentive and share based long term incentive to ensure (i) to motivate the Executive Management to strive to realise the Company's strategic goals including financial results, (ii) be suitable to attract and retain skilled leaders taking into account the international market the company participates in, and (iii) that the plan is approximately the average for management salaries for comparable Executive Management in similar businesses, and in the respective local market.

3.1 Additional benefits

3.1.1 Short Term Incentive - Bonus scheme

As part of the incentive and retention plan in effect from 2016, the Executive Management is part of a bonus arrangement based on key performance indicators both on the Company's overall and financial performance as well as the individual's performance. The bonus shall not exceed fifty percent (50%) of the annual base salary.

3.1.2 Long Term Incentive - Option Program

The Company implemented in 2016 a share option plan (the "Former Option Plan") whereby the Executive Management and certain of the Company's key employees, may over a three-year period be allocated options corresponding to up to 4,600,000 shares of the Company, equivalent to approximately five percent (5%) of the total outstanding shares. The strike price of each yearly award is based on the volume weighted average share price for the period immediately prior to the award. The number of options awarded to each employee is calculated so that the value of the options is expected to correspond to fifty percent (50%) of the employee's base salary based on a pre-defined share price increase over the tenor of the option program.
