

Capital increase in connection with exercise of issued warrants

The Board of Directors of Wirtek A/S issued 400.000 warrants in June 2018 following an authorisation given by the general meeting.

Each warrant entitles the holder to subscribe for one Wirtek A/S share with a nominal value of DKK 0.15. The exercise price for the warrants was calculated at the time of issue to 3.87 DKK.

The vesting period was three years, and the warrants could be exercised by the holders in the first exercise period from 1 May to 15 May 2021.

Instructions and payments have been received to exercise a total of 343,500 warrants by 31 warrants holders.

Today, the Board of Directors decided to increase the capital related to the exercised warrants. The share capital of Wirtek has as a result been increased by a nominal amount of DKK 51.525 from DKK 1,035,361.80 to DKK 1,086,886.80.

Dilution of the existing shareholders is 4.7%.

As a result of the exercise of the warrants, a total of 30 existing colleagues has been added to the shareholders of Wirtek.

CEO Michael Aaen comments:

"We made a decision in 2018 to establish a warrants program for our colleagues in Romania as an important element in retaining and attracting great talent as well as to honour the hard work and long-term commitment by our highly skilled colleagues, some of which have been with us through many years. It makes me proud to welcome the colleagues as new shareholders in Wirtek. It is my firm belief that our mutual long-term commitment has created significant value for our clients, for our shareholders as well as for our colleagues."

The new shares will after the formal issue be admitted to trading and official listing on Nasdaq First North Growth Market Denmark.
