

## **Eviden launches Generative AI Acceleration Program to help organizations leverage full potential of this new technology**

**Paris, France – October 24, 2023** – [Eviden](#), the [Atos Group](#) business leading in digital, cloud, big data and security, today announces its new **Generative AI Acceleration Program** to help businesses and organizations exploit, scale and leverage the power of Gen AI with complete trust.

### **Accelerating the Business Journey to Gen AI**

With a unique positioning in Europe that spans the entire AI spectrum, from supercomputers (#1 in Europe and #3 worldwide<sup>1</sup>) to hybrid cloud and edge, Eviden has an unmatched depth of expertise and experience that brings together services, software and hardware.

Strengthened by 8,000 data and AI experts, the **Generative AI Acceleration Program**, part of Eviden's global AI offering, will enable organizations to leverage Eviden's end-to-end mastery of the AI value chain, including applications, data orchestration, model factory, infrastructure, and trust layers in one a tailor-made solution. The program is built on multiple Gen AI projects already conducted with numerous organizations across all verticals, and leverages Eviden's Gen AI R&D experience with leading research consortiums worldwide.

### **Transforming the Generative AI possibility into reality**

Consultative-driven, the acceleration program can support businesses across the full design-build-run process, covering everything from strategic workshops for use case prioritization and roadmapping, to guidance for secure architectural designs, and scalable deployment in production and operations.

The program will notably provide customers with a modular set of **Accelerators**, each being a pre-integrated solution blueprint, delivered through a combination of consultancy, GenAI tools, software and hardware. These are the following:

- **Industry Accelerators** provide a library of pre-packaged proven use cases and templates for fast time to value. Users can harvest the advantages of Gen AI assisted support, client profiling, knowledge management and customer campaign management.

<sup>1</sup> Segment >10m USD. Hyperion, May 2022.

- **Builder Accelerators** provide advanced development and MLOPs (Machine Learning Operations) solutions to embed Gen AI into an organization's specific products and processes. Businesses can reap the gains of automated code generation, test script creation, precise model refinement, and ensure LLM (Large Language Model) transparency and ethical use.
- **Model Accelerators** provide trusted advisory and developments on hyperscalers (AWS, Azure, Google) and major data platforms (Databricks, Snowflake,...), with over 19,500 hybrid cloud practitioners. Users can industrialize and scale their Gen AI applications into robust enterprise-class solutions through finely tuned and tailor-made Gen AI models.
- **Performance Accelerators** provide low-latency, dedicated infrastructures when needed, on premise or as-a-service, from AI supercomputers to inference servers at the edge. Businesses can harness Eviden's pioneering expertise in high-performance AI computing to elevate their performance.
- **Security Accelerators** provide end-end-end security consulting, integration and operation, leveraging notably Eviden [AIsaac Cyber Mesh](#) managed security solution, which is powered by Gen AI. Users can benefit from Eviden's expertise in cybersecurity and managed security services.

## STRONG ECOSYSTEM

The program is reinforced by strong partnerships with hyperscalers, AI ISVs (Independent Software Vendors), and high-performance processing providers such as Nvidia, Intel and Graphcore, so that businesses can easily and readily benefit from these third-party solutions and services in their tailor-made Gen AI Accelerator program.

*"For all businesses today, the question is no longer about at which point Generative AI will be transformative. It is about how to move from the hype to reality before competitors do"* said **Wim Los, Chief Customer Officer, Eviden, Atos Group**. *"By bringing a cutting-edge alliance of solutions, we want to help organizations build their future, and design and run the Generative AI powered organizations of tomorrow. Our goal is to be their trusted partner, delivering actionable and collaborative innovation that matters."*

## AVAILABILITY

Eviden's **Generative AI Acceleration Program** is available now for selected customers and will be progressively deployed worldwide, with new offerings to be added over the coming months.

## Further information for journalists

Eviden is already recognized as a top player in Conversational AI, Computer Vision, Data Science, Edge Intelligence, Autonomous Systems, Text Mining & NLP (Natural Language Processing), with hundreds of pre-built models to facilitate innovation at speed.

- Recognized as a [Leader in 2022 Gartner® Magic Quadrant™ for Data & Analytic Services](#), February 2022.

- Recognized as the global leader in Edge AI in iSG's Provider Lens™ 'Internet of Things – Solutions & Services' [2021](#) Quadrant'; and also in 2022
- Pioneer in Computer Vision, building on the acquisition of [Ipsotek](#) in 2021, now with 200+ data scientists and 700+ projects delivered in 36 countries

## About Eviden<sup>2</sup>

[Eviden](#) is a next-gen technology leader in data-driven, trusted and sustainable digital transformation with a strong portfolio of patented technologies. With worldwide leading positions in advanced computing, security, AI, cloud and digital platforms, it provides deep expertise for all industries in more than 47 countries. Bringing together 55,000 world-class talents, Eviden expands the possibilities of data and technology across the digital continuum, now and for generations to come. Eviden is an Atos Group company with an annual revenue of c. € 5 billion.

## About Atos

[Atos](#) is a global leader in digital transformation with 107,000 employees and annual revenue of c. € 11 billion. European number one in cybersecurity, cloud and high-performance computing, the Group provides tailored end-to-end solutions for all industries in 69 countries. A pioneer in decarbonization services and products, Atos is committed to a secure and decarbonized digital for its clients. Atos is a SE (Societas Europaea), and listed on Euronext Paris.

The [purpose of Atos](#) is to help design the future of the information space. Its expertise and services support the development of knowledge, education and research in a multicultural approach and contribute to the development of scientific and technological excellence. Across the world, the Group enables its customers and employees, and members of societies at large to live, work and develop sustainably, in a safe and secure information space.
