

## Mdxhealth Adds Hereditary Prostate Cancer Genetic Test to Prostate Cancer Offering

IRVINE, CA, and HERSTAL, BELGIUM – March 12, 2024 ([GlobeNewswire](#)) – MDxHealth SA (NASDAQ: MDXH) (the “Company” or “mdxhealth”), a commercial-stage precision diagnostic company, announces the introduction of a non-invasive genetic prostate cancer test through its urology sales channel.

With a simple saliva sample, the new comprehensive hereditary prostate cancer test offering provides insights into a patient’s risk of developing cancer, disease progression, and response to prostate cancer therapies. Germline testing of prostate cancer patients is recommended in the National Comprehensive Cancer Network (NCCN) guidelines and is covered by Medicare and many commercial insurance plans, for eligible patients.

**Michael K. McGarrity, CEO of mdxhealth, commented:** “The addition of this test to our menu reflects our commitment to delivering clinically actionable precision diagnostics to our urology customer base, providing both clinicians and patients with insights into the diagnosis and treatment of prostate cancer, particularly where genetic factors play a critical role. Given the established clinical guidelines and reimbursement, we believe this portfolio addition will contribute to revenue and growth in the second half of this year.”

Prostate cancer remains a leading cause of cancer-related death among men, with an estimated 288,300 new diagnoses and 34,700 deaths annually. Decades of research indicate that prostate cancer has a strong genetic component with implications to ancestry.

### About mdxhealth

Mdxhealth is a commercial-stage precision diagnostics company that provides actionable molecular information to personalize patient diagnosis and treatment. The Company’s tests are based on proprietary genomic, epigenetic (methylation) and other molecular technologies and assist physicians with the diagnosis and prognosis of urologic cancers and other urologic diseases. *This press release contains forward-looking statements and estimates with respect to the anticipated future performance of MDxHealth and the market in which it operates, all of which involve certain risks and uncertainties. These statements are often, but are not always, made through the use of words or phrases such as “potential,” “expect,” “will,” “goal,” “next,” “potential,” “aim,” “explore,” “forward,” “future,” and “believes” as well as similar expressions. Forward-looking statements contained in this release include, but are not limited to, statements regarding expected future operating results; expectations for development of new or improved products and services and their impact on patients; our strategies, positioning, resources, capabilities and expectations for future events or performance; and the anticipated benefits of our acquisitions, including estimated synergies and other financial impacts. Such statements and estimates are based on assumptions and assessments of known and unknown risks, uncertainties and other factors, which were deemed reasonable but may not prove to be correct. Actual events are difficult to predict, may depend upon factors that are beyond the company’s control, and may turn out to be materially different. Examples of forward-looking statements include, among others, statements we make regarding expected future operating results, product development efforts, our strategies,*

positioning, resources, capabilities and expectations for future events or performance. Important factors that could cause actual results, conditions and events to differ materially from those indicated in the forward-looking statements include, among others, the following: our ability to successfully and profitably market our products; the acceptance of our products and services by healthcare providers; our ability to achieve and maintain adequate levels of coverage or reimbursement for our current and future solutions we commercialize or may seek to commercialize; the willingness of health insurance companies and other payers to cover our products and services and adequately reimburse us for such products and services; our ability to obtain and maintain regulatory approvals and comply with applicable regulations; timing, progress and results of our research and development programs; the period over which we estimate our existing cash will be sufficient to fund our future operating expenses and capital expenditure requirements; the possibility that the anticipated benefits from our business acquisitions like our acquisition of the Oncotype DX® GPS prostate cancer business will not be realized in full or at all or may take longer to realize than expected; and the amount and nature of competition for our products and services. Other important risks and uncertainties are described in the Risk Factors sections of our most recent Annual Report on Form 20-F and in our other reports filed with the Securities and Exchange Commission. MDxHealth expressly disclaims any obligation to update any such forward-looking statements in this release to reflect any change in its expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based unless required by law or regulation. This press release does not constitute an offer or invitation for the sale or purchase of securities or assets of MDxHealth in any jurisdiction. No securities of MDxHealth may be offered or sold within the United States without registration under the U.S. Securities Act of 1933, as amended, or in compliance with an exemption therefrom, and in accordance with any applicable U.S. securities laws.
