Amsterdam, Brussels, Dublin, Lisbon, Milan, Oslo and Paris - 15 February 2024 - Euronext, the leading pan-European market infrastructure, today publishes its results for the fourth quarter and full year 2023.

- Full year 2023 revenue and income¹ was up +3.9% at €1,474.7 million (+0.5% compared to 2022 underlying revenue and income):
  - Strong performance of non-volume related revenue representing 60% of total revenue<sup>2</sup> and income (vs. 57% in 2022) and covering 145% of underlying operating expenses, excluding D&A<sup>2</sup> (vs. 133% in 2022):
    - Technology Solutions reported €109.9 million of revenue (+9.8%), reflecting continued benefits from the internalisation of colocation services following the migration of the Core Data Centre to Bergamo, Italy;
    - Advanced Data Services revenue grew to €224.8 million (+6.0%), driven by a strong performance across the data products offering and solid demand for analytic products;
    - Custody and Settlement revenue grew to €248.9 million (+2.4%), driven by growing assets under custody, improved revenue capture and continued expansion of the services business. This was partly offset by lower settlement volumes and the negative FX impact. Like-for-like at constant currencies, revenue was up +5.5%;
    - Listing revenue grew to €220.6 million (+1.0%), thanks to the continued expansion of the Corporate Services offering. In 2023, Euronext remained the leading venue for equity listing in Europe, recording 64 new equity listings, and the leading venue for debt listing globally. Listing performance was negatively impacted by FX impact. Like-for-like at constant currencies, revenue was up +3.2%.
  - Clearing revenue was stable year-on-year at €121.3 million, thanks to the additional business captured by Euronext Clearing following its expansion for equities on 27 November 2023 and dynamic bond clearing, that offset softer equity and derivatives clearing volumes. Net treasury income for Euronext Clearing was €46.7 million (+6.0% compared to 2022 underlying net treasury income<sup>1</sup>).
  - Trading revenue was €490.0 million (-4.7%), reflecting the softer environment for cash trading (€265.4 million, -12.0%) and derivatives trading (€54.2 million, -7.2%) offset by record results in fixed income (€107.4 million, +15.6%) and power trading (€37.4 million, +14.5%).
- Underlying operating expenses excluding D&A<sup>2</sup> were €610.0 million (+0.6%), better than quided at €618 million (revised from €630 million³ due to FX impact) thanks to continued cost control, and a one-off accruals release of €6.3 million.
- Adjusted EBITDA<sup>2</sup> was €864.7 million (+0.4%) and adjusted EBITDA margin was 58.6% (-0.1 pts).
- Adjusted net income<sup>2</sup> was €584.7 million (+5.3%) and adjusted EPS was €5.51 (+5.9%).
- Reported net income was €513.6 million (+17.3%), reflecting €53.0 million of capital gains, positive interest rates environment and positive comparison base in 2022.

#### Great progress with Borsa Italiana Group integration leads to accelerated synergies delivery:

- **€74 million** of cumulated run-rate annual EBITDA synergies were achieved at end of 2023, above the €70 million interim target. €26 million run-rate annual EBITDA synergies were delivered in Q4 2023, mainly related to the first phase of the Euronext Clearing European expansion to equity clearing.
- €103 million cumulated implementation costs were incurred since the acquisition of the Borsa Italiana Group, of which €8 million were incurred during Q4 2023.
- Euronext successfully expanded Euronext Clearing as the pan-European clearing house for Euronext cash markets. Following the expansion of clearing activities to Euronext Brussels cash markets on 6 November 2023, Euronext expanded its clearing offering, on schedule, to the cash markets in France, Ireland, the Netherlands, and Portugal on 27 November 2023. Euronext Clearing now clears equities, ETFs, structured products, warrants, and bonds across six Euronext markets. The implementation of harmonised clearing allows market participants to streamline their entire trade lifecycle within Euronext and to leverage on Euronext Securities to access T2S.
- Euronext is well on track for the delivery of the last major milestones of the "Growth for Impact 2024" strategic plan in 2024. The migration of Italian derivatives trading to Optiq<sup>®</sup> in Q1 2024 and the expansion of Euronext Clearing to Euronext listed financial and commodities derivatives by Q3 2024 will significantly contribute to reaching the targeted €115 million synergies by end of 2024.

#### Dividend proposal:

A dividend of €256.8 million will be proposed to the Annual General Meeting on 15 May 2024. This represents 50% of 2023 reported net income, in line with Euronext's dividend policy. Based on the number of outstanding shares at the end of 2023, this represents a dividend of €2.48 per share, up +11.7% compared to 2022.

#### Cost guidance for 2024:

In 2023, underlying expenses excluding D&A were positively impacted by a one-off accruals release of €6.3 million and by a positive impact of €11.4 million from the NOK depreciation. Consequently, Euronext reported €610.0 million underlying expenses excluding D&A in 2023, compared to an initial guidance of €630 million.

In 2024, Euronext will continue its costs control policy and expects that savings and synergies will offset inflation and 2023 costs ramp-up. As a result, Euronext expects its 2024 underlying expenses excluding D&A to be around €625 million, including around €10 million to finance growth projects and excluding potential impact from FX over the year.

#### Continued innovation in trading with the launch of Euronext Mid-Point Match

Following the successful opening of the test environment for Euronext's new dark trading facility at the end of January 2024, Euronext confirms the launch of Dark, Mid-Point and Sweep functionalities in Q1 2024<sup>1</sup>. The whole Euronext ecosystem of trading members, local brokers, market makers and global banks, will benefit from zero latency in pegging to Euronext midpoint, and zero latency for sweeping from dark to lit on Euronext stocks.

#### Stéphane Boujnah, Chief Executive Officer and Chairman of the Managing Board of Euronext, said:

"In 2023, Euronext reached record revenue and income close to  $\in$ 1.5 billion. Robust organic growth in our non-volume related businesses and double-digit growth in fixed income and power trading drove Group revenue's growth to +3.9%, despite negative FX impacts and the softer cash trading environment. Despite an inflationary environment, Euronext was able to finance growth projects and to beat its revised cost guidance. This was allowed by our trademark cost discipline, FX impacts and a one-off release. We reached an adjusted EBITDA of  $\in$ 864.7 million, which translated into an adjusted EBITDA margin of 58.6%. Our strong operating performance, combined with around  $\in$ 56 million of capital gains, allowed our net reported profit to grow double-digit to  $\in$ 513.6 million, and our adjusted EPS to increase by +5.9% to  $\in$ 5.51. In line with our dividend policy, we will propose a total dividend of  $\in$ 256.8 million, representing 50% of our reported net income, at our next annual general meeting to be held in May 2024. Our strong cash generation capabilities have enabled us to already return  $\in$ 200 million of capital to our shareholders through the share repurchase programme implemented during the second half of 2023. We continued our deleveraging path as we reached a net debt to adjusted EBITDA ratio of 1.9x at the end of 2023, down from 3.2x post acquisition of the Borsa Italiana Group. We have made great progress with the delivery of our 'Growth for Impact 2024' strategic plan. We have expanded Euronext Clearing as a pan-European clearing house for the clearing of cash products. This new harmonised post-trade set-up allows clients to execute their entire trading lifecycle through Euronext.

These strategic milestones have materially contributed to the  $\in$ 74 million cumulated run-rate EBITDA synergies delivered by the end of 2023, ahead of the  $\in$ 70 million interim guidance.

The migration of Borsa Italiana's derivatives to Optiq in Q1 2024 and the expansion of Euronext Clearing to Euronext listed derivatives by Q3 2024 will complete our presence on the entire trading value chain and will position Euronext ideally to capture future growth opportunities.

As we celebrate the 10 year anniversary of our IPO in 2024, I am looking forward to deep-dive into the opportunities that this transformation will offer for Euronext in the coming years at our Investors Day in November 2024."

## 2023 revenue and income

In 2023, Euronext's underlying revenue and income was  $\\\in 1,474.7$  million, up +0.5% compared to 2022, resulting from strong performance of non-volume related activities, offsetting the softer cash trading environment and negative impact from the NOK depreciation over the year. 2023 total revenue and income was up +3.9%, reflecting the Q3 2022 one-off loss in net treasury income related to the partial disposal of the Euronext Clearing portfolio<sup>1</sup>.

On a like-for-like basis and at constant currencies, Euronext consolidated revenue and income was up +1.6% in 2023, at €1,469.7 million, compared to 2022.

Non-volume related revenue accounted for 60% of underlying Group revenue in 2023, up +9.7% compared to 2022 underlying non-volume related revenue, reflecting the successful diversification towards non-volume related activities and the challenging environment for cash and derivatives trading. Non-volume-related underlying revenue covered 145% of underlying operating expenses excluding D&A, compared to 133% in 2022.

<sup>&</sup>lt;sup>1</sup> Underlying revenue excludes €49.0 million non-underlying, one-off loss (€35 million post tax) related to the partial disposal of the Euronext Clearing portfolio. Please refer to the section on net treasury income and <u>euronext.com/en/investor-relations/financial-calendar/q2-2022-results</u> for more details. <sup>2</sup> For the total adjustments performed please refer to the Appendix of this press release.

#### 2023 adjusted EBITDA

Underlying operational expenses excluding depreciation and amortisation increased slightly to  $\le$ 610.0 million, up +0.6%. 2023 underlying expenses were positively impacted by cost discipline, the NOK depreciation over the year and a positive one-off accruals release in Q4 2023 of  $\le$ 6.3 million. This entirely offset inflationary pressures and costs incurred to support new growth initiatives.

On a like-for-like basis at constant currencies, underlying operational expenses excluding depreciation and amortisation increased by +3.3% compared to 2022, which highlights the positive impact of the NOK on the 2023 reported cost base.

Consequently, adjusted EBITDA for the year totalled €864.7 million, up +0.4% compared to 2022. This represents an adjusted EBITDA margin of 58.6%, stable compared to 2022. On a like-for-like basis, adjusted EBITDA for 2023 was up +0.4%, to €874.7 million, and adjusted EBITDA margin was 59.5%, down -0.7 points compared to 2022.

#### 2023 net income, share of the parent company shareholders

Depreciation and amortisation accounted for  $\leq$ 170.1 million in 2023, up +6.2%, resulting from ongoing migration projects. PPA related to acquired businesses accounted for  $\leq$ 82.2 million and is included in depreciation and amortisation.

2023 adjusted operating profit was €790.4 million, down -0.3% compared to 2022 adjusted operating profit.

€174.2 million of non-underlying expenses, including depreciation and amortisation, were reported in 2022, related to the integration of the Borsa Italiana Group, the implementation of the 'Growth for Impact 2024' strategic plan and the PPA of acquired businesses.

Net financing expense for 2023 was €0.2 million compared to a net financing expense of €29.7 million in 2022. This decrease resulted from the higher interest income from cash held in Q3 and Q4 2023, offsetting the cost of issued debt.

Results from equity investments amounted to €83.1 million in 2023, resulting from the €41.6 million tax-exempted non-underlying capital gain in relation to the disposal of Euronext's stake in LCH SA and the €11.4 million tax-exempted capital gain in relation to the disposal from Euronext's investment in Tokeny, as well as the dividend received from Euroclear and Sicovam. In 2022, Euronext reported €18.7 million in results from equity investments, reflecting the dividend received from Euroclear and the contribution from LCH SA.

Income tax for 2023 was €162.7 million. This translated into an effective tax rate of 23.3% for 2023, positively impacted by the tax-exempted capital gains recorded in Q3 and Q4 2023 (2022: €163.6 million and 26.6% respectively).

Share of non-controlling interests mainly relating to the Borsa Italiana Group and Nord Pool amounted to €22.8 million in 2023.

As a result, the reported net income, share of the parent company shareholders, increased by +17.3% for 2023 compared to 2022, to €513.6 million. This represents a reported EPS of €4.84 basic and €4.83 diluted in 2023, compared to €4.10 basic and €4.10 diluted in 2022. This increase reflects the strong results and a lower number of shares over 2023 compared to 2022.

Adjusted net income, share of the parent company shareholders was up +5.3% to €584.7 million. Adjusted EPS (basic) was up +5.9% in 2023, at €5.51 per share, compared to an adjusted EPS (basic) of €5.21 per share in 2022. This increase reflects Euronext's strong performance and a lower number of outstanding shares over 2023 due to Euronext's share repurchase programme.

The weighted number of shares used over 2023 was 106,051,799 for the basic calculation and 106,376,338 for the diluted calculation, compared to 106,669,451 and 106,901,306 respectively over 2022.

In 2023, Euronext reported a net cash flow from operating activities of €826.1 million, compared to €616.5 million in 2022, resulting from higher profit before tax, lower income tax and positive changes in working capital. Excluding the impact on working capital from Euronext Clearing and Nord Pool CCP activities, net cash flow from operating activities accounted for 90.9% of EBITDA in 2023.

Over the year, Euronext's market share on cash equity trading averaged 65.1%, well above the indicated floor of at least 63%. Euronext average cash trading yield was 0.52 bps for the whole year, in line with the guidance despite the dilutive impact of Borsa Italiana's fee scheme prior to the Optiq® migration on 27 March 2023. #### Q4 2023 revenue and income

In Q4 2023, Euronext's revenue and income amounted to  $\leqslant$ 374.1 million, up +7.8% compared to Q4 2022, driven by record performance in fixed income trading, robust results in non-volume related businesses and the positive contribution of the Euronext Clearing European expansion at the end of November 2023.

On a like-for-like basis and at constant currencies, Euronext revenue and income was up +9.1% in Q4 2023 compared to Q4 2022, to  $\in$ 373.7 million.

Non-volume related revenue accounted for 60% of Group revenue in Q4 2023, stable compared to Q4 2022, reflecting continued strong performance of non-volume-related revenue and strong growth in fixed income trading and volume-related clearing activity. The underlying operating expenses excluding D&A coverage by non-volume related revenue ratio was at 141% in Q4 2023, compared to 130% in Q4 2022.

## Q4 2023 adjusted EBITDA

Underlying operational expenses excluding depreciation and amortisation decreased by -0.9% to  $\le$ 157.8 million, reflecting cost discipline in an inflationary environment, the positive impact from the NOK depreciation over the year and a one-off accruals release of  $\le$ 6.3 million. On a like-for-like basis,

 $<sup>^{\</sup>mathrm{1}}$  For the total adjustments performed please refer to the Appendix of this press release.

underlying operational expenses excluding depreciation and amortisation increased by +1.9% compared to Q4 2022, reflecting mainly the NOK impact.

Net financing income for Q4 2023 was  $\le$ 4.7 million, compared to a net financing expense of  $\le$ 6.0 million in Q4 2022. This decrease results from higher interest income due to higher interest rates, offsetting the cost of debt.

Results from equity investments amounted to  $\le$ 17.0 million in Q4 2023, representing the capital gain related to the disposal of the stake in Tokeny and the dividend received from Sicovam. As a reminder, in Q4 2022, Euronext reported  $\le$ 12.6 million in results from equity investments, reflecting a dividend payment by Euroclear and the contribution from LCH SA.

Income tax for Q4 2023 was €40.0 million. This translated into an effective tax rate of 22.6% for the quarter, reflecting the positive impact of the tax-exempted one-off capital gain from the disposal of the Tokeny stake (Q4 2022: €38.5 million and 27.3% respectively).

Share of non-controlling interests mainly relating to the Borsa Italiana Group and Nord Pool amounted to €6.4 million in Q4 2023.

As a result, the reported net income, share of the parent company shareholders, increased by +31.5% for Q4 2023 compared to Q4 2022, to €130.6 million. This represents a reported EPS of €1.25 basic and €1.24 diluted in Q4 2023, compared to €0.93 basic and €0.93 diluted in Q4 2022. Adjusted net income, share of the parent company shareholders was up +25.3% to €148.2 million. Adjusted EPS (basic) was up +27.9% in Q4 2023, at €1.42 per share, compared to an adjusted EPS (basic) of €1.11 per share in Q4 2022. This increase reflects higher profit and a lower number of outstanding shares over the fourth quarter of 2023 compared to the fourth quarter of 2022.

The weighted number of shares used over 2023 was 106,051,799 for the basic calculation and 106,376,338 for the diluted calculation, compared to 106,669,451 and 106,901,306 respectively over 2022.

In Q4 2023, Euronext reported a net cash flow from operating activities of €194.5 million, compared to a negative cash flow of €147.1 million in Q4 2022, reflecting lower negative changes in working capital from short-term movement in outstanding power sales customers' and suppliers' invoices related to Nord Pool CCP activities. Excluding the impact on working capital from Euronext Clearing and Nord Pool CCP activities, net cash flow from operating activities accounted for 87.4% of EBITDA in Q4 2023.

#### Adjustments in financial disclosure

To highlight its underlying performance, since Q1 2023 Euronext has published underlying recurring costs, adjusted EBITDA and non-recurring costs.

Euronext has removed the exceptional items line from its financial statements. Consequently, costs previously reported as exceptional items have from Q1 2023 been included in their respective lines within Euronext operating expenses as non-recurring items.

The €150 million of implementation costs to deliver on the 'Growth for Impact 2024' strategic plan targets are therefore considered as non-recurring items and have been withdrawn from the underlying recurring costs.

The computation of adjusted net income and earnings per share has been adjusted accordingly. The computation of reported net income and earnings per share is not impacted.

2024 strategic plan targets remain unchanged and are not affected by this change in reporting.

The new non-IFRS indicators are defined below.

#### **Non-IFRS financial measures**

For comparative purposes, the company provides unaudited non-IFRS measures including:

- Operational expenses excluding depreciation and amortisation, underlying operational expenses excluding depreciation and amortisation;
- EBITDA, EBITDA margin, adjusted EBITDA, adjusted EBITDA margin.

Non-IFRS measures are defined as follows:

- Operational expenses excluding depreciation and amortisation as the total of salary and employee benefits, and other operational expenses;
- Underlying operational expenses excluding depreciation and amortisation as the total of salary and employee benefits, and other operational expenses, excluding non-recurring costs;
- Underlying revenue and income as the total of revenue and income, excluding non-recurring revenue and income;
- Non-underlying items as items of revenue, income and expense that are material by their size and/or that are infrequent and unusual by their nature or incidence are not considered to be recurring in the normal course of business and are classified as non-underlying items on the face of the income statement within their relevant category in order to provide further understanding of the ongoing sustainable performance of the Group. These items can include:
  - integration or double run costs of significant projects, restructuring costs and costs related to acquisitions that change the perimeter of the Group;
  - one-off finance costs, gains or losses on sale of subsidiaries and impairments of investments:
  - amortisation and impairment of intangible assets which are recognised as a result of acquisitions and mostly comprising customer relationships, brand names and software that were identified during purchase price allocation (PPA);
  - o tax related to non-underlying items.
- Adjusted operating profit as the operating profit adjusted for any non-underlying revenue and income and non-underlying costs, including PPA of acquired businesses;
