

ATLANTIC PETROLEUM

P/F ATLANTIC PETROLEUM

CONDENSED CONSOLIDATED INTERIM REPORT

FOR THE 6 MONTHS ENDED 30th JUNE 2024

LOOKING FORWARD

Production rates for 2023 were 3,500 – 4,000 barrels of oil per day which was in line with Atlantic Petroleum's expectations. This provided the company with steady cashflow throughout the year, and the last payment relating to a UK abandonment liability was paid in February 2024.

Atlantic Petroleum receives a 2% revenue share in deferred consideration from the Orlando field production up to the first 5MM barrels of Orlando production. Thereafter the deferred consideration increases to 4.35% of the sales proceeds. The deferred consideration receivable is now valued at DKK 24.7MM.

The expectation is that the Orlando field will continue to produce at stable rates in 2024.

However, looking at the production profile of Orlando and the current reserves estimates, it is unlikely that the Orlando revenue share can cover the total debt of the company and this in turn will make it very difficult to raise any additional funds to grow the company.

The Board has commenced negotiations with the creditors on an agreement reducing the overall debt significantly. Unless this is achieved it is unlikely that the company can continue as a going concern. The board has set a deadline for achieving a debt solution during the course of 2024 and will update the market accordingly.

For this reason, the accounts have been prepared on a Going Concern basis.

In the event that no debt solution is achieved in 2024, and the Group is therefore unable to continue as a going concern, downward adjustments would be required to the fair value of the Group's economic interest in the Orlando asset to present the value of the asset on a break up basis.

HIGHLIGHTS & OUTLOOK

HIGHLIGHTS FOR H1 2024 WERE:

G&A cost was DKK 1.4MM

Operating profit was DKK 4.3MM

Net profit was DKK 2.5MM

Net assets/share-holders equity was DKK -112.5MM

Bank debt was DKK 59.4MM

The Board will prioritise a solution to the company debt. Pending a debt solution, the Group will be actively pursuing growth through participation in production or near production assets in low political risk countries in the Northern Hemisphere.

NOTES TO THE ACCOUNTS

1. Going Concern

It was advised on the 22nd of March 2019 that LOG, the group's main lender, had entered into administration and would not advance further funds under the facility agreement. The terms of the LOG facility restrict the Group from seeking alternate funding means, however these restrictions were lifted by LOG's administrators. Atlantic Petroleum secured a bridging loan of DKK 7.5MM in March 2022, and repayments commenced during 2023, continuing during 2024. Repayments of the LOG facility commenced in 2023, continuing during 2024.

The projected royalty receipts are forecast to be insufficient to meet the Group's liabilities in full. Accordingly, the Board is of the opinion that a debt restructuring is necessary to address the deficiency in shareholders' funds. Discussions have taken place over several year, however, no agreement has been reached, and there is no certainty that a debt restructuring can be achieved.

Repayments to the company's creditors continue during 2024, however, there are no formal agreements in place to restructure the debt and revise the terms of the original Agreements. Dialogue with LOG and Betri Banki is ongoing and although the outcome is uncertain, the Directors believe that there remains a possibility that the debt can be restructured to enable the company to meet its liabilities. For this reason, and given the continuing repayment of liabilities, forecast to continue during 2024 based on continuing royalty receipts, the accounts have been prepared on a going concern basis.

Accordingly, there is material uncertainty regarding the going concern status of the Group. The ability of the Group to continue as a going concern is dependent on a debt restructuring, and ongoing production from the Orlando field.

In the event that a debt restructuring cannot be agreed, and the Group is unable to continue to trade, significant downward adjustments would be required to the fair value of the Group's economic interest in the Orlando asset to present the value of the asset on a break-up basis.

2. GENERAL INFORMATION

14. Trade and other receivables

All trade and other receivables are due within one year except for the Orlando deferred consideration DKK 24.7MM.

The carrying values of the trade and other receivables are equal to their fair value as at the balance sheet date.

Under the Sale and Purchase Agreement regarding Orlando, APNS is due to receive deferred considerations equalling 2% of the sale proceeds from the first 5,000,000 barrels of Orlando petroleum and an amount equalling 4.35% of the Orlando petroleum in excess of the first 5,000,000 barrels.

The deferred consideration receivable on the Orlando field is currently valued at DKK 24.7MM.

Reserves are based on the information disclosed by the Operator of the Orlando field in April 2024, which disclose reserves at 1st January 2024.

Based on this, the reserves remaining at 1st January 2024 are estimated to be 2.4 MMBbl.

Production rates are based on a 21% decline profile with initial production at 10,000 bopd, however as a result of issues with the upper completion, peak rates have been restricted to around 5,000 bopd. A workover has been carried out in the third quarter of 2022. Production has recommenced in Q3 2022. Production rates are expected to be 2,800 – 3,000 bopd for the remainder of the year.

The valuation is therefore based on a production of 3,000 bopd with a declining production profile.

Oil price is based on Brent crude futures.

Exchange rates are based on exchange rates at 30th June 2024.

15. Trade and other payables

All trade and other payables are due within one year except for the bridge loan (DKK 7,23MM).
