

PRESS RELEASE 14 NOVEMBER 2019

Italeaf: the digital company Softeco (TerniEnergia Group) participates in the InGE - Innovative solutions for Intermodal Node "Genoa Erzelli" project

TerniEnergia, a smart company listed on the Italian Stock Exchange's electronic share market (MTA) and part of the **Italeaf** Group, communicates that the digital company Softeco Sismat is a partner of the InGE project, coordinated by the City of Genoa and funded by the measure CEF - Connecting Europe Facility 2014-2020 aimed at promoting growth and competitiveness through infrastructure investments at European level.

The project received a contribution of approximately Euro 0.7 million, entirely financed by the European Union. The EU loan granted to Softeco amounts to Euro 0.2 million. The objective of the project is the study and analysis of the ICT support structures for the realization of the intermodal node of Genoa Erzelli.

In particular, Softeco is involved in the analysis of innovative ICT services for intermodal transport to and from the Erzelli node, through the identification of appropriate MaaS (Mobility-as-a-Service) solutions.

The identification of technological solutions and ICT services aims to put the user at the centre of transport services, offering mobility solutions tailored to individual needs, simplifying access and use and connecting different transport systems. Other project partners are the Municipality of Genoa, the University of Genoa and the International Institute of Communications (IIC).

TERNIENERGIA (TER. MI), established in September 2005 and part of the Italeaf Group, is the first Italian global technological enabler, committed to bringing energy solutions and efficient recovery of integrated and sustainable resources to the world. Organized into two strategic business lines (Assets and Smart solutions and services), with about 300 employees and a geographical presence worldwide, with operative and commercial offices, TerniEnergia develops innovative solutions, products and services based on digital and industrial technologies for the energy supply chain, grids, smart mobility, industrial automation and the recovery of marginal resources. TerniEnergia, also through its subsidiaries (Softeco Sismat, Greenled Industry, GreenAsm, GreenAsm, Purify, Wisave, Ant Energy), pursues the objectives of increasing energy production from renewable sources, saving energy and reducing emissions and actively participates in the energy revolution of distributed power generation and smart grids, with innovative digital solutions. TerniEnergia is the ideal partner for large utilities, distribution operators and network operators, energy producers, public administrations, industrial customers and investors who intend to realize large projects for the production of renewable energy, modern systems and plants with high energy efficiency, solutions for the management and maintenance of infrastructure and electrical installations. TerniEnergia has completed its transformation from a leader in the international photovoltaic market into a smart energy company and technological enabler for the sustainable use of resources through a complete commercial offer of solutions, the development and supply of digital technologies and the creation of "intelligent" services and solutions aimed at public and private customers in emerging sectors.

TerniEnergia is listed on the MTA of Borsa Italiana.
