SNAIGĖ, AB company code 249664610, Pramonės str. 6, Alytus Lithuania
CONSOLIDATED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS PERIOD ENDED 31 MARCH 2021
(All amounts are in EUR thousand unless otherwise stated)

III. EXPLANATORY NOTES

1. Basic information

Snaigė, AB (hereinafter the “Company”) is a public company registered in the Republic of Lithuania. The address of its registered office is as follows:

Pramonės str. 6,
Alytus,
Lithuania.

The Company is engaged in producing refrigerators and refrigerating equipment. The Company was registered on 1 April 1963. The Company’s shares are traded on the Baltic Secondary List of the NASDAQ Vilnius stock exchange.

Main shareholders of Snaigė, AB were:

	31 March 2021		31 December 2020	
	Number of shares owned	Share of total capital, %	Number of shares owned	Share of total capital, %
Sekenora Holdings Limited	36,096,193*	91.10%	36,096,193*	91.10%
Other shareholders	3,526,202	8.90%	3,526,202	8.90%
Total	39,622,395	100%	39,622,395	100%

*Out of this amount Sekenora Holdings Limited collateralized 4,584,408 shares to the bank in accordance with collateral agreement to ensure financial Snaigė, AB liabilities (31 December 2020 – 4,584,408).

All shares of the Company are ordinary registered intangible shares with the par value of EUR 0.17 each and were fully paid as at 31 March 2021 and 31 December 2020.

As at 31 March 2021 and 31 December 2020 the Company did not hold its own shares.

The Group consisted of Snaigė, AB and the followings subsidiaries as at 31 March 2021 (hereinafter – the “Group”):

Company	Country	Percentage of the shares held by the Group	Profit (loss) for the reporting year	Shareholders’ equity
Snaige-Ukraina, TOB	Ukraine	99%	(1)	2
Almecha, UAB	Lithuania	100%	(29)	90

As at 31 March 2021, same as at 31 December 2020, the Board of the Company consist of 5 members. The board does not have Snaigė, AB representatives.

Snaige-Ukraina, TOB (Kiev, Ukraine) was established in 2002. Since the acquisition in 2002, the Company holds 99% shares of this subsidiary. The subsidiary provides sales and marketing services in the Ukrainian market.

Almecha, UAB (Alytus, Lithuania) was established in 2006. The main activities of the company are production of refrigerating components and equipment. The Company acquired 100% of the Company’s shares.

At 31 March 2021 the number of employees of the Group was 548 (as at 31 December 2020 – 528).

2. Accounting principles

The principal accounting policies adopted in preparing the Group's financial statements are as follows:

2.1. Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs), as adopted by the European Union (hereinafter the "EU").

These financial statements are prepared on the historical cost basis.

2.2. Going concern

These financial statements for the 31 March 2021 have been prepared based on the assumption that the Group will be able to continue as a going concern for at least 12 months. The going concern is based on the following assumptions:

- In order to finance working capital, the Company plans successful sales of finished products and to continue cooperation only with reliable partners. Debts to suppliers are planned to be reduced from free circulating funds.
- The Board of the Company approved the investment plan for 2020-2021 according to which investments in new products and new production directions are planned, as well as for the renewal of other areas of activity. This will allow reviving sales and successfully expanding the Company's operation. Despite the impact of the COVID pandemic, the Investment Plan is being implemented without major adjustments.
- An agreement has been reached with UniCredit Bank on the extension of the loan for two years. Such an agreement will eliminate the threat to the continuity of the Company's and the Group's operations.
- In the opinion of the Company and the Group's management, the impact of the pandemic caused by COVID-19 will not have a material impact on the going concern, although it is likely to have a negative impact on the Company's and the Group's results. If the pandemic lasts longer than expected, the Company's and the Group's management expects adequate necessary state support to ensure business continuity.

The management of the Company agrees that all those assumptions above could be influenced of significant uncertainties, which could raise doubts about Company's ability to continue operating, because of the disability to realize its property and to implement its commitments by carrying out its normal activities. However, despite all this the Company's management expects that the Company will have enough resources to continue operating in the near future. Therefore, the Group has continued to adopt the going concern basis of accounting in preparing these financial statements.

2.3. Presentation currency

The Group's financial statements are presented in the currency of the European Union, the euro (EUR), which is the Company's functional and the Group's and the Company's presentation currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Transactions in foreign currencies are initially recorded at the foreign currency exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at the statement of financial position date. All differences are included in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as of the date of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign entity and translated at the rate of exchange ruling at the statement of financial position date.

The functional currency of a foreign entity Snaige-Ukraina, TOB is Ukrainian hryvnia (UAH). As at the reporting date, the assets and liabilities of this subsidiary are / were translated into the presentation currency of Snaigė, AB (EUR) at the rate of exchange at the statement of financial position date and their items of the statement of profit or loss and other comprehensive income are translated at the average monthly exchange rates for the reporting period. The exchange differences arising on the translation are stated in other comprehensive income.

On disposal of a foreign entity, the deferred cumulative amount recognised in the shareholders' equity caption relating to that particular foreign operation is transferred to profit or loss.

The applicable exchange rates in relation to euro as at the 31 March 2021, and 31 December 2020, were as follows:

	31 March 2021	31 December 2020
UAH	32.67907	34.8001
USD	1.1741	1.2281

2.4. Principles of consolidation

The consolidated financial statements of the Group include Snaigė, AB and its subsidiaries. The financial statements of the subsidiaries are prepared for the same reporting year, using consistent accounting policies.

Subsidiaries are consolidated from the date from which effective control is transferred to the Company and cease to be consolidated from the date on which control is transferred out of the Group. All intercompany transactions, balances and unrealised gains and losses on transactions among the Group companies have been eliminated. The equity and net result attributable to non-controlling interest are shown separately in the statement of financial position and profit or loss.

Acquisitions and disposals of non-controlling interest by the Group are accounted as equity transaction: the difference between the carrying value of the net assets acquired from/disposed to the non-controlling interests in the Group's financial statements and the acquisition price/proceeds from disposal is accounted directly in equity.

2.5. Intangible assets, except for goodwill

Intangible assets are measured initially at cost. Intangible assets are recognised if it is probable that future economic benefits that are attributable to the asset will flow to the Group and the Company and the cost of asset can be measured reliably. After initial recognition, intangible assets are measured at cost less accumulated amortisation and any accumulated impairment losses. Intangible assets are amortised on a straight-line basis over their estimated useful lives (1–8 years).

Research and development

Research costs are expensed as incurred. Development expenditure on individual projects is recognised as an intangible asset when the Group and the Company can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, their intention to complete and their ability to use or sell the asset so that the asset will generate future economic benefits, the availability of resources to complete the asset and the ability to measure reliably the expenditure during development.

Following initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use.

Licences

Amounts paid for licences are capitalised and amortised over their validity period.

Software

The costs of acquisition of new software are capitalised and treated as an intangible asset if these costs are not an integral part of the related hardware. Software is amortised over a period not exceeding 3 years.

Costs incurred in order to restore or maintain the future economic benefits that the Group and the Company expect from the originally assessed standard of performance of existing software systems are recognised as an expense when the restoration or maintenance work is carried out.

2.6. Tangible non-current assets

Property, plant and equipment are assets that are controlled by the Group and the Company, which are expected to generate economic benefits in the future periods with the useful life exceeding one year, and which acquisition (manufacturing) costs could be reliably measured. Property, plant and equipment are stated at cost, excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment losses. Such cost includes the cost of replacing part of such assets when that cost is incurred if the asset recognition criteria are met. Replaced parts are written off.

Subsequent costs are included in the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying

amount of the replaced part is derecognised. All other repairs and maintenance are charged to the profit or loss during the financial period in which they are incurred.

Property, plant and equipment are shown at revalued amount, being the fair value at the date of the revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluations are made with sufficient regularity such that the carrying amount does not differ materially from that which is determined using fair value at the date of statement of financial position. The fair value of the property, plant and equipment is determined by appraisals undertaken by certified independent valuers. Any accumulated depreciation and impairment losses at the date of revaluation were eliminated against the gross carrying amount of the asset; instead the historical acquisition cost was increased by the surplus of the revaluation.

Increases in the carrying amount arising on revaluation of property, plant and equipment are credited to other comprehensive income and shown as revaluation reserve in shareholders' equity. The revaluation reserve for property, plant and equipment is being reduced each period by the difference between depreciation based on the revalued carrying amount of the asset and that based on its original cost, which is transferred directly to retained earnings.

The carrying amounts of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying amount may not be recoverable. Decreases that offset previous increases of the same asset are charged to other comprehensive income and debited against revaluation reserve in equity; all other decreases are charged to the profit or loss. Revaluation increases that offset previous decreases charged to the profit or loss are recognised in the profit or loss.

Each year the difference between depreciation based on the revalued carrying amount of the asset charged to the profit or loss, and depreciation based on the asset's original cost is transferred from revaluation reserve to retained earnings net of deferred income tax.

Depreciation is computed on a straight-line basis over the following estimated useful lives from 1 October 2016:

Buildings and structures (including investment property)	15 – 73 years
Machinery and equipment	5 – 63 years
Vehicles	4 – 20 years
Other property, plant and equipment	3 – 30 years

Weighted average useful lives from 1 October 2016 are as follows:

Buildings and structures (including investment property)	55 years
Machinery and equipment	21 years
Vehicles	16 years
Other property, plant and equipment	12 years

The asset's carrying amounts, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year end.

Gains and losses on disposal are determined by comparing the proceeds with the carrying amount of property, plant and equipment and are recognised within other income or other expenses in the statement of comprehensive income. When revalued assets are sold, the amounts included in revaluation reserve are transferred to retained earnings.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of comprehensive income in the year the asset is derecognised.

Construction in progress is stated at cost less accumulated impairment. This includes the cost of construction, plant and equipment and other directly attributable costs. Construction in progress is not depreciated until the relevant assets are completed and put into operation.

2.7. Non-current assets held for sale

Non-current assets classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell. Non-current assets are classified as held for sale if their carrying amounts will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition. Property, plant and equipment once classified as held for sale are not depreciated.

If the Group has classified an asset as held for sale, but the above mentioned criteria are no longer met, the Group ceases to classify the asset as held for sale and measure a non-current asset that ceases to be classified as held for sale at the lower of: its carrying amount before the asset was classified as held for sale, adjusted for any depreciation,

amortisation or revaluations that would have been recognised had the asset not been classified as held for sale, and its recoverable amount at the date of the subsequent decision not to sell. The adjustment to the carrying amount of a non-current asset that ceases to be classified as held for sale and recorded in profit or loss in the period in which the criteria are no longer met.

2.8. Inventories

Inventories are valued at the lower of cost or net realisable value, after write-down of obsolete and slow moving items. Net realisable value is the selling price in the ordinary course of business, less the costs of completion, marketing and distribution. Cost is determined by the first-in, first-out (FIFO) method. The cost of finished goods and work in progress includes the applicable allocation of fixed and variable overhead costs based on a normal operating capacity. Unrealisable inventory is fully written-off.

2.9. Receivables and loans granted

Receivables are initially recorded at the true value at the same moment as they were given. Later receivables and loans are accounted in justice to their depreciation.

2.10. Cash and cash equivalents

Cash includes cash on hand and cash with banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less and that are subject to an insignificant risk of change in value.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits at current accounts, and other short-term highly liquid investments.

2.11. Borrowings

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised, otherwise – expensed as incurred. No borrowing costs were capitalised as at 31 March 2021 and 31 December 2020.

Borrowings are initially recognised at fair value of proceeds received, net of expenses incurred. They are subsequently carried at amortised cost, the difference between net proceeds and redemption value being recognised in the net profit or loss over the period of the borrowings (except for the capitalised portion as discussed above).

Borrowings are classified as non-current if the completion of a refinancing agreement before the balance sheet date provides evidence that the substance of the liability at the balance sheet date was non-current.

2.12. Derivative financial instruments

Derivative financial instruments are initially recognised at fair value on the date the derivative contract is entered into. Subsequent to initial recognition and measurement, outstanding derivatives are carried in the statement of financial position at the fair value. Fair value is determined using the discounted cash flow method applying the effective interest rate. The estimated fair values of these contracts are reported on a gross basis as financial assets for contracts having a positive fair value; and financial liabilities for contracts with a negative fair value. Contracts executed with the same counterparty under legally enforceable master netting agreements are presented on a net basis. The Group had no derivative contracts outstanding as at 31 March 2021 and 31 December 2020.

Gain or loss from changes in the fair value of outstanding derivative contracts is recognised in the comprehensive income statement as they arise.

2.13. Factoring

Factoring transaction is a funding transaction wherein the Group transfers to factor claim rights for determined fee. The Group alienate rights to receivables due at a future date according to invoices.

2.14. Financial lease and operating lease

Finance lease – the Group as lessee

The Group recognises finance leases as assets and liabilities in the statement of financial position at amounts equal at the inception of the lease to the fair value of the leased property or, if lower, to the present value of the minimum lease payments. The rate of discount used when calculating the present value of minimum payments of finance lease is the nominal interest rate of finance lease payment, when it is possible to determine it, in other cases, Group's composite interest rate on borrowings is applied. Directly attributable initial costs are included into the asset value. Lease payments

are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability.

Direct expenses incurred by the lessee during the lease period are included in the value of the leased asset.

The depreciation is accounted for finance lease assets and it also gives rise to financial expenses in the statement of comprehensive income for each accounting period. The depreciation policy for leased assets is consistent with that for depreciable assets that are owned. The leased assets cannot be depreciated over the period longer than the lease term, unless the Group according to the lease contract, gets transferred their ownership after the lease term is over.

If the result of sales and lease back transactions is finance lease, any profit from sales exceeding the book value is not recognised as income immediately. It is deferred and amortised over the finance lease term.

Operating lease – the Group as lessee

Leases where the lessor retains all the risk and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognised as an expense in the statement of comprehensive income on a straight-line basis over the lease term.

If the result of sales and lease back transactions is operating lease and it is obvious that the transaction has been carried out at fair value, any profit or loss is recognised immediately. If the sales price is lower than the fair value, any loss is recognised immediately, except for the cases when the loss is compensated by lower than market prices for lease payments in the future. The loss is then deferred and it is amortised in proportion to the lease payments over a period, during which the assets are expected to be operated. If the sales price exceeds the fair value, a deferral is made for the amount by which the fair value is exceeded and it is amortised over a period, during which the assets are expected to be operated.

2.15. Grants and subsidies

Grants and subsidies (hereinafter "Grants") received in the form of non-current assets or intended for the purchase, construction or other acquisition of non-current assets are considered as asset-related grants (mainly received from the EU and other structural funds). Assets received free of charge are also allocated to this group of grants. The amount of the grants related to assets is recognised in the financial statements as used in parts according to the depreciation of the assets associated with this grant. In the statement of comprehensive income, a relevant expense account is reduced by the amount of grant amortisation.

Grants received as a compensation for the expenses or unearned income of the current or previous reporting period, also, all the grants, which are not grants related to assets, are considered as grants related to income (mainly received from the EU and other structural funds). The income-related grants are recognised as used in parts to the extent of the expenses incurred during the reporting period or unearned income to be compensated by that grant.

2.16. Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The provisions are reviewed at each balance sheet date and adjusted in order to present the most reasonable current estimate.

2.17. Non-current employee benefits

According to the collective agreement, each employee leaving the Company at the retirement age is entitled to a one-time payment. Employment benefits are recognised in the statement of financial position and reflect the present value of future payments at the date of the statement of financial position. The above mentioned employment benefit obligation is calculated based on actuarial assumptions, using the projected unit credit method. Present value of the non-current obligation to employees is determined by discounting estimated future cash flows using the discount rate which reflects the interest rate of the Government bonds of the same currency and similar maturity as the employment benefits. Actuarial gains and losses are recognised in the statement of comprehensive income as incurred.

2.18. Revenue recognition

Revenue is recognised when it is probable that the economic benefits associated with the transaction will flow to the Group and the amount of the revenue can be measured reliably. Sales are recognised net of VAT and discounts.

Revenue from sales of goods is recognised when delivery has taken place and transfer of risks and rewards has been completed.

Revenue from services is recognized on accrual basis when services are rendered and are stated in the statement of comprehensive income.

In these consolidated financial statements intercompany sales are eliminated.

2.19. Impairment of assets

Financial assets

Financial assets are reviewed for impairment at each reporting date.

For financial assets carried at amortised cost, whenever it is probable that the Group will not collect all amounts due according to the contractual terms of loans or receivables, impairment is recognised in the statement of comprehensive income. The reversal of impairment losses previously recognised is recorded when the decrease in impairment loss can be justified by an event occurring after the write-down. Such reversal is recorded in the statement of comprehensive income. However, the increased carrying amount is only recognised to the extent it does not exceed the amortised cost that would have been had the impairment not been recognised.

Other assets

Other assets are reviewed for impairment whenever events or changes in circumstances indicate that carrying amount of an asset may not be recoverable. Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognised in the statement of comprehensive income. Reversal of impairment losses recognised in prior years is recorded when there is an indication that the impairment losses recognised for the asset no longer exist or have decreased. The reversal is accounted for in the same caption of the statement of comprehensive income as the impairment loss.

2.20. Subsequent events

Subsequent events that provide additional information about the Group's position at the date of the statement of financial position (adjusting events) are reflected in the financial statements. Subsequent events that are not adjusting events are disclosed in the notes when material.

2.21. Offsetting and comparative figures

When preparing the financial statements, assets and liabilities, as well as revenue and expenses are not set off, except the cases when a certain International Financial Reporting Standard specifically requires such set-off.

3. Segment information

The Group's sole business segment identified for the management purposes is the production of refrigerators and specialised equipment, therefore this note does not include any disclosures on operating segments as they are the same as information provided by the Group in these financial statements.

Information as at 31-03-2021 and at 31-03-2020 on Group's sales and receivables from clients is presented below:

	Total sales revenue		Inter-group sales		Sales revenue

	31-03-2021	31-12-2020
Development costs	1,207	1,279
Software, license	6	8
Other intangible assets	325	250
Total:	1,538	1,537

The Group during the first quarter in 2021 has accumulated EUR 74 thousand (on 2020 respectively – EUR 80 thousand) of intangible assets depreciation of which EUR 74 thousand (EUR 80 thousand in 2020) is included in operating expenses of the profit (loss) statement.

Part of non-current intangible assets of the Group with the acquisition value of EUR 4,842 thousand as at 31 March 2021, was fully amortised (EUR 4,840 thousand for 2020) but is still in use.

11. Non-current tangible assets

	Balance sheet value	
	31-03-2021	31-12-2020
Land and buildings	5,406	5,463
Machinery and equipment	6,585	6,923
Vehicles and other property	64	72
Other equipment, fittings and tools	969	1,025
Construction in progress and prepayments	290	170
Vehicles used on a leasing basis	29	34
Right to land lease	104	104
Total:	13,447	13,791

Starting from 30 September 2016 and the Company decided to revalue the non-current assets, including buildings, structures, machinery and equipment as well as other production equipment. The valuation of non-current assets for financial reporting purposes has been carried out by external, independent valuator, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued. The valuation of real estate was based on the comparable method by comparing sales prices of similar real estate in Lithuania. The valuation of machinery and equipment and other non-current assets was based on comparable or depreciated replacement cost (DRC) methods.

SNAIGĖ, AB company code 249664610, Pramonės str. 6, Alytus Lithuania
CONSOLIDATED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS PERIOD ENDED 31 MARCH 2021
(All amounts are in EUR thousand unless otherwise stated)

Building and structures were attributed to Level 3 of fair value hierarchy. Under the Market method the sale transactions or offer examples in respect of the real estate and constructions were observed in the market. The comparable real estate objects were selected due to the similarity with the object being measured with respect to size, nature, location, intended use, condition and other parameters. The valuation of real estate required adjustments to reflect differences between the objects being measured and comparable objects.

Machinery and equipment, vehicles and other assets were also attributed to Level 3 of fair value hierarchy. Part of the machinery was valued based on at least two or three comparable inputs. Comparable inputs selected were similar to the assets subject to valuation. This method was used for the measurement of a part of equipment in respect of which sale or offer market data was available. The remaining part of machinery and equipment were valued by DRC method. The replacement values of these non-current assets were based on their acquisition costs and comparable price changes provided by the Statistics Department. When establishing physical obsolescence, it is assumed that the value of property being measured is written off in proportion to the number of years. The assets subject to valuation were classified into categories in respect of which the useful life up to 20 years depending on the group of asset was established based on the expert opinion of the valuator.

The estimated fair value of the buildings and structures amounted to EUR 5,975 thousand and the value of machinery and equipment, vehicles and other assets amounted to EUR 10,919 thousand as at 30 September 2018 based on the comparable, depreciated replacement cost (DRC) and income methods.

Assets were valued under this scheme:

1. All Company long term assets were valued using discounted cash flows model.
2. From this value, intangible assets at balance value and buildings at market value were taken off.
3. Other movable assets were valued using comparison method, while special movable assets and other assets, not possible to value at comparison model, were valued at DRC model. Some assets, not possible to value by methods described above, were valued at disposal rate.
4. The remaining value was allocated to all valued items, by using correction coefficients. Only assets, valued by DRC and disposal methods, were corrected using coefficients.

The increase in value of non-current tangible assets was registered by increasing the acquisition cost of the asset and was accounted as follows as at 30 September 2018:

The Company	Book value	Revalued amounts	Revaluation surplus
Buildings and structures	5,404	5,975	571
Machinery and equipment	8,089	9,160	1,071
Vehicles and other assets	1,435	1,759	324
Total	14,928	16,894	1,966

The increase in value of non-current tangible assets was registered by increasing the acquisition cost of the asset and was accounted as follows as at 30 September 2017:

The Company	Book value	Revalued amounts	Revaluation surplus
Buildings and structures	5,229	5,610	381
Machinery and equipment	8,959	8,983	24
Vehicles and other assets	1,605	1,627	22
Total	15,793	16,220	427

SNAIGĖ, AB company code 249664610, Pramonės str. 6, Alytus Lithuania
CONSOLIDATED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS PERIOD ENDED 31 MARCH 2021
(All amounts are in EUR thousand unless otherwise stated)

The useful life terms of Non-current material assets, in years:

	Statistical	Remaining useful life terms at the revaluation date	Remaining useful life terms, stated after revaluation
Land and buildings	49	22	26
Machinery and equipment	6	1	8
Vehicles	6	1	4
Other plant, devices, tools and equipment	5	0.5	5
Other tangible assets	5	0.5	8

The new useful lifetimes for assessing depreciation have been applied since 1 October 2016.

The depreciation charge of the Group's property, plant and equipment and investment property for the period of three months of 2021 amounts to EUR 425 thousand (EUR 447 thousand respectively for the same period of 2020). After the assessment of amortization of grants, the amount of EUR 401 thousand for 2021 (EUR 424 thousand for 2020) was included into production costs. The remaining amount of EUR 24 thousand (EUR 23 thousand for 2020) was included into administration expenses in the Group's profit or loss.

As at 31 March 2021 buildings of the Group and the Company with the carrying amount of EUR 5,278 thousand (as at 31 December 2020 – EUR 5,329 thousand respectively), the Group's and the Company's machinery and equipment with the carrying amount of EUR 5,391 thousand (as at 31 December 2020 – EUR 5,627 thousand respectively) were pledged to bank as a collateral for the loans (Note 21).

12. Non-current and current loans to related companies

	Group		Company	
	31 March 2021	31 December 2020	31 March 2021	31 December 2020
Loans granted	8,068	8,157	8,068	8,157
Interest calculated	2,262	2,288	2,262	2,288
Total receivables	10,330	10,445	10,330	10,445
Minus:				
Provisions for doubtful loans	(8,068)	(8,157)	(8,068)	(8,157)
Provisions for doubtful interest	(2,262)	(2,288)	(2,262)	(2,288)
Minus: total provisions	(10,330)	(10,445)	(10,330)	(10,445)
Net receivables	-	-	-	-

13. Inventories

	31-03-2021	31-12-2020
Raw materials, spare parts and production in progress	2,874	2,969
Finished goods	1,519	1,213
Goods purchased for resale	221	190
Minus: total provisions	(239)	(237)
Total inventories, net	4,375	4,135

Raw materials and spare parts consist of compressors, components, plastics, wires, metals and other materials used in the production.

As at 31 March 2021 and as at 31 December 2020, the Group and Company has no legal restrictions on inventories.

14. Trade receivables

	31-03-2021	31-12-2020
Receivables	6,346	5,225
Less: impairment allowance for doubtful receivables	(1,259)	(1,259)
	5,087	3,966

Trade receivables are non-interest bearing and are generally on 30 – 90 day's terms.

As at 31 March 2021 100% impairment was accounted trade receivables in gross values of EUR 1,259 thousand (as at 31 December 2020 – EUR 1,259 thousand). Change in impairment allowance for receivables was accounted for within administrative expenses. Impairment allowance for doubtful receivables is recognised due to receivables from not related customers.

In note 14 mentioned trade receivables from the Group in the amount of EUR 2,458 thousand (as at 31 December 2020 - EUR 2,227 thousand) were insured with credit insurance by Atradius Sweden Kreditförsäkring Lithuanian branch. Trade receivables from Ukraine, Moldova, Russia and other CIS countries are not insured.

Movements in the individually assessed impairment of trade receivables were as follows:

	31-03-2021	31-12-2020
Balance at the beginning of the period	(1,259)	(1,218)
Charge for the year	-	(101)
Write-offs of trade receivables	-	30
Effect of the change in foreign currency exchange rate	(1)	3
Amounts paid	1	27
Balance in the end of the period	(1,259)	(1,259)

The receivables are written-off when it becomes obvious that they will not be recovered.

As at 31 March 2021 the Group has factoring agreement with recourse, but there are no any restrictions on company assets according to this agreement.

15. Other current assets

	31-03-2021	31-12-2020
VAT receivable	243	105
Restricted cash	14	14
Other receivables	105	127
	362	246

Movements in the individually assessed impairment of other receivables were as follows:

	31-03-2021	31-12-2020
Balance at the beginning of the period	-	-
Charge for the year	-	-
Effect of the change in foreign currency exchange rate	-	-
Amounts paid	-	-
Write off	-	-
Balance in the end of the period	-	-

16. Cash and cash equivalents

	31-03-2021	31-12-2020
Cash at bank	123	302
Cash on hand	6	7
Cash in transit	1	-
	130	309

17. Share capital

According to the Law on Companies of the Republic of Lithuania the Company's total equity cannot be less than 1/2 of its share capital specified in the Company's by-laws. As at 31 March 2021 the Company was in compliance with this requirement.

18. Reserves

Legal reserve

The Company's legal reserve is compulsory under Lithuanian legislation. Annual transfers of not less than 5% of net profit are compulsory until the reserve reaches 10% of the share capital. As at 31 March 2021 the legal reserve was fully formed.

As of 31 March 2021 the legal reserve amounted to EUR 991 thousand.

Other reserves

Other reserves are formed based on the decision of the General Shareholders' Meeting for special purposes. All distributable reserves before distributing the profit are transferred to retained earnings and redistributed annually under a decision of the shareholders.

Foreign currency translation reserve

The foreign currency translation reserve is used for translation differences arising upon consolidation of the financial statements of foreign subsidiaries.

Exchange differences are classified as equity in the consolidated financial statements until the disposal of the investment. Upon disposal of the corresponding investment, the cumulative translation reserve is transferred to retained result in the same period when the gain or loss on disposal is recognised.

19. Grants

Balance as at 31 December 2016	3,817
Received during the period	48
Balance as at 31 December 2017	3,865
Received during the period	116
Balance as at 31 December 2018	3,981
Received during the period	37
Balance as at 31 December 2019	4,018
Received during the period	1,002
Balance as at 31 December 2020	5,020
Received during the period	91
Balance as at 31 March 2021	5,111
Balance as at 31 December 2016	3,114
Amortisation during the period	122
Accumulated amortisation as at 31 December 2017	3,236
Amortisation during the period	127
Accumulated amortisation as at 31 December 2018	3,363
Amortisation during the period	131
Accumulated amortisation as at 31 December 2019	3,494
Amortisation during the period	1,134
Accumulated amortisation as at 31 December 2020	4,628
Amortisation during the period	120
Accumulated amortisation as at 31 March 2021	4,748
Carrying amount as at 31 March 2021	363
Carrying amount as at 31 December 2020	392

The grants were received:

- For the renewal of production machinery and repairs of buildings in connection with the elimination of CFC 11 element from the production of polyurethane insulation and filling foam, and for elimination of greenhouse gases in the manufacturing of domestic refrigerators and freezers; also, for increase in efficiency by investing into the production of commercial refrigerators and infrastructure development via investments into a research centre of new products.
- To compensate for costs (EUR 107 thousand) to reduce the negative effects of COVID-19.

Grants are depreciated over the same period as the machinery and other assets for which grants were designated when compensatory costs are incurred. The amortization of grants is included in production cost against depreciation of machinery and reconstruction of buildings for which the grants were designated.

To reimburse costs the grants is included in the period in which only those costs have been incurred and reduced.

20. Warranty provision

The Group provide a warranty of up to 2 years for the production sold. The provision for warranty repairs was accounted for based on the expected cost of repairs and statistical warranty repair rates and divided respectively into non-current and current provisions.

Changes in warranty provisions were as follows:

	31-03-2021	31-12-2020
As at 1 January	320	470
Additions during the year	39	210
Utilised	(34)	(154)
Foreign currency exchange effect	-	-
Written off	-	(206)
	325	320

Warranty provisions are accounted for:

	31-03-2021
- non-current	116
- current	209
	31-12-2020
- non-current	116
- current	204

26. Risk and capital management

The Group and the Company have exposure to the following risks: credit risk, liquidity risk and market risk. This note presents information about the Group's and the Company's exposure to each of these risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout these financial statements.

The Board has overall responsibility for the establishment and oversight of the Group's and the Company's risk management framework. The Group's and Company's risk management policies are established to identify and analyse the risks faced by the Group and the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's and the Company's activities. The Group and the Company aim to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

Credit risk

As at 31 March 2021 and 31 December 2020, the maximum exposure to credit risk is represented by the carrying amount of each financial asset, consequently, the Group's and the Company's management considers that its maximum exposure is reflected by the amount of loans receivable from related parties, trade and other receivables, net of impairment allowance, and the amount of cash and cash equivalents recognised at the date of the statement of financial position. Credit risk or risk that a counterparty will not fulfil its obligations, is controlled by credit terms and monitoring procedures, using services of external credit insurance agencies.

As at 31 March 2021 and 31 December 2020, the credit risk was related to:

	31-03-2021	31-12-2020
Loans with interest receivable from related parties	-	-
Trade and other receivables	5,087	3,966
Cash and cash equivalents	130	309
	5,217	4,275

The concentration of the Group's trade partners and the largest credit risk related to trade receivables according to clients as at 31 March 2021 and 31 December 2020:

	2021	%	2020	%
Client 1	509	8	473	9
Client 2	489	8	321	6
Client 3	440	8	314	6
Client 4	404	6	305	6
Client 5	308	5	220	4
Other clients	4,196	65	3,592	69
Impairment	(1,259)		(1,259)	
	5,087	100	3,966	100

SNAIGĖ, AB company code 249664610, Pramonės str. 6, Alytus Lithuania
CONSOLIDATED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS PERIOD ENDED 31 MARCH 2021
(All amounts are in EUR thousand unless otherwise stated)

Trade receivables according to geographic regions:

	31-03-2021	31-12-2020
Central Europe	1,355	1,164
Ukraine	732	463
Lithuania	396	798
Western Europe	1,619	886
Other CIS countries	474	543
Other Baltic States	3	22
Other	508	90
	5,087	3,966

Concentration of partners and largest credit risk related to trade receivables on 31 March 2021 and 31 December 2020:

	Receivables from customers that are not past due and are not recognized for impairment	Overdue receivables from customers, that are not recognized for impairment					Total
		Less than 30 days	30 – 60 days	60 – 90 days	90 – 120 days	More than 120 days	
2021	4,427	115	121	101	87	236	5,087
2020	3,243	407	116	52	90	58	3,966

Central Europe comprises Poland, the Czech Republic, Bulgaria; Western Europe comprises France, Germany, Norway, Portugal; other CIS countries include Uzbekistan, Moldova, Russia and Azerbaijan.

The Group's and the Company's management believes that the maximum risk equals to trade receivables, less recognised impairment losses at the reporting date. The Group and the Company do not provide guarantees for obligations of other parties, except for those disclosed in Note 14.

The credit policy is implemented by the Group and the Company and credit risk is constantly controlled. Credit risk assessment is applied to all clients willing to get a payment deferral.

Trade receivables from the Group in the amount of EUR 2,458 thousand (EUR 2,227 thousand as at 31 December 2020) were insured with credit insurance by Atradius Sweden Kreditförsäkring Lithuanian branch. Trade receivables from Ukraine, Moldova, Russia and other CIS countries were not insured.

In accordance with the policy of receivables recognition as doubtful, the payments variations from agreement terms are monitored and preventive actions are taken in order to avoid overdue receivables in accordance with the standard of the Group entitled "Trade Credits Risk Management Procedure".

According to the policy of the Group, receivables are considered to be doubtful if they meet the following criteria:

- the client is late with settlement for 60 and more days, receivable amount is not covered by insurance and it does not come from subsidiaries;
- factorised clients late with settlement for 30 and more days;
- client is unable to fulfil the obligations assumed;
- reluctant to communicate with the seller;
- turnover of management is observed;
- reorganisation process is observed;
- information about tax penalties, judicial operation and restrictions of the use of assets is observed;
- bankruptcy case;
- inconsistency and variation in payments;
- other criteria.

Interest rate risk

The Group's borrowings are subject to variable interest rates related to EURIBOR.

As at the period of three months of 2021 and in 2020 the Group did not use any financial instruments to hedge against interest rate risk.

Liquidity risk

The purpose of the Group's liquidity risk management policy is to maintain the ratio between continuous financing and flexibility in using overdrafts, bank loans, bonds, financial and operating lease agreements.

Foreign exchange risk

The Group significantly reduced income earned in USD.
Most of income is earned in euro by the Group.

Capital management

The Group manage share capital, share premium, legal reserves, reserves, foreign currency translation reserve and retained earnings as capital. The primary objective of the Group's capital management is to ensure that the Group complies with the externally imposed capital requirements and to maintain appropriate capital ratios in order to ensure its business and to maximise the shareholders' benefit.

The Group manages its capital structure and makes adjustments to it in the light of changes in the economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares, reduce capital.

On 7 July 2020, during the General Meeting of shareholders of Snaigė, AB was approved the decision to reduce the authorized capital of the Company from EUR 10,302 thousand till EUR 6,736 thousand according 52 article 2 part 4 point of Law on Companies of Lithuanian Republic. The authorized capital reduced by EUR 3,566 thousand by reducing nominal value of existing shares by 0.09 euro per share from EUR 0,26 till EUR 0,17. The authorized capital is reducing in order to correct mistakes made during the formation of the authorized capital or during the increasing authorized capital, related to the use of the Company's revaluation reserve and specified in the decision No. 241-19 dated 29 January 2018 on imposition of certain measures with respect to Snaigė, AB adopted by the director of the Supervision Service of the Bank of Lithuania.

The amended Statute of the Company was registered on 19 August 2020 in the Register of Legal Entities of the Republic of Lithuania.

The Company is obliged to keep its equity not lower than 50% of its share capital, as imposed by the Law on Companies of the Republic of Lithuania. As at 31 March 2021 the Group fulfilled this requirement.

27. Commitments and contingencies

The tax authorities may at any time perform investigation of the Company's accounting registers and records for the period of five years preceding the accounting tax period, as well as calculate additional taxes and penalties. Management of the Company is not aware of any circumstances which would cause calculation of additional significant tax liabilities.

At the Extraordinary General Meeting of Shareholders of Snaigė, AB held on 11 February 2021, a decision was made to initiate the delisting of all shares issued by the Company and to delist them from trading on the regulated market of AB Nasdaq Vilnius and to no longer offer them publicly. The Company's shareholder SEKENORA HOLDINGS LIMITED will implement the tender offer, which aims to remove the Company's shares from trading on AB Nasdaq Vilnius, for other shareholders of the Company who have acquired this obligation and who will not express their will to implement it independently. During the validity of this tender offer, all shareholders of the Company will have the right, but not the obligation, to sell the Company's shares, except for the shareholder who voted "for" the decision to delist the Company's shares from trading on AB Nasdaq Vilnius and no longer offer the Company's shares to the public. The price of the tender offer will be determined in accordance with the procedure established in Article 29 part 1 point 1 of the Law on Securities of the Republic of Lithuania. The Company itself will not sell or buy its shares during the tender offer and will not set their price. During the whole process the Company will only inform the public about the decisions made in accordance with the procedure provided by legal acts. The Management of the company will equally represent the interests of all its shareholders in this process.

28. Related party transactions

According to IAS 24 Related Party Disclosures, the parties are considered related when one party can unilaterally or jointly control other party or have significant influence over the other party in making financial or operating decisions or operation matters, or when parties are jointly controlled and if the members of management, their relatives or close
