

Atos Successfully Supports Invictus Games Vancouver Whistler 2025 Reach New Heights

Atos services were instrumental in helping participants share their extraordinary resilience and passion on-site and with audiences worldwide

Vancouver and Whistler, Canada, and Paris, France, February 18, 2025 - Atos, a global leader in digital transformation and the Official Technology Partner of the Invictus Games Vancouver Whistler 2025, today announces it has successfully delivered the full range of critical IT services that helped make the games, which took place from February 8 to 16, 2025, a unique event.

This event brought together up to 550 competitors from 23 nations, introducing winter sports to the Invictus Games for the first time. Atos provided the entire range of essential services, including data processing, timing and scoring, public scoreboards, TV graphics, as well as live results for a total of 11 sports: Wheelchair Basketball, Sitting Volleyball, Wheelchair Rugby, Indoor Rowing, Swimming, Wheelchair Curling, Alpine Skiing, Snowboarding, Biathlon, Nordic Skiing, and Skeleton.

The Invictus Games is an international adaptive multi-sport event founded by Prince Harry, Duke of Sussex, for wounded, injured, and sick service members and Veterans. Launched in London in 2014, the Games aim to use the power of sport to inspire recovery, support rehabilitation, and generate a wider understanding and respect for those who serve their countries. Participants compete in a spirit of brotherhood, sharing their experiences and showcasing their resilience, determination and courage.

Adaptative sports come with a unique set of rules and categories based on competitors' health, where Atos' experience and advanced sports technologies play a crucial role. These solutions significantly enhance the readiness and deployment capabilities, ensuring a seamless experience for athletes and organizers.

Atos relied on the unparalleled expertise of its 25 on-site professionals and 10 remote technicians from its Sport Technology Center of Excellence in Spain to ensure operational excellence throughout the 8 days of competition. More than 110 computers were deployed across various sports disciplines, in addition to providing over 300 TV graphics for the live broadcast of the event. One of the highlights of Atos's collaboration at the Invictus Games was the implementation of a remote On-Venue Result system (OVR) for certain sports, including Wheelchair Basketball, Sitting Volleyball, Wheelchair Rugby, and Indoor Rowing. Atos experts perfectly managed, deployed, and monitored the entire spectrum of the Games' technology, ensuring that all services run smoothly and efficiently during the entire competition.

"We believe this event beautifully showcases the spirit of sportsmanship and the incredible resilience of the competitors" said Nacho Moros, Head of Major Events, Atos. "We are proud that our cutting-edge technology and all the experience we accumulated in supporting the largest sport events worldwide in the past decades created an amazing experience for the Invictus Games 2025 competitors and fans alike. We are looking forward to pursuing this journey, and keeping integrating new, exciting features in future editions."

Atos has been serving its partners and customers through a dedicated in-house sports and major events division ("Major Events") for over 30 years, giving it an unmatched experience and the flexibility to serve its customers regardless of their exposure, size and scale. From global events to local competitions such as the next 2025 European Youth Olympic Winter Festival to be held in Bakuriani (Georgia), Atos consistently strives to deliver technology excellence to its entire customer base.

Atos has been involved with the Olympic Movement since 1992 and the Paralympic Movement since 2002 and is the [Official Digital Technology Partner of the European Olympic Committee](#) 2027 edition of the European Games, as well as the official Digital partner for Special Olympics International. In addition, the company is also the Official Information Technology Partner of UEFA National Team Football. Most recently, Atos has been instrumental in delivering successful leading-edge IT services for iconic events such as UEFA EURO 2024™ in Germany and the [Olympic and Paralympic Games Paris 2024](#).
