

Quadiant Recognized in Inaugural 2025 Gartner® Magic Quadrant™ for Accounts Payable Applications

Paris, April 4, 2025

Quadiant (Euronext Paris: QDT), a global automation platform powering secure and sustainable business connections, announces it has been recognized in the first ever 2025 Gartner Magic Quadrant for Accounts Payable Applications. A Gartner Magic Quadrant is a culmination of research in a specific market, giving a wide-angle view of the relative positions of the market's competitors.¹

The cloud-based [Quadiant AP](#) solution automates and streamlines accounts payable (AP) processes, eliminating tedious manual data entry and reducing errors and processing time through the power of AI and automation. Additionally, it enhances visibility into financial workflows, enabling better decision-making and improved cash flow management, as well as ensuring compliance and strengthening security.

"We believe our inclusion in the inaugural Gartner Magic Quadrant for Accounts Payable Applications reflects Quadiant's commitment to transforming AP with AI-driven automation that eliminates labor-intensive manual workflows, accelerates processes and strengthens compliance," said Chris Hartigan, chief solution officer, Digital, Quadiant. *"Quadiant's digital automation SaaS offering, including Quadiant AP, delivers unquestionable customer benefits—from cost savings to greater user experience and data security—empowering financial teams in highly regulated industries to make AP faster, easier and more collaborative."*

Beyond accounts payables, Quadiant's SaaS digital automation platform also streamlines accounts receivable, e-invoicing, customer communications and document automation management. For more information about Quadiant AP, visit www.quadiant.com/en/ap-automation.
