Press Release April 13, 2022

## **Preliminary figures for the first quarter show an increased EBITA of 189 percent compared to the same period last year**

**Hexatronic's sales and earnings during the first quarter of 2022 are expected to increase sharply due to strong organic growth, primarily in the US and the UK, in combination with strong acquisition-driven growth.**

Preliminary net sales for the quarter amounted to approximately 1,388 MSEK (635), which corresponds to 119 percent growth compared to the same period last year, of which about 70 percent is organic. EBITA for the first quarter is expected to amount to 184 MSEK (64), which corresponds to 189 percent growth compared to the same period last year and an EBITA margin of 13.3 percent (10.1).

*“During the quarter, we have continued to see very strong demand in basically all our markets. In 2021, extensive investments were made in capacity, broadened offering, acquisitions and strengthened organization, which has been a strong contributor to the result above our expectations in the first quarter of 2022”,* says Henrik Larsson Lyon, CEO of Hexatronic Group.

The report for the first quarter of 2022 will be published as planned on April 29 at 07.00 CET
