

Major shareholder announcement from Burlington Loan Management DAC

December 19, 2023 – Company announcement no. 12

In accordance with section 30 of the Danish Capital Markets Act, Chr. Hansen Holding A/S hereby announces that the company has been notified by Burlington Loan Management DAC (“Burlington”) that Burlington as of December 12, 2023, directly holds less than 5% of the total share capital of Chr. Hansen Holding A/S.

Davidson Kempner European Partners, LLC (“DKEP”) continues to directly hold more than 5% of the total voting rights of Chr. Hansen Holding A/S, as previously announced in company announcement no. 8 of September 27, 2023.

The above notification specifies that Burlington has delegated the voting authority in respect of its shares in Chr. Hansen Holding A/S to DKEP due to DKEP being sub investment advisor to DKCM, which is Burlington’s investment manager. DKEP is controlled by DKCM, which in turn is controlled by a chain of controlled undertakings, and which thus all are indirect holders of more than 5% of the voting rights in Chr. Hansen Holding A/S. The full chain of controlled undertakings (starting with the ultimate controlling natural person), continues to be as follows, as previously announced in company announcement no. 8 of September 27, 2023:

Name	Total voting rights if more than 5%	Total share capital if more than 5%
Anthony Yoseloff	Above 5%	N/A
DKCM GP LLC	Above 5%	N/A
Davidson Kempner Capital Management LP (“DKCM”)	Above 5%	N/A
Davidson Kempner European Partners, LLP (“DKEP”)	Above 5%	N/A

About Chr. Hansen

Chr. Hansen is a global, differentiated bioscience company that develops natural ingredient solutions for the food, nutritional, pharmaceutical and agricultural industries. At Chr. Hansen, we are strongly positioned to drive positive change through microbial solutions. We have worked for over 145 years to enable sustainable agriculture, better food and healthier living for more people around the world. Our microbial and fermentation technology platforms, including our broad and relevant collection of around 50,000 microbial strains, have game-changing potential. Matching customer needs and global trends, we continue to unlock the power of good bacteria to respond to global challenges such as food waste, global health and the overuse of antibiotics and pesticides. As the world’s most sustainable food ingredients company, we touch the lives of more than 1 billion people every day. Driven by our legacy of innovation and curiosity to pioneer science, our purpose – To grow a better world. Naturally. – is at the heart of everything we do.
