Changes to Solvay's Financial reports for Q1, Q3 and Q4 earnings

Starting with the Q4 earnings release, Solvay will apply some changes in its financial reporting. In line with market practice, which is to publish quarterly information in Q1, Q3 and Q4 that is not prepared in accordance with IAS34, Solvay has decided to simplify the presentation of its financial information for these quarters.

The Q2 earnings publications will continue to include condensed consolidated interim financial statements that are prepared in accordance with IAS 34, as required by the ESMA and local regulations.

This change is in line with the strategy of Solvay to be simpler and more efficient following the partial demerger, while keeping its unwavering commitment to provide quality information to the financial markets.
