

## EASE2PAY N.V. today publishes the 2021 annual report

Mobile payment service provider Ease2pay shows a clear improvement of its revenues over 2021, despite the impact of the COVID-19 virus.

Ease2pay achieved a turnover on its platform of EUR 354 thousand in 2021 (2020: EUR 197 thousand). Turnover rose sharply as a result of an increase in the number of parking transactions and the additional revenues from the acquisition of the parking activities of Monotch B.V. in August 2021.

The operating result (EBITDA) amounted to a loss of EUR 587 thousand (2020: EUR 529 thousand) and the net loss was EUR 808 thousand (2020: EUR 740 thousand). The net loss is to a large extent the result of an increase in advisory and consultancy expenses to EUR 327 thousand (2020: EUR 110 thousand) caused by legal advisory fees in connection with the acquisition of Involtum Holding B.V..
