### **About Conferize**

Conferize is a digital platform for event organizers and attendees. Too many events and conferences are still planned and realized following a template from the time the world was still analog. This means that the attendees benefit too little in terms of networking, knowledge sharing and participation, and organizers struggle with old-fashioned and incomplete products, ultimately resulting in a bad experience for the attendees.

Conferize solves this fundamental problem by offering a comprehensive solution that makes it easy for the organizer and creates greater value for the attendees – before, during and after the event. At the same time Conferize connects users and content in a global network of events, providing an overview of an otherwise fragmented industry, Conferize has been used by thousands of events in more than 140 countries and has been official partner for TEDx since 2014.
