

Atos Positioned as a Leader in Gartner® Magic Quadrant™ for Data Center Outsourcing and Hybrid Infrastructure Managed Services, Global

Paris, 3 August 2021 – Atos has been positioned by Gartner, Inc. as a Leader in its Magic Quadrant for Data Center Outsourcing and Hybrid Infrastructure Managed Services, Global. Atos was named a Leader in Gartner's Europe and North America region-specific Magic Quadrant reports for 9 and 4 years running respectively.

Atos is recognized for its completeness of vision and ability to execute. In 2020, Atos launched [Atos OneCloud](#), a unique initiative to pro-actively accelerate its clients' migration to the Cloud. Supported by a €2 billion investment, Atos OneCloud is a one-stop shop offering end-to-end cloud transformation with industry specific solutions and go-to-market, including cloud advisory consulting, application transformation or prebuilt cloud accelerators.

Gartner reviewed 19 service providers that offer data center outsourcing (DCO) and hybrid infrastructure managed service (HIMS) in Asia Pacific, in Europe, and in North America, based on their completeness of vision and ability to execute.

"We are proud to be recognized once again as a Leader in Data Center Outsourcing and Hybrid Infrastructure Services, global by Gartner. We are seeing a lot of organizations navigating towards an integrated approach to cloud adoption. They are concerned about cloud lock-in and want security, stability and simplicity from a trusted cloud-agnostic partner. As a leader of secure and decarbonized digital, Atos is focused on continuously strengthening its cloud capabilities, expertise and skills to stay in front of its clients' needs," said **Jo Debecker, Head of Global Operations at Atos.**
