Share price €27.20 (discount to NAV: 5%)

BGHL is a closed-ended investment company which invests in BG Fund, Boussard & Gavaudan's flagship fund with 20 years of track record.

BGHL's investment objective is to deliver an annual return, net of fees, of 400 to 600 basis points above the risk-free rate over the business cycle, irrespective of market performance. The risk-free rate is "Compounded euro short-term rate index" (1).

BG Fund is driven by bottom-up fundamental and event catalyst research, combined with extensive multi-asset arbitrage and derivative expertise. Typically, investment ideas are catalyst driven with a focus on special situations and events.

Capital is dynamically allocated to the firm's best ideas and these ideas are categorized into four main types of strategies: Equity, Volatility, Credit and Trading strategies.

(1) The risk-free rate is the combination of the Eonia Capitalization index 7 day (EONCAPL7 Index) from 11/2006 to 09/2019 and the Compounded Euro short-term rate index (ESTR OIS Index) from 10/2019 onwards.

II. OVERVIEW

Boussard & Gavaudan Holding Limited ("BGHL") is a Guernsey closed-ended investment company and is registered with the Dutch Authority for the Financial Markets as a collective investment scheme under article 1:107 of the Dutch Financial Markets Supervision Act. BGHL invests its assets in order to provide exposure to multiple alternative investment strategies managed by the Investment Manager. The investment objective is to produce long-term appreciation of its assets. BGHL seeks to achieve this by investing in BG Fund ("the Fund"). In addition, a proportion of the net assets of BGHL may, at the discretion of the Investment Manager, be invested in other hedge funds and financial assets selected by the Investment Manager. BGHL aims to generate a target NAV annualized return of Eonia capitalized + 400/600 bps over the business cycle, net of all fees.

V. BGHL COMPOSITION

BGHL is invested in BG Fund (net of an amount retained by BGHL for working capital and other requirements).

As of 1 August 2024, 99.75% of BGHL net asset value is invested in BG Fund. BGHL has a maximum exposure limit to BG Fund of 110%. The remained BGHL net asset value is made up of direct investment and cash.

A. BG FUND

July 2024 HIGHLIGHTS

Equity markets had a relatively strong start to the month but then reversed from mid-month onwards with a significant change in leadership and a highly rotational environment. Performance diverged between Europe and the US in July with the EuroStoxx 50® Total Return ending slightly down -0.32% and the S&P500® Total Return up +1.22% overall.

The market implied volatility measure VStoxx® decreased, finishing the month at 15.7% and the iTraxx Crossover® (S39) tightened slightly from 319bps to 295bps.

Against this market backdrop, BG Fund was up +111bps (USD A shares) during the month with positive performance from all strategies.

July 2024 COMMENTARY

Volatility strategies

Mandatory convertible bond arbitrage

Mandatory convertible bonds contributed +10bps this month. Performance was related to a small general repricing.

Convertible bond arbitrage

Convertible bond strategies continue to perform as in June and contributed +23bps in July.

In Europe, primary issuance in July was limited as normal. This notwithstanding Tui and Ocado benefited from strong demand to issue new CBs at expensive levels and buy back existing CBs. The strong performance in July came from special situations that are well on the way to recovery as anticipated. Despite the fall in overall vol our positions on specific vol trades also delivered a decent positive return.

The U.S. convert market was moderately positive throughout July. 5-year interest rates fell from 4.38% to 3.91%. This created a small tailwind for our portfolio as we had unhedged most of our interest rate exposure in May in light of the deteriorating macroeconomic backdrop in the U.S. Credit spreads narrowed slightly over the month, from 344bps at the end of June to 330bps at the end of July. Our position in Lucid converts did well following the Rivian-Volkswagen joint venture announcement and the subsequent hope that Lucid would do something similar. The primary market was very quiet as most companies were in their pre-earnings closed period prior to their earnings releases towards the end of July.

Volatility Trading

Realised volatility vs implied forwards at the end of June:

	30d Implied vol level on 28/06/24	Realised vol over the month	Difference
US (VIX®)	12.44	15.06	+2.62
EUROPE (Vstoxx®)	18.30	15.10	-3.20

Variation of implied volatilities during July:

	Aug. Vol Index Fut as of 28/06/24	Aug. Vol Index Fut as of 31/07/24	Vol move
US (VIX®)	14.94	16.00	+1.06
EUROPE (Vstoxx®)	16.60	15.60	-1.00

Volatility trading contributed +1bp to the fund's performance this month.

July was a month of contrasts. The first half of the month was notably calm and bullish, with minimal volatility, while the second half saw a marked shift, driven by evolving U.S. election forecasts, which triggered a significant market rotation.

At the start of the month, we maintained a robust hedge in Europe, primarily due to the uncertainties surrounding the French elections. However, the unexpected result, with the Nouveau Front Populaire (NFP) in the lead, proved to be a non-event for markets. Both implied and realized volatility remained muted and subdued throughout. As a result, our protection strategies, although prudent, came at a cost.

In contrast, our US strategies, particularly dispersion positions and long volatility trades, performed well. Volatility levels in the U.S. rose, creating favourable conditions for these positions, which we decided to increase.

Overall, the gains from US volatility trading were partially offset by the costs associated with our European hedges, particularly in light of the French elections, as well as the bid-offer spreads encountered when increasing new positions.

Warrant arbitrage

Warrant arbitrage contributed +1bp in July.

Equity strategies

In July, the equity portfolio returned +22bps, driven by risk arbitrage positions as corporate activity continued at a good pace.

We benefited from our position in Britvic after Carlsberg formalised its board-recommended offer, following a 5% increase on the previous approach announced in June.

Spreads were generally a little tighter as a number of situations moved in the right direction. Examples include DS Smith / International Paper and Sabadell / BBVA.

Credit strategies

Credit long / short

The credit books contributed +10bps this month.

Credit special situations

Credit special situations was up +35bps this month as two specific positions moved towards what we anticipate should be successful conclusions. On Solocal, 60% of the loan was repaid at par as predicted with the remainder to come in due course. Atos announced the successful initial phase of its restructuring and the opening of Accelerated Safeguard proceedings.

Trading

Trading contributed +9bps in July overall.

Macro trading was positive in July. We viewed the latest US CPI as a sell on the news event, which proved to be correct. In such a context, our more defensive positions such as gold and a 2/30 US steepener made a positive contribution. However, performance was dampened by the USD's retreat against the renminbi. We continue to monitor liquidity and fiscal positions very closely to assess the extent of the current business cycle.

Thematic Trading suffered from the global sell-off that followed the release of a hawkish CPI. The rotation affected less favoured sectors such as utilities and real estate.

Systematic Trend Following, was marginally negative in July, mainly due to the slow but inexorable easing of interest rates in the wake of better inflation figures. Indices and single stocks contributed positively despite a choppy market. Currency positions suffered from the strength of the Yen among others.

B. DIRECT INVESTMENTS OTHER THAN BG FUND

On top of its investment in BG Fund, BGHL has other investments. As of 31 July 2024, the net asset value of these investments represents less than 1.00% of the net asset value of BGHL.

Rasa Resorts, S.A.P.I. de C.V. ("Rasa")

Rasa is a holding company structured as a private equity fund in terms of fees and organisation and managed by RSC Development and BK Partners. BGHL holds Rasa shares through Campastros, S.L.U., a wholly-owned holding company in Spain. Rasa is dedicated to investing in land, hotels and high-end resort developments in Mexico. Rasa's main asset is a majority interest in ACTUR, a private company owning the land developing assets. ACTUR's other shareholders are Mexican public institutions.

In July 2020, Rasa made a cash tender offer to buy back its own shares, for a price per share of US\$0.12270. The valuation of BGHL's investment in Rasa shares was marked down on 31 August 2020, using the US\$0.12270 per share price as the estimated fair value of the Rasa shares. This price represents a circa 76% discount to the latest published NAV per share.

VI. BOUSSARD & GAVAUDAN INVESTMENT MANAGEMENT UPDATE

A. TRANSACTION IN THE COMPANY'S SECURITIES

Please note that transactions in the Company's securities that have been performed by officers, directors and persons referred to in the section 5:60 of the Financial Supervision Act ("Wft") are reported:

- directly on the AFM website: <u>www.afm.nl</u> (professionals > registers > notifications > insidertransactions 5:60 wft);
- on the Company's website through a link to the AFM notification: <u>www.bgholdingltd.com</u> (Investment Manager > Regulatory information).

Transactions in the Company's own securities are also reported on:

- the AFM website: <u>www.afm.nl</u> (professionals > registers > notifications > price-sensitive press releases);
- the Company's website: www.bgholdingltd.com (Investor Relations > Financial announcements).

B. **BGIM'S AUM**

As of 1 August 2024, BG Fund assets under management are €1.61bn.

Sincerely,

E. Boussard and E. Gavaudan

Hedge Funds Liquidation Stress Tests

Stress tests' scenarios have been improved in order to take into account liquidity issues. This scenario aims at reflecting, to some extent, how the fund would react in a distressed market environment (as was the case in late 2008). These stress tests combine the three following adjustments:

• Small, Mid and Large caps adjustment

In certain market conditions, beta may become much higher than its level in normal market conditions and thus the hedging of such positions may not be effective. To address this kind of circumstance we apply a corrective factor to the beta of small, mid and large caps respectively. Since April 2019, the corrective factors have been calibrated on the amplitude of the stresses by looking at worst historical scenario since 1987.

	-5%	-10%	-20%	-30%
Small (<1bn)	2.00	1.75	1.50	1.30
Mid (1bn-5bn)	1.50	1.50	1.25	1.20
Large (5bn-20bn)	1.20	1.15	1.10	1.05
Mega (>20bn)	1.00	1.00	1.00	1.00

Risk arbitrage adjustment

The risk of risk arbitrage positions is taken into account differently in case the market drops by more than 10%. We consider that one third of risk arbitrage positions will collapse.

Liquidity adjustment

An average discount (realized in 2008) is applied to bond, convertible bond (including mandatory convertible bond) and loan prices in case credit spreads widen by more than 25%.

Mandatories: Adj. price = Max(Shifted Price - 5% * Max(Credit spread shift - 25%, 0), Parity)Others: Adj. price = Max(Shifted Price - 5% * Max(Credit spread shift - 25%, 0), 0)

- Excess cash	0.0%
Total Cash and cash equivalents	15.3%

Annex 8: AIFMD disclosure to investor

In compliance with AIFMD, BGIM will report in the newsletter the information hereafter:

• The percentage of assets which are subject to special arrangements arising from their illiquid nature:

Nothing to report

Any new arrangements for managing the liquidity of the AIF:

Nothing to report

• The current risk profile of the AIF and a description of the risk management systems employed by BGIM to manage market risk, liquidity risk, counterparty risk and other risks, including operational risk:

Please refer to this newsletter for the current risk profile of the Fund.

The backbone of the portfolio and risk management systems at BGIM relies on several components all interfaced together to ensure a full Straight Through Processing. The main system is FusionInvest provided by Misys used for position keeping and risk management. FusionInvest is interfaced to a real time market data vendor for real time P&L and risk calculation. Another key system is Trade Smart, the Execution Management System provided by Trading Screen that is interfaced to an in-house implemented Order Management System, itself connected in real time to FusionInvest. All figures used for qualitative and quantitative risk management are produced out of FusionInvest.

• The gross investment exposure of the Company at any time may represent a maximum of 2 times the Net Asset Value at the time of investment.

	Maximum limit	Current usage
Commitment method	200%	99%
Gross method	200%	99%

Important Information

The Company is established as a closed-ended investment company domiciled in Guernsey. The Company has received the necessary approval of the Guernsey Financial Services Commission and the States of Guernsey Policy Council. The Company is registered with the Dutch Authority for the Financial Markets as a collective investment scheme pursuant to article 2:73 in conjunction with 2:66 of the Dutch Financial Supervision Act (Wet op het financial toezicht). The shares of the Company (the "Shares") are listed on Euronext Amsterdam. The Shares are also listed on the Official List of the UK Listing Authority and admitted to trading on the London Stock Exchange plc's main market for listed securities.

This is not an offer to sell or a solicitation of any offer to buy any securities in the United States or in any other jurisdiction. This announcement is not intended to and does not constitute, or form part of, any offer or invitation to purchase any securities or the solicitation of any vote or approval in any jurisdiction, nor shall there be any sale, issuance or transfer of the securities referred to in this announcement in any jurisdiction in contravention of applicable law.

Neither the Company nor BG Fund have been, and neither will be, registered under the US Investment Company Act of 1940, as amended (the "Investment Company Act"). In addition, the securities referenced in this announcement have not been and will not be registered under the US Securities Act of 1933, as amended (the "Securities Act"). Consequently, any such securities may not be offered, sold or otherwise transferred within the United States or to, or for the account or benefit of, US persons except in accordance with the Securities Act or an exemption therefrom and under circumstances which will not require the issuer of such securities to register under the Investment Company Act. No public offering of any securities will be made in the United States.

You should always bear in mind that:

- all investments are subject to risk;
- past performance is not a reliable indicator of future results;
- the investment performance of BGHL may go down as well as up. You may not get back all of your original investment; and
- if you are in any doubt about the contents of this communication or if you consider making an investment decision, you are advised to seek expert financial advice.
- any reference to individual investments within this document should not be taken as a recommendation to buy or sell.

This communication is for information purposes only and the information contained in this communication should not be relied upon as a substitute for financial or other professional advice.
