

Update on first quarter 2019 financial results and audiocast details for 2 May 2019

Lundin Petroleum AB (Lundin Petroleum) will publish its financial report for the first quarter 2019 on Thursday 2 May 2019. For the first quarter 2019, Lundin Petroleum will expense pre-tax exploration costs of approximately MUSD 37 and recognise a net foreign exchange gain of approximately MUSD 1.

These items are largely non-cash and will have no impact on operating cash flow or EBITDA.

Exploration costs

For the first quarter of 2019, Lundin Petroleum will incur pre-tax exploration costs of approximately MUSD 37 which will be charged to the income statement and offset by a tax credit of approximately MUSD 29. The exploration costs are mainly related to the dry wells on the Gjøkåsen Shallow and Gjøkåsen Deep prospects located in PL857 and the dry well on the Pointer and Setter prospects located in PL767.

Foreign exchange

Lundin Petroleum will recognise a net foreign exchange gain of approximately MUSD 1 for the first quarter of 2019. The Norwegian Krone strengthened against the US Dollar by approximately 1 percent and the Euro weakened against the US Dollar by approximately 2 percent during the first quarter of 2019. The foreign exchange gain is largely non-cash and mainly relates to the revaluation of loan balances at the prevailing exchange rates at the balance sheet date.

Revenue from the crude oil sales from third parties

Lundin Petroleum markets its own crude oil production and at times markets crude oil from third parties. For the first quarter 2019, revenue from the sale of crude oil from third parties amounted to MUSD 40.1 offset by the purchase of crude oil from third parties of also MUSD 40.1, resulting in no gross profit on third party activities for the first quarter 2019.

Forward-Looking Statements

Certain statements made and information contained herein constitute "forward-looking information" (within the meaning of applicable securities legislation). Such statements and information (together, "forward-looking statements") relate to future events, including the Company's future performance, business prospects or opportunities. Forward-looking statements include, but are not limited to, statements with respect to estimates of reserves and/or resources, future production levels, future capital expenditures and their allocation to exploration and development activities, future drilling and other exploration and development activities. Ultimate recovery of reserves or resources are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management.

All statements other than statements of historical fact may be forward-looking statements. Statements concerning proven and probable reserves and resource estimates may also be deemed to constitute forward-looking statements and reflect conclusions that are based on certain assumptions that the reserves and resources can be economically exploited. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "seek", "anticipate", "plan", "continue", "estimate", "expect", "may", "will", "project", "predict", "potential", "targeting", "intend", "could", "might", "should", "believe" and similar expressions) are not statements of historical fact and may be "forward-looking statements". Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. No assurance can be given that these expectations and assumptions will prove to be correct and such forward-looking statements should not be relied upon. These statements speak only as on the date of the information and the Company does not intend, and does not assume any obligation, to update these forward-looking statements, except as required by applicable laws. These forward-looking statements involve risks and uncertainties relating to, among other things, operational risks (including exploration and development risks), production costs, availability of drilling equipment, reliance on key personnel, reserve estimates, health, safety and environmental issues, legal risks and regulatory changes, competition, geopolitical risk, and financial risks. These risks and uncertainties are described in more detail under the heading "Risks and Risk Management" and elsewhere in the Company's annual report. Readers are cautioned that the foregoing list of risk factors should not be construed as exhaustive. Actual results may differ materially from those expressed or implied by such forward-looking statements. Forward-looking statements are expressly qualified by this cautionary statement.
