***TEXAF**, founded in 1925, is the only listed company with all its activities in the Democratic Republic of Congo. These are currently focused on real estate, careers and digital.*

*This stock market listing and the resulting obligations of good governance and transparency are a major asset for the group in terms of its development and the promotion of the formal sector in the Democratic Republic of Congo.*

*The focus of real estate activity is the **UTEXAFRICA** concession, which combines housing, offices and shops on a 50-hectare site along the Congo River. This offer is accompanied by services for residents such as sports and leisure facilities, the **TEXAF BILEMBO** cultural centre, maintenance services and office equipment ..... It also includes, in the same district, the concession that houses **SILIKIN VILLAGE** and the Petit-Pont building. Ten kilometres away, it also includes an 87-hectare plot of land earmarked for the **JARDINS DE KINSUKA** project.*

*The quarry business is managed by **CARRIGRES**, which operates a sandstone quarry in Kinshasa with a nominal capacity of 600,000 tonnes, supplying the road and concrete sectors.*

***TEXAF**, convinced of the opportunity that the digital economy represents for the DRC, has made it a third branch of activity. In September 2019, it launched its **SILIKIN VILLAGE** initiative, which will provide work and training spaces for the emerging digital ecosystem, as well as a range of training courses, support and conferences. It also aims to partner with international groups to set up new infrastructures and services in the DRC.*
