

## PRESS RELEASE

January 15, 2026, 5:40 pm CET

# DEME TAKES DELIVERY OF ITS SECOND NEW WIND TURBINE INSTALLATION VESSEL NORSE ENERGI

DEME has taken delivery of its second new wind turbine installation vessel, **Norse Energi**, today at the CIMC Raffles Shipyard. As the sister vessel of the recently delivered **Norse Wind**, **Norse Energi** is purpose-built to install the next generation of large-scale offshore wind turbines. Featuring advanced technology, exceptional lifting and loading capabilities, and sustainable design features, both vessels will help reinforce DEME's position at the forefront of offshore wind installation.

Designed by GustoMSC and built by CIMC Raffles, **Norse Energi** - like its sister vessel **Norse Wind** - is engineered to install turbines with rotor diameters measuring over 300 meters and XXL monopiles weighing up to 3,000 tons, even in water depths of 70 meters. Delivered on schedule with an excellent quality and safety record, **Norse Energi** will now be coated in DEME's iconic green livery.

Together, **Norse Wind** and **Norse Energi** will be instrumental in delivering some of the world's largest offshore wind farms in the coming years. Both vessels are already contracted for offshore wind projects in Europe and will enter service in the first half of 2026.

## About DEME

DEME (Euronext Brussels: DEME) is a leading contractor in the fields of offshore energy, dredging, marine infrastructure, and environmental remediation. DEME also engages in concessions activities in offshore wind, marine infrastructure, green hydrogen, and deep-sea mineral harvesting. The company can build on 150 years of experience and is a front-runner in innovation and new technologies. DEME's vision is to work towards a sustainable future by offering solutions for global challenges: climate change, a growing population and urbanization, increasing maritime trade, and environmental issues. With a team of more than 5,800 highly skilled professionals and one of the most advanced fleets in the world, DEME is well-positioned to tackle even the most complex projects. DEME realized a turnover of 4.1 billion euros with an EBITDA of 764 million euros in 2024. For more information, please visit [www.deme-group.com](http://www.deme-group.com).
