LHV Group

Financial plan 2021 update 17 August 2021

LHV Group – forecast

Financial plan assumptions

- Macroeconomic situation has exceeded expectations. The economy has recovered fast, customer activity is high. As a result of that:
 - grace periods of existing loans have mostly ended and customers have returned to their regular payment schedule
 - lower credit losses
 - deposits growing faster
 - income from mainly currency exchange and settlements growing faster than expected
- No significant changes can be foreseen in the macroeconomic situation
- Number of customers leaving II pillar lower than expected resulting in smaller additional amortisation
- No performance fee in Asset Management forecast
- Only expenses related to establishment planned for UK bank
- Raising of the share capital by 25.34 EURm has been added to the financial plan

- Increase in net interest income resulting from growth in deposits and lower interest expenses
- More expensive deposits through deposit platforms are reduced in greater extent than planned, deposits growing in other segments, financial intermediaries' deposits stabilising on 2 EURb level
- Increase in net fee and commission income due to growing business volumes in financial intermediaries' segment
- Expenses growing due to higher business volumes, however, slower than revenues
- Quality of the loan portfolio remains good and loan provisions booked last year due to COVID are reduced

- Lower than expected number of customers leaving II pillar reduces amortisation by 1 EURm and thus increases net profit by the same amount
- Compared to previous financial plan funds' volume by the end of the year 130 EURm higher
- Smaller number of customers leaving the second pillar increases the expected customer base, more than 140 thousand active customers of II pillar funds by the end of the year
- Larger customer base and asset volume results in a somewhat bigger management fee compared to previous financial plan
