21. Resolution regarding the guidelines for remuneration to senior management

The board of directors proposes that the AGM adopts the following guidelines for remuneration to senior management. The guidelines apply until new guidelines are adopted by the general meeting and are valid for a maximum of four years.

Scope

The guidelines below include the board of directors (as applicable), the CEO and other members of the Group management, hereinafter referred to as senior management. The guidelines are applicable to remuneration under new agreements, and amendments to remuneration already agreed, after adoption of the new guidelines by the AGM. The guidelines do not apply to remuneration decided on by the general meeting.

The guidelines' promotion of the Company's business strategy, long-term interests and sustainability

SkiStar's vision is to create memorable mountain experiences. As a listed company, SkiStar aims to create value for the company's shareholders and to promote long-term sustainability in all operations.

Further information about SkiStar's strategy, long-term interests including financial and operational targets, as well as sustainability work, see www.skistar.com/en/corporate and the annual report, which is available on the said website no later than three weeks prior to the AGM.

Successful implementation of the Company's business strategy and safeguarding of its long-term interests, including its sustainability, are contingent on the Company having qualified employees. SkiStar must therefore be able to offer competitive compensation. The Company's remuneration structure in accordance with these guidelines shall

- contribute to a consensus between senior management and shareholders in terms of the long-term perspective of the operations, including promotion of the Company's business strategy, long-term interest and sustainability,
- ensure that senior management receive remuneration that is on market conditions and competitive, enabling the company to recruit, motivate and retain competent employees,
- require senior managements' compliance with the company's code of conduct, policies and directives, and
- offer a salary based on the company's financial targets and senior executives' individual responsibility, competence, performance, duties, experience and position.

Variable remuneration covered by these guidelines shall aim to promote the company's business strategy and long-term interests, including sustainability.

Remuneration and forms of remuneration

The total compensation for senior management shall be reviewed regularly, and at least annually, to ensure that it is market-based. To create well-balanced total compensation that strengthens both short and long-term performance management and target achievement, remuneration may include the following components: fixed cash salary, variable remuneration/bonuses including undertaking to acquire shares, pension benefits and other benefits.

Fixed cash salary

Senior executives shall be offered a fixed cash salary that is individualised and market-based in relation to responsibility, competence, performance and regional salary level. The fixed salary shall be determined annually, to apply for the period September to August.

Variable remuneration/bonus including undertaking to acquire shares

Senior management may receive variable cash remuneration/bonuses, based on the current bonus programme for SkiStar's senior management as decided by the board for each financial year. Bonuses shall be related to measurable criteria defined by the board with regard to the company's performance on earnings per share, return on equity, operating margin and organic growth, measured for each financial year. If the board considers that the business strategy and the company's long-term interests, including sustainability, would be better promoted if the criteria were supplemented or changed, these guidelines allow such changes to be made.

The senior managements' bonuses may amount to a maximum of 60 percent of the current monthly salary x 12, which consequently constitutes the bonus cap.

The level of fulfilment of the criteria for awarding variable cash remuneration shall be determined at the end of the measurement period. The remuneration committee is responsible for the CEO's variable cash remuneration assessment. The CEO is responsible for other senior managements' variable cash remuneration assessment. Assessment of financial targets shall be based on the most recent financial report published by the company. Variable remuneration is paid in October of the year after it was earned.

Under an agreement with the company, senior management who receive bonuses shall undertake to acquire shares in the company for long-term ownership (a period of at least three years), investing at least 1/3 of their post-tax bonuses. The purpose is to create involvement and engagement by offering senior management the opportunity to become shareholders in a structured way. Through the criteria that determine the outcome as described above, incentives are created for senior management to contribute to realisation of the company's business strategy and safeguarding of the company's long-term interests, including sustainability, and therefore to long-term value creation.

If a senior management member contravenes the above conditions by, for example, prematurely selling shares acquired under said conditions, the senior manager shall, in accordance with the agreement with the Company, be required to repay the full amount (including income tax but not social security contributions) paid for the shares acquired.

Pension benefits

Senior executives are entitled to pension arrangements under collective agreements and agreements with SkiStar AB. All pension obligations are defined-contribution plans. For the CEO, the Company pays

pension contributions corresponding to 30 percent of the pensionable salary. For other senior management members, pension payments are made according to the standard ITP plan. Salary waivers can be used for increased pension provisions through one-time pension premium payments under salary and bonus change arrangements. The retirement age for senior management who are Swedish citizens is 65. For others, it is as specified in their own country's pension rules.

Car benefits

Senior management may be offered car benefits.

Other benefits

Senior management may be entitled to other benefits in form of e.g. health insurance and the benefits that apply to other SkiStar employees. The total value of such benefits may not exceed five percent of a senior management member's fixed cash salary.

In addition, the CEO may be entitled to private travel between home and work (including air travel), tax return assistance and supplementary health insurance in addition to the collectively agreed health insurance. The value of such benefits may in total amount to a maximum of five percent of the fixed cash salary for the CEO.

Other

Employment conditions for senior management members who are subject to rules other than Swedish rules on pension and other benefits may be duly adjusted to ensure compliance with mandatory rules or established local practice, considering the overall purpose of these guidelines as far as possible.

Period of notice and termination benefits

Upon termination of employment, the notice period on the part of SkiStar may, as a starting-point, be a maximum of twelve months and in the event of termination by the senior manager a maximum of six months. Severance pay, if any, shall only be paid in the event of termination by the company. Severance pay shall be deducted from the dismissed person's new employment. Severance pay is calculated on the fixed cash salary and is not pensionable. Fixed salary during notice period and eventual severance pay shall in total not exceed an amount corresponding to the fixed salary for 24 months.

Decision-making process to determine, review and implement the guidelines

The board's remuneration committee is responsible for annually reviewing the need to revise the guidelines prior to the board's proposal to the AGM (if applicable) for adoption. The board shall prepare a proposal for new guidelines at least every fourth year and present it to the AGM for resolution. The guidelines shall be valid until new guidelines are adopted by the general meeting. The remuneration committee shall also monitor and evaluate programmes for variable remuneration for senior management, the application of guidelines for remuneration to senior management and applicable remuneration structures and remuneration levels in the company. The board makes decisions on the salary and other terms of employment for the CEO on the basis of proposals from the remuneration committee. The CEO makes decisions on the salary and other terms of employment for other senior management members and consults with the remuneration committee on this matter. The CEO and other senior management are not present when the board and the remuneration committee consider and make decisions on remuneration-related matters in so far as they are affected

by these matters.

Derogation from the guidelines

The board may, following a proposal from the remuneration committee, decide to make a temporary derogation from the guidelines, in whole or in part, if there are particular reasons to do so in an individual case and provided such derogation is necessary in order to serve the company's long-term interests, including sustainability, or to ensure the company's financial viability. As stated above, the remuneration committee's tasks include preparation of the board's decisions in remuneration-related matters. This includes decisions to deviate from the guidelines. Such deviations must be reported and justified in the subsequent compensation report.

Salary and terms of employment for other employees

In preparing the board's proposal for these remuneration guidelines, the salaries and terms of employment for the company's employees have been considered by including information about the employees' total remuneration, the components of the remuneration and the remuneration increase and rate of increase over time in the board's decision support material for evaluating the reasonableness of the guidelines and limitations set out herein. The remuneration report on paid and outstanding remuneration covered by the guidelines will include a report on the development of the gap between company management's remuneration and other employees' remuneration.

Changes from previous guidelines

The board's proposal for guidelines for remuneration to senior management prior to the 2021 AGM is mainly in accordance with the guidelines decided at the 2020 AGM. During the review prior to the 2021 AGM, changes have been made regarding the reduced bonus cap for the CEO, as well as some proposals for clarifications regarding notice periods and severance pay.

More information

On the date of submission of these proposed remuneration guidelines for senior management, SkiStar has no remuneration commitments not due for payment other than ongoing commitments to senior management in accordance with the remuneration principles adopted at the 2020 AGM. Further information about remuneration at SkiStar, see the remuneration report and the annual report, which will be available at www.skistar.com/en/corporate no later than three weeks prior to the AGM.

22. Resolution regarding authorization for the Board of Directors to resolve on new share issues

The board of directors proposes that the AGM authorises the board of directors to resolve upon new issues of shares in accordance with the following.

The board of directors is proposed to be authorized to, on one or several occasions during the period until the next AGM, to resolve on new issues of Class B shares. A new share issue may be made with or without deviation from the shareholders' preferential right. The authorisation shall include the right to resolve on a new share issue with cash payment, payment by contribution in kind or payment by set-off and otherwise subject to conditions as set out in Chapter 2, Section 5, Paragraph 2, 1-3 and 5 of the Swedish Companies Act. Decision pursuant to the authorisation may not result in a new issuance of shares exceeding ten (10) percent of all shares in the company at the time of the AGM's decision on the authorisation. An issue of new shares based on this authorisation must not result in the company's

share capital exceeding the company's maximum allowed share capital as set out in the articles of association. Shares shall, in case of deviation from the shareholders' preferential right to subscription, be issued on market terms. The board shall be entitled to determine other terms for the share issue.

The purpose of the authorisation, and the reason for deviation from the shareholders' preferential right if any, is to give the board increased options to, completely or partially, finance any future investments/acquisitions by issuing new shares as payment in connection with agreements on acquisitions alternatively to raise capital for such investments/acquisitions. The board, or anyone appointed by the board, shall be authorised to make such minor adjustments of the resolution of the AGM that may be necessary in connection with registration with the Swedish Companies Registration Office and has the right to otherwise take the measures required to enforce the decision.

23. Resolution on authorisation providing the Board of Directors with the right to pass resolutions regarding acquisitions and sales of the company's own shares

The board of directors proposes that the AGM authorises the board of directors to resolve on the acquisition and sales of the company's own shares according to essentially the following.

The board of directors' proposal entails that the board be authorised, until the next AGM of shareholders, to pass resolutions on one or more occasions regarding the acquisition of Class B shares in the company; however, the company's holding may not, at any time, exceed ten percent of the total number of shares in the company. The acquisition of shares shall take place in a regulated market or via an offer of acquisition made to all shareholders. Acquisition of shares in a regulated market may only take place at a price that is, at any given point in time, within the registered share price interval – that is, the interval between the highest bid price and the lowest selling price. An offer of acquisition made to all shareholders may take place at a price equivalent to the lowest market value at the time of the offer, with a maximum deviation of plus 20 percent.

Furthermore, the proposal by the board of directors entails that the board of directors be entitled to pass resolutions, on one or more occasions until the next AGM of shareholders, regarding the sale of the company's own shares in a regulated market or in conjunction with the acquisition of companies or operations. The authorisation includes the right to pass resolutions on deviation from the preferential rights of shareholders and resolutions that establish forms of payment other than cash funds, on the basis of in-kind payment, offsetting or on the basis of other conditions. The authorisation may be utilised for the maximum number of shares stipulated in the authorisation to acquire the company's shares. Transfers in a regulated market may only take place at a price that is, at any given point in time, within the registered share price interval. Transfers in connection with acquisitions shall take place at a price which, in all essential manners, corresponds to the market value for the company's share at the time of entering into the acquisition agreement.

These authorisations aim to provide the board of directors with increased scope in working with the company's capital structure and, if deemed appropriate, to facilitate acquisitions. The reason for the deviation from pre-emption rights, with regard to transfers made in conjunction with the acquisition of companies and businesses, is to create alternative forms of payment for such acquisitions. The board, or anyone appointed by the board, shall be authorised to make such minor adjustments of the resolution that may prove necessary in connection with the implementation of the board's resolution on repurchase and transfer of own shares.

Documents prior to the Annual General Meeting etc.

Accounting documents, auditor's reports and the complete texts of the board of directors' and the nomination committee's proposed resolutions and statements pursuant to the Swedish Companies Act and the Swedish Corporate Governance Code will be made available to shareholders at least three weeks prior to the AGM, at the company's address: SkiStar AB, Sälffjällsgården, 780 67 Sälen, Sweden, and on the company's webpage: www.skistar.com/en/corporate. Copies of these documents will also be sent, free of cost, by post or e-mail to the shareholders upon request, and upon receipt of a postal or e-mail address and will be available at the AGM.

Special majority requirements

For valid resolutions in accordance with item 22 and 23 on authorisations for the board of directors, the proposals shall be supported by shareholders representing at least two thirds of both the votes cast and the shares represented at the meeting.

Shareholders' right to request information

Shareholders present at the AGM retain the right to request information regarding matters on the agenda or the company's financial position according to Chapter 7, Point 32 of the Swedish Companies Act (2005:551).

Number of shares and votes

The number of registered shares in the company as per the date of issuance of this notice is a total of 78,376,056, of which 3,648,000 are Class A shares and 74,728,056 are Class B shares. The total number of votes is 111,208,056. The company holds no own shares.
