#### **BUSINESS OUTLOOK**

Verkkokauppa.com Oyj's business operations are estimated to develop positively in the future. The company believes that it will succeed in further growing its market share in the chosen categories. The strong balance sheet enables the company to continue expanding its operations in accordance with its strategy.

The company has benefited from the shifting consumer behavior accelerated by the COVID-19 pandemic, as the sales in the online sales channel have shown strong growth. The company expects this trend to continue the longer the COVID-19 pandemic persists and that the accelerated shift to online sales channels continues.

At the same time, the prolongation of the COVID-19 pandemic continues to have a negative impact on spending on travel and service sectors. On the one hand, this has positively affected the consumer demand for goods, but on the other hand, it has limited the lower-margin wholesale business. The short-term risk is that COVID-19 situation and related restrictions continues longer than anticipated in Finland. This may have an impact on the company's operations and its ability to safely serve customers in the brick-and-mortar stores.

The uncertainties concerning the future business outlook remain and relate to macroeconomic developments and the prevailing COVID-19 situation. The pandemic may still cause unforeseen impacts on the overall economic development, consumer demand as well as consumer purchase behavior and B2B sales in the future. Nevertheless, the company believes that it is well positioned and will be a relative winner in the "new normal" business environment of the future.

#### FINANCIAL GUIDANCE

The company expects the revenue to be between 570–620 million euros (2020: 554 million euros) and comparable operating profit to be between 20–26 million euros (2020: 20.4 million euros) in 2021.

#### **CEO PANU PORKKA'S REVIEW**

In 2020, online shopping became the preferred way of shopping for a growing number of Finns. This migration from offline to online was accelerated by the COVID-19 pandemic when people had to reduce visits to physical stores and got used to the convenience of online shopping and home deliveries. As a pioneer of ecommerce, Verkkokauppa.com clearly benefitted from this trend.

The peak shopping season began on Black Friday and continued until Christmas. During this online shopping season of all times, the increased preference for shopping online could also be seen in Verkkokauppa.com's business, as already 66% of all purchases from Verkkokauppa.com were done online and 65% of these online purchases were delivered home. In the same period, the number of visitors on Verkkokauppa.com's website grew by 25% compared to the same period last year and reached an all-time high of 14.2 million (11.4 million).

Verkkokauppa.com's revenue returned to double-digit growth, increasing by 10.1% to 176 million euros (160) in the fourth quarter. The growth was driven by the strong performance of mid-sized product categories, especially major domestics appliances (MDA) and sports equipment. The development of MDA category was especially satisfying and it is growing from a mid-sized category to one of Verkkokauppa.com's core categories. At the same time, the export business continued to suffer from travel restrictions due to COVID-19.

Verkkokauppa.com's profitability continued to develop favorably in the fourth quarter. The company's gross margin grew to 15.1% of revenue (13.9%), especially driven by the strong performance of mid-sized, highermargin categories. Also the comparable operating profit grew, reaching a record-high 6.2 million euros (4.5). In each quarter of 2020, the company has delivered the best-ever comparable operating profit of that respective quarter. In the fourth quarter, Verkkokauppa.com's comparable operating profit was the best quarterly comparable operating profit in the company's history.

Verkkokauppa.com's latest ranking in the YouGov BrandIndex is also source of pride. Verkkokauppa.com is the most recommended brand in its comparison group. Our brand is clearly and positively on people's mind when they are making purchase decisions. These results show that persistent and systematic work in developing the brand is paying off.

Today, Verkkokauppa.com's announced its refined strategy. The company's vision is to remain as a pioneer of ecommerce also in the next decades through continuous innovation. The company's success will be built on five pillars: excellent customer experience and strong brand, efficient fulfilment, superior technology backbone, extensive assortment and cost competitiveness. Verkkokauppa.com is seeking growth both within its core categories as well as by expanding into segments with attractive margin potential, especially online. Additionally, the company sees attractive growth opportunities in the B2B segment, private labelling and in value added services. We are also keeping our eyes open for potential M&A opportunities. By getting all this right, Verkkokauppa.com will aim to reach an annual revenue of one billion euros and a 5% EBIT margin by the end of 2025.

I'm proud of Verkkokauppa.com's performance in 2020 and wish to thank our personnel for their hard work during these unusual times, and our shareholders and customers for their continued trust. Verkkokauppa.com is in an excellent position to benefit from the ecommerce boom. In 2021, we want to increase Verkkokauppa.com's market share, especially online, and continue to deliver on the company's customer promise of "Probably always cheaper prices".

#### **REVENUE AND PROFITABILITY DEVELOPMENT**

#### October–December 2020

In October–December 2020, Verkkokauppa.com Oyj's revenue grew by 10.1% year on year. Revenue grew by 16.1 million euros, totaling 176 million euros (159.9). Sales increased particularly in Major domestic appliances, Small domestic appliances, Sports, Toys, Office & Supplies, and Home & Lighting.

The company-financed customer financing proceeds were 1.0 million euros (0.9) including both interest income and fee income. The credit loss allowance was increased by 0.2 million euros (0.1) in the fourth quarter.

Personnel costs increased in October–December by 14.3% to 10.4 million euros (9.1). The increase resulted mainly from the growing personnel costs in IT administration, purchasing, retail stores, customer service and from bonus payment covering the whole staff. During the reporting period, other operating expenses increased by 18.6% to 8.9 million euros (7.5). The increase resulted mainly from higher external logistics service costs, increased IT and marketing expenses and increased credit loss allowance.

Operating profit in October–December 2020 was 6.2 million euros (4.5), comparable operating profit was 6.2 (4.5) and profit for the period 4.7 million euros (3.2).

Earnings per share were 0.10 euros (0.07) in October–December 2020. In January–December 2020 earnings per share were 0.33 euros (0.17).

#### January–December 2020

In January–December 2020, Verkkokauppa.com Oyj's revenue grew by 10.1% year on year. Revenue grew by 49.5 million euros, totaling 553.6 million euros (504.1). Sales increased particularly in Major domestic appliances (MDA), Sports, Audio & Hi-Fi, Office & Supplies, BBQ and Toys.

The company-financed customer financing proceeds were 3.6 million euros (3.3) including both interest income and fee income. To reflect the prevailing uncertainty related to customers' payment behavior in the future and changes in continues debt sales pricing, the credit loss allowance was increased compared to the end of 2019 and totaled 1.1 million euros (0.6). As of April 2019, Verkkokauppa.com has been selling past due receivables in a so-called continuous debt sales model, where receivables overdue more than 60 days will be sold to third parties. This decreases company's accounts receivable risk.

Personnel costs increased in January–December by 9.1% to 35.6 million euros (32.6). The increase resulted mainly from the growing personnel costs in IT administration, marketing, retail stores and from bonus payment covering the whole staff. During the reporting period, other operating expenses increased by 13.1% to 28.8

million euros (25.5). The increase was mainly driven by advisory costs relating to transferring to the official list of Nasdaq Helsinki, increased credit loss allowance, external logistics service costs and IT-related costs.

Operating profit in January–December 2020 was 19.6 million euros (11.3), comparable operating profit was 20.4 (11.3) and profit for the period 14.6 million euros (7.8). Items affecting comparable operating profit totaled 0.8 million euro (0.0).

#### FINANCE AND INVESTMENTS

Operating cash flow was 16.9 million euros (9.7) in January–December 2020. In the reporting period, the relative improvement of the operating cash flow resulted from improved sales margin.

Ordinary seasonal fluctuations are reflected in cash and cash equivalents, cash flow and accounts payable, which usually reach the highest point at the end of the fourth quarter and the lowest point at the end of the second quarter.

Investments totaled 1.4 million euros (1.2) in January–December 2020. During the reporting period the company invested and capitalized 0.6 million euros (0.1) in salary costs and external technology consulting fees related to new IT systems and the development of new ERP features. #### Notes

#### 1.1 Accounting principles applied in this Financial Statements Release

Verkkokauppa.com Oyj is a public limited company, the shares of which were quoted until 4 June 2020 on the First North Growth Market of Nasdaq Helsinki Ltd marketplace and are quoted on 5 June 2020 onwards on the official list of Nasdaq Helsinki Ltd. The registered address of its head office is Tyynenmerenkatu 11, Helsinki.

Verkkokauppa.com Oyj's Financial Statements Release for January–December 2020 has been prepared in line with IAS 34, 'Interim Financial Reporting' and should be read in conjunction with Verkkokauppa.com Oyj's financial statements for 2019, published on 4 March 2020. Verkkokauppa.com Oyj has applied the same accounting principles in the preparation of this Financial Statements Release as in its Financial Statements for 2019.

Verkkokauppa.com Oyj has not adopted any new accounting policies during 2020 that would have a material impact on this Financial Statements Release.

The information presented in this Financial Statements Release has not been audited. The figures are rounded, and therefore the sum of individual figures may deviate from the aggregate amount presented. All amounts in this report are presented in EUR thousands, unless otherwise stated.

### Management judgement related to the choice and application of accounting policies and measures following the COVID-19

The preparation of this Interim Financial Report required management to make judgements, estimates assumptions that affect the application of accounting principles and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

Since the outbreak of COVID-19 pandemic the company has started several initiatives to secure business continuity and staff safety. The company is monitoring and reporting on the COVID-19 situation on a frequent basis. As the conditions surrounding the COVID-19 pandemic are constantly changing, it is still difficult to estimate its impact on the economy, consumer demand as well as purchase behavior, B2B sales and wholesale. Since March 2020, the company has monitored customers' payment behavior and the development of account receivables on a daily basis and has managed credit limits and potential credit losses. No significant changes have been observed in customers' payment behavior. COVID-19 has also not had a significant effect on inventory turnover or impairment. There have been no significant changes in the Company's leases or payment terms as a result of COVID-19 that would have affected the company's right-of-use assets or their lease liabilities. The current strong cash position and unused RCF facilities (20.0 million euros) will secure business continuity even under these exceptional circumstances.

#### 1.2 Segment reporting

Verkkokauppa.com Oyj has one reportable segment. The management of Verkkokauppa.com Oyj has exercised judgement when it has applied the aggregation criteria to aggregate the operating segments into one reportable segment. The customers are the same across all operating segments, which offer the same goods and services in uniform conditions in one main market i.e. Finland. At the core of the company's business model is a strong integration of webstore and retail stores, common support functions serving the entire business as well as the volume benefits enabled by centralized business.

#### **1.3** Revenue from contracts with customers

The revenue streams of the company consist of the sale of goods and services. There are more than 65,000 products in 26 different main product categories that the company sells to consumers through its own webstore and four retail stores in Finland. The sale of services rendered by the company includes, for example, installation and maintenance services, subscription sales and visibility sales. Revenue is accumulated geographically mainly from Finland.

Revenue from sales of products is recognized at a point in time when the control has been transferred. The revenue from services is recognized mainly over time.

#### **Determining fair values**

Level 1: Fair values are based on the (unadjusted) quoted prices of identical assets or liabilities publicly traded in active markets.

Level 2: Financial instruments are not traded in active and liquid markets, but their fair values are calculable based on market data.

Level 3: Measuring of financial instruments is not based on verifiable market data, nor are other factors influencing the fair value of the instruments available or verifiable.

The equity investments in level 3 contain unquoted shares. According to the assessments of the management, measurement at cost is closest to fair value. There have been no changes in the carrying amounts during the financial year 2020. There have been no significant transfers between measurement categories during the review period.

#### LONG-TERM INCENTIVE PLANS

The Board of Directors of Verkkokauppa.com Oyj has on 13 February 2020 resolved to establish a new sharebased incentive plan for the CEO and the members of the Management Team. The aim of the new plan is to align the objectives of the shareholders and the management in order to increase the value of the company in the long term, to encourage the management to personally invest in the company shares, to retain the members of the Management Team at the company and to offer them a competitive reward plan that is based on acquiring, earning and accumulating the company's shares.

In the new Performance Matching Share Plan 2020–2022, a person may earn a number of matching shares based on their investment in Verkkokauppa.com Oyj's shares and the Total Shareholder Return (TSR) of the share. The Performance Matching Share Plan includes one performance period, calendar years 2020–2022. The reward to be paid to participants is based on the achievement of the required TSR levels set by the Board of Directors. A maximum of three performance-based matching shares is paid for each allocated share. The prerequisite for participation and receiving of reward is that a participant allocates freely transferable company shares, held by them, in the plan, or acquires the company's shares up to the number determined by the Board of Directors. Furthermore, payment of reward is based on the participant's valid employment or service upon reward payment. As a rule, no reward will be paid if a participant's employment or service ends before the reward payment.

The target group of the plan consists of eight persons, the CEO and all other members of the Management Team. In accordance with the terms of the plan each participant is entitled to get a gross number of shares. However, a net number of shares will be paid to the participant after the company has withheld and paid the value of a part of the shares to cover the employee's tax obligation. The rewards to be paid on the basis of the plan correspond to the value of approximately 540,000 Verkkokauppa.com Oyj shares in total (gross amount).

#### Alternative performance measurement

In this Financial Statements Release, Verkkokauppa.com Oyj presents certain key figures that are not accounting measures defined under IFRS and therefore are considered as Alternative Performance Measures (APM). Verkkokauppa.com Oyj applies in the reporting of alternative performance measures the guidelines issued by the European Securities and Market Authority (ESMA).

Verkkokauppa.com Oyj uses alternative performance measures to reflect the underlying business performance and to enhance comparability between financial periods. The company's management believes that these key figures provide supplementing information on the income statement and financial position.

Alternative performance measures do not substitute the IFRS key ratios.
