(“EURO” or “the Company”) (Paris: EUR) today announced its unaudited statutory interim financial results prepared in accordance with International Financial Reporting Standards (“IFRS”) for the nine months ended September 30, 2023. Liquidity and capital resources

Cash at September 30, 2023 totaled €24.5 million as compared to €21.4 million at December 31, 2022. The increase was mainly due to cash flow from operating activities, partially offset by the dividends and income tax paid.

Marketable securities

EURO holds marketable securities related to mining companies which are part of a volatile market. Share market price exposure risk is related to the fluctuation in the market price of marketable securities. Investments in marketable securities are recorded at fair value.

As at September 30, 2023, marketable securities were comprised of 19,095,345 shares of Orea Mining Corp. (“Orea”) (8.4% of outstanding shares; December 31, 2022: 8.8%) and 3,819,069 shares of Allegiant Gold Ltd. (“Allegiant”) (3.7% of outstanding shares; December 31, 2022: 3.7%).

Royalty assets

(Refer to MD&A for more detail)

As at September 30, 2023, the Company's impairment review indicated that the facts and circumstances did not represent an indication of potential impairment for Rosebel and Bombore.

The statements by the French Government in 2019 regarding the Compagnie Minière Montagne d'Or (the joint venture) have created some uncertainty around the delivery of the various authorizations and permits not yet obtained and required for developing the project and can potentially affect the operational and financial capacities of the project. On May 10, 2022, Orea reported that the French Supreme Court has admitted the final appeal of the French Government on the renewal of the Montagne d'Or project mining titles, following the fact that the Administrative Court of Appeal in Bordeaux had rejected the French Government's appeal in July 2021. On December 21, 2022, Orea published its financial statements as of September 30, 2022 in which the investment relating to the Montagne d'Or project is fully depreciated. On January 4, 2023, Orea announced that it has signed a Definitive Agreement to acquire Nordgold's 55.01% interest in the Montagne d'Or joint-venture company ("HoldingCo"). The Definitive Agreement was signed with the approval of the French treasury which is responsible for overseeing matters related to Russian sanctions. On March 1, 2023, Orea reported that it wished to obtain comfort on sanctions from the Canadian government prior to proceeding with closing. On June 9, 2023, Orea provided an update on the closing of the acquisition of the additional 55.01% interest in the HoldingCo. Orea's application was rejected by the Canadian government based on the interpretation of the Minister that Orea cannot guarantee that any potential future CAN\$100 million payment to Nordgold would be paid into a frozen account if sanctions still apply at the time of the payment. Following this, Orea announced on June 13, 2023 that they have provided Nordgold with a formal notice of termination of the acquisition. On July 6, 2023, Orea reported that Orea and Nordgold have mutually agreed to retract the termination of the acquisition and have proposed amended terms to the share purchase agreement. The applicable sanctions authorities have been provided with a copy of the amended agreement and have advised Orea that they are currently reviewing it. On July 20, 2023, Orea reported that the amended agreement has been fully executed by Orea and Nordgold. Orea remains the owner of a 44.99% interest in the Montagne d'Or project.

In the impairment test performed at December 31, 2022, the Company considered that the events that occurred in 2022 questioned the viability of the project and its ability to generate future economic interest. Consequently, the Company has fully impaired the value of its royalty asset as at December 31, 2022. No indication of recovery in the value of the royalty asset has been identified as at September 30, 2023.

RESULTS OF OPERATIONS UNDER IFRS

Nine months ended September 30, 2023 compared to the same period in 2022 (IFRS)

Under IFRS, EURO reported net earnings of €18.7 million (€0.299 per share) for the nine months ended September 30, 2023 compared to €9.3 million (€0.149 per share) for the nine months ended September 30, 2022.

During the nine months ended September 30, 2023, EURO accounted for revenues of €24.6 million, an increase compared to revenues of €15.0 million for the same period in 2022. Revenues were mainly attributable to the Rosebel royalty for the first nine months ended September 30, 2023 and only attributable to the Rosebel royalty in 2022. The increase in revenues was mainly due to a higher gold production of 170,126 ounces in the first nine months of 2023 compared to 110,774 ounces in the first nine months of 2022 (€7.9 million) and by a higher average gold price in the first nine months of 2023 of US\$1,930 per ounce of gold compared to US\$1,827 per ounce of gold in the first nine months of 2022 (€1.8 million), partially offset by a strengthened euro (€0.3 million). Operating expenses for the nine months ended September 30, 2023 were €0.52 million compared to €0.39 million for the same period in 2022. The increase was mainly due to higher legal fees in 2023.

The amortization expense of €0.44 million during the nine months ended September 30, 2023 was higher than the amortization expense of €0.20 million recorded during the same period in 2022, mainly due to Bombore royalty asset amortization based on production achieved during the first nine months of 2023 and higher production at the Rosebel mine compared to the same period in 2022.

The investment income for the nine months ended September 30, 2023 was €0.93 million compared to €0.13 million for the nine months ended September 30, 2022. The increase was mainly due to the increase in the interest rates and to higher bank balances in the first nine months of 2023.

EURO recorded a foreign exchange gain of €0.56 million in the first nine months of 2023 compared to a loss of €0.15 million in the first nine months of 2022, mainly due to the revaluation of dividends payable, bank accounts and income tax payable.

EURO recorded an income tax expense of €6.4 million in the nine months ended September 30, 2023 compared to €5.1 million in the same period of 2022. The increase was mainly due to the tax impact of higher earnings, partially offset by translation adjustments.

The amortization expense of €0.14 million during the third quarter of 2023 was higher than the amortization expense of €0.07 million recorded during the third quarter of 2022, mainly due to higher production at the Rosebel mine and to Bombore royalty asset amortization based on production achieved during the third quarter of 2023.
