Report on payments to governments

To provide for enhanced transparency on payments made to governments, BW Energy Limited (“BW Energy” or “the Company”) has prepared a report as required by the Norwegian Securities Trading Act §5-5, following the requirements set out in the Norwegian Accounting Act §3-3d where entities which are active in extractive industries are required to disclose material payments made to governments in the countries in which they operate in a separate report. The report is made on an annual basis at field and country level including additional contextual information, consisting of certain legal, monetary, numerical and production volume information.

This report provides the above-mentioned information for BW Energy's activities in the financial year 2021. The regulation requires the Company to prepare a consolidated report on direct payments to governments, including payments made by subsidiaries, joint operations and joint ventures, or on behalf of such entities involved in extractive activities.

BW Energy currently holds majority interests in three hydrocarbon licenses. These are in Gabon, Brazil and Namibia and are held through subsidiaries established for license ownership. The Company is the operator of all three licences. Payments may be made to governments in the country of operation as well as to governments in the country where the subsidiary resides.

This report includes payments made directly by BW Energy to governments, such as taxes and royalties. The report details the full payment made on behalf of the joint operations and joint ventures (100%) where applicable.

Payments made to host governments in the form of production entitlements are also included in the report. In Gabon, BW Energy is party to a Production Sharing Contract (PSC) under which tax is paid in kind by virtue of the contractual Profit Oil allocation for the State of Gabon's participation in the license. The size of such entitlements may in some cases constitute the most significant payments to governments.

Payments to governments are reported in the year that the actual cash payment was made (cash principle). Amounts included as contextual information are reported in the year the transaction relates to (accrual principle), regardless of when the cash flows occurred, except for Income tax paid (cash principle). Amounts are subject to rounding. Rounding differences may occur in summary tables. Payments constitute a single payment, or a series of related payments that equal or exceed USD 100,000 during the year. Payments below the threshold in a given country will not be included in the overview of payments. Payments to governments in foreign currencies (other than USD) are converted to USD using the average annual 2021 exchange rate.

The consolidated overview below discloses BW Energy's payments to governments in each country, according to the payment type. The overview is based on the location of the receiving government.

Report on payments to governments - USD million

Countries	Production Entitlements ¹	Royalties ²	Bonuses	Fees	Other	Total
Brazil - Maromba						
Agência Nacional do Petróleo (ANP)	-	0.2	-	-	-	0.2
Gabon - Dussafu						
Direction Générale des Hydrocarbures (DGH)	45.3	11.2	-	6.5	-	63.1
Gabon Oil Company (GOC)	22.4	-	-	-	-	22.4
Namibia - Kudu						
Ministry of Mines and Energy	-	0.5	-	-	-	0.5
